Dory, of Warsaw, Ill., was troubled with rheumatism and tried a number of different remedies, but says none of them seemed to do him any good; but finally he got hold of one that speedily cured him. He was much pleased with it, and felt sure that others similarly afflicted would like to know what the remedy was that cured him. He states for the benefit of the public that it is called Chamberlain's Pain Balm. For sale by C. F. Moore & Co.

The number of requests we have received during the past few weeks for sample copies of the Graphic has been in excess of anything we have experienced in this way since our connection with the paper. We take this as an indication that a large number of people are looking toward Oregon with a view of home building. A large addition will no doubt be made to our population during the next year. Just what conclusions these people, to whom we send sample copies, arrive at when they look the paper over and see that none of our real estate men are doing any advertising, we are unable to say. This is a problem we refer to our dirt dispensers for solution.
Mr. Albert Favorite, of Arkansas City, Kan., wishes to give our readers the benefit of his experience with colds. He says: "I contracted a cold early last spring that settled on my lungs, and had hardly recovered from it when I caught another that hung on all summer and left me with a hacking cough which I thought I never would get rid of. I had used Chamberlain's Cough Remedy some fourteen years ago with much success, and concluded to try it again. When I had got through with one bottle my cough had left me, and I have not suffered with a cough or cold since. I have recommended it to others, and all speak well of it." 50 cent bottles for sale by C. F. Moore & Co., druggists.
H. R. Winchell and L. Stearns, a couple of agents of the State Insurance company, from Portland, struck town last week and proceeded to solicit insurance without first interviewing recorder F. H. Howard and depositing the required amount of cash for a license. Marshal Mills took them in tow and escorted them to the presence of the recorder who placed the fine at \$7.50 each. A careful search of their pockets revealed that they were several dollars short of the necessary amount of cash, so they rushed off to the telegraph office and wired to the company at Salem for instructions as to what course they should pursue. The comforting message came flashing back over the wires, "pay your own bills." This damped the boys' courage to some extent, but they finally deposited a watch with the marshal while one of them went to Portland to raise a relief fund. The fine has been paid and the solicitors are older and wiser, but they have volunteered a lot of advice regarding our city government. City chaps sometimes get the conceit taken out of them when they undertake to show off in a "country town." Kimball pianos. Moore, Portland, Or.

Next Wednesday the 22nd, being Washington's birthday, a half holiday will be given at the college. A literary program has been arranged and B. B. Beckman, a Portland attorney has been secured to deliver an address appropriate to the occasion. Mr. Beckman is said to be an entertaining speaker.
Samuel Beck formerly from England, but at present from Minneapolis, Minn., is in town. He is a member of Friends church, and while he is not a minister of the gospel he has for a number of years been doing a good work among the membership by house to house visiting. He held a meeting for the business men at the Y. M. C. A. rooms last Tuesday night which was well attended.
For the benefit of some of our young people whose parents turn their loose on the streets at all hours of the night regardless of the consequences, the city fathers ought to pass an ordinance requiring all under 18 years of age to be in after seven o'clock in the evening. Where home discipline is at loose ends the proper enforcement of such an ordinance might save some of our young people from ruin.
A. M. Hadley would like to meet the young man or two of them that want a good permanent business. It will require men with a little nerve and stick-to-it-iveness, and small capital. Must be persevering and determined to succeed, accommodating, polite, genteel, kind and of good address. Men not looking for an office job or a soft snap, but for such an one there is a soft snap in the future.
An accident, which came very nearly being a fatal one, occurred at the brick factory last Tuesday. Mr. Terrell while looking after some of the machinery about the press, passed too near a revolving shaft which caught the tail of his coat and wound it up in a jiffy. The belt flew off just in time to save his life, as one more revolution would have crushed him to death. As it was the bruising of one arm was about all the injury he sustained, but it was a close call.
We often hear the remark that while the gravel on our streets is all right now, it will cut all to pieces next winter unless as much more is put on next summer. We assert that such will not be the case and are willing that this assertion may be filed for future reference if the skeptical desire to lay it up against us. A few places may need filling in, in the course of another year but the same amount will not be needed for some time. Of course it would be better if the whole width of the street could be coated with gravel but to say what has been done will be lost without it is folly.
