### NEWBERG GRAPHIC.

ISSUED EVERY FRIDAY MORNING.

EDITORS AND PUBLISHERS:

E. H. WOODWARD AND OSM. C. EMERY.

FRIDAY, APRIL 7, 1893.

Entered as second class matter at the post office at Newberg, Oregon.

CARTER HARRISON one of the most corrupt politicians of the age has been elected World's Fair Mayor of Chicago.

It is to be hoped that Cleveland will appoint a man to succeed the late Judge Deady who has as clean a reputation in his home as the deceased had.

KANSAS women are coming to the front. In the recent municipal elections in some of the towns in the state there were more women registered than men.

Old Indian John, once the proud chief of the Columbia river Indians died at the poor-house at Portland last week. He was supposed to be about 125 years old.

The World's Fair management has announced that every thing will be in readiness for the opening on the first of May. Our commissioners say that the Oregon exhibit is getting on nicely and will be there on time.

THE PROGRAM for the coming meeting of the Oregon State Horticultural Society at Eugene will be found in this issue. This meeting will be full of interest to fruit growers. The subjects of evaporating fruit, pruning trees and the organization of fruit growers are full of interest to every one engaged in fruit raising.

MICHIGAN has passed a more stringent mortgage tax law than the one repealed by the last Oregon legislature. It provides for the taxation of mortgages at their face value, no matter where they are owned, the owner of the property to have his taxes reduced by the amount of the mortgage; the taxes on the mortgage may be paid by the owner of the property and deducted from the interest due the holder of the mortgage.

THERE are forty-four Jersey cows now on the grounds at the World's Fair that were selected from 30,000 standard bred cows from twenty-two states by the American Jersey Cattle Club, of New York. They are entered in the great dairy competition, by which it is to be determined the best grade of dairy cows.

Among the states represented in this stable are: Alabama, 3; Connecticut, 5; Iowa, 3; Illinois, 2; Kentucky, 6; New York, 7; New Jersey, 4; Massachusetts, 3; Michigan, 1; Minnesota, 1; Ohio, 1; Missouri, 2; Wisconsin, 2; Pennsylvania, 3; Vermont, 1. Alabama leads with the champion butter-maker of America. This cow is Signal's Lily Flag, with a record of 1,047 pounds of butter in one year. She is the property of W. E. Matthews, of Huntsville, Ala., and she is valued at \$15,000. Massachusetts comes next in order with Euroclissina, an ex-champion, with a record of 479 pounds of butter in a year. This animal is owned by D. F. Appleton, of the Waltham Watch Company.

### CROP-WEATHER BULLETIN NO. 1.

#### INTRODUCTORY.

This is the first weekly bulletin of the 5th year of its issuance. In the past we have aimed, and it is to be hoped exceeded, to have the entire state thoroughly, promptly and accurately reported in these bulletins; the information which they contain is for the public, to be used by those who are interested, as the merchant carefully seeks information relative to the supply and demand of that which he has for sale, so much the more should the farmer, who produces, seek for information relative to the prospects, supply and demand of that which he produces. Manufacturers and producers of all commodities guides their business entirely by such information and statistics as they can obtain, at great expense to them, hence it behooves the farmer, the buyer, the consumer to seek information from these reports, furnished at the expense of the United States by direction of the secretary of agriculture for the benefit of the whole people. By co-operation on part of the press of the state the information collected by this bureau relative to Oregon is made public and if sufficient desire is manifested for the information it will be endeavored to secure from the wheat districts of the east a telegraphic report to be included each week in these bulletins. We have secured the services of several hundred citizens, principally farmers, who will report for their section the general weather and crop conditions. Efforts have been made to improve the system, to make it more thorough and more comprehensive. That the people of Oregon appreciate the work of the bureau is shown by their actions and it causes us to exert ourselves the more to furnish to the people such information as they want relatively to the weather and crops of Oregon. To disseminate information at the World's Fair, concerning Oregon's current weather and crop statistics, the Oregon World's Fair Commission have made

arrangements with this bureau to have a telegraph on Tuesday of each week a brief resume of Oregon's weather and crops. This telegram will be plainly written on a black board made for the purpose and displayed at the Oregon exhibit thus furnishing information to millions concerning our climate and our productions.

#### THE PAST WINTER.

Winter, so called, is yet with us. The temperature varies from 35 to 60 degrees; but the weather is cloudy and the rains are frequent, though not heavy. Throughout the state the temperature is from two to five degrees a day below the normal and the rainfall is deficient for the period from July 1st last to date from 15 to 20 per cent. The winter was devoid of any marked low temperatures. About January 1st the lowest temperatures were recorded; in the mountains and higher elevations of eastern Oregon it was from 3 to 21 degrees below zero; to the west of the Cascades it was from 5 to 29 degrees above zero. The market feature of the winter was the heavy snowfall, especially west of the Cascades from December 23rd to 25th and from January 27th to February 5th. The snowfall in sections was unprecedented. Over the wheat area of the state the snow fell and formed a covering for the fall sown wheat, during the period of the extreme cold.

The snow was generally lighter over the stock country, and reports indicate the stock to be in good condition and that there has been a very small percentage lost. More was lost by being killed by coyotes and wild cats than those that died from the effects of lack of food or shelter.

The acreage of wheat has generally been increased, in some counties to a large extent. The amount of wheat seed or that will be, will make an acreage larger, even than the immense acreage of 1891, when it was 635,000 acres, from which fourteen million bushels of wheat were harvested.

The winter and first month of spring, taken as a whole, have been decidedly cooler than usual, with a deficiency of precipitation. These conditions have materially retarded the advancement of vegetation and also retarded the sowing of spring grain.

#### PRESENT CONDITIONS.

Reports from all parts of the state show that there is not even an almond in bloom yet. In 1893 on March 22nd, the peach, almond, cherry, apple and plum trees were in bloom on April 2nd. In 1891 the buds were backward but on March 28th many fruit trees were in bloom and in 1892 on April 2nd the fruit trees could be said to be in bloom. Pruning of fruit trees is about done, but few orchards, if any, have been so far cultivated. The buds are swelling now and in a few regions color can be seen on the ends. Present conditions and indications point to a most favorable fruit year. The acreage of fruit has been greatly increased this is especially true of peach, prune, pear and apples trees. Spraying has been commenced in Jackson county.

Very little plowing has been done so far this spring. The soil is very wet and quite cold. The rains considerably delay spring work. The principal increase in this year's growth will be in wheat, fruit and hops, the latter appears to be very generally increased. Reports all indicate unusual activity in agricultural and horticultural operations, and both start out under the most favorable auspices for a successful year. The cold, damp season, retarding bloom as it is, will materially assist the fruit production of the year. It prevents growth to grain, but allows of its standing and rooting. While the present looks favorable for a successful year, it should be borne in mind that in years past, April frosts have injured fruit and a few days dry, hot winds in June have cut the expected yield in wheat from 30 to 10 bushels per acre.

B. S. PAURE,  
Local Forecast Official.

#### Oregon State Weather Service.

##### SUMMARY.

WHITFIELD, NEWBERG, Or., March, 1893.	
Elevation above sea level	430 ft.
Mean temperature	44.5°
Departure from normal	-1.5°
Maximum temperature	63° date 5th
Minimum	29° date 2nd
Mean of maximum temperature	51°
" " minimum	38°
Number times maximum temperature 90° or above	0
Number times minimum temperature 32° or below	3
Number times minimum temperature 40° or below	20
Total precipitation	4.30 in.
Departure from normal	+0.47
Greatest precipitation in 24 consecutive hours, and date	0.57 on 18th
Prevailing direction of wind	"
Number of clear days	8
" " partly cloudy days	5
" " cloudy days	24
" " days on which .01 or more of precipitation fell	22
Number of days on which .54 or more of precipitation fell	17
Dates on which hail fell	12th and 30th
" " snow fell	9th and 12th
" " light frost	2nd, 9th and 12th
Date of lunar halos	29th
The month has been unusually cold, rainy. Vegetation has consequently retarded, also all farm work.

### PROGRAM

Of the thirtieth quarterly meeting of the Oregon State Horticultural Society to be held at Eugene, Oregon, Tuesday and Wednesday, April 11th and 12th, 1893.

TUESDAY, APRIL 11TH, 2 P. M.

Address of Welcome, Hon. John McCullough, Mayor of Eugene. Response, Pres. J. E. Cardwell, Portland. Fruit Evaporation, A. H. Carson, Grant's Pass.

A few Practical Thoughts on Prune Culture, Morris Humphrey, Eugene. San Jose Scale and Codlin Moth, Emile Schanno, The Dalles.

TUESDAY, 8 P. M.

Fruit Packing Practically Illustrated, H. E. Battin, Portland. Geology, Soil History of Oregon, Prof. Thos. Condon, Eugene.

Illustrated Talk on the Hop Loss and Codlin Moth, Prof. F. L. Washburn, Corvallis.

Fungus Diseases of Plants and Fruits, Dr. A. Sharples, Eugene.

WEDNESDAY, APRIL 12TH, 1:30 P. M.

Fruit Growers' Organization for Future Markets, J. M. Wallace, Salem. Soils of Oregon, Prof. Dumont Lutz, Corvallis.

The Grape and its Culture, Rev. D. E. Loveridge, Eugene.

Pruning Practically Illustrated, A. H. Carson, Grant's Pass.

WEDNESDAY, 8 P. M.

Report of work in Floral Department, Mrs. J. C. Corl, Portland.

Some Choice Forms of Oregon's Flora Under Cultivation, Mrs. S. Collier, Eugene.

MUSIC.

Pansey Culture, Miss Ella Talbot, Talbot Heights.

MUSIC.

Y. P. S. C. E. CONVENTION.

The convention of the Young People's Society of Christian Endeavor of Yamhill county met at the Baptist church in Newberg on Saturday morning of last week at 10 o'clock.

The president of the convention, Pres. Thomas Nowlin was in the chair, with Walter F. Edwards occupying the position of secretary. Amos Stangbrough gave a short address of welcome to the visiting delegates which was responded to by Rev. Denton pastor of the Christian church of McMinnville.

The delegates present were as follows: LaFayette Evangelical: E. E. Washburn, Rev. E. Curren, Anson Henry, Fred Henry, E. Cary, Jacob Schneider, Frank Billington, Fred Derby, Henry Edmiston and the Misses Lydia Washburn, Mabel Baker, Viola Smith, Isora Edmiston, Lola Edmiston and Laura Sampson. McMinnville Baptist: W. T. Fellows and Ralph E. Storey. Dundee Union: Rev. A. M. Bray and Miss Mary Sweetman. Amity Union: Mrs. R. O. Jones, Austin Howard, Henry Patty, Miss B. Ingraham. Newberg Christian: Miss M. Maris, George Hash and J. E. Todd. Sheridan Union: R. Earl and Miss Lulu E. Churchman. McMinnville Christian: Mrs. A. Todd, Miss M. Guille, T. B. Kay, Rev. Denton, and M. D. Dodson. Springbrook Union: J. H. Hutchinson, Charley Mitchell, Glee Holaday and Prof. Richard Hawthorn. Newberg Friends did not appoint any delegates but instructed the whole society to attend.

The reading of the reports showed that there were fourteen societies in the county, an increase of nine since September 10, 1892. Number of active members 445. Number of associate members 71. Number of members who have joined with some of the churches during the past year 94. Amount of money raised for mission purposes \$161.85. For local work \$303.25. Total \$465.10. The program as published last week was carried out with but little variation.

Notwithstanding the continued rainy weather the surrounding towns sent good delegations.

A well prepared paper on "The Prayer Meeting," was read by E. E. Washburn of the LaFayette delegation. His paper showed a careful study of the subject.

Long prayers received an all round hand sitting down on by everybody. They don't count in Christian Endeavor meetings. Rev. Clark, the founder of the Y. P. S. C. E. says the reason he never makes long prayers is, he keeps prayed up all the time.

The paper prepared by Miss Lizzie Clark of Sheridan, on "The Relation of the Christian Endeavor to the Church," was read by Miss Lou Churchman, the writer being absent.

The signs of the times indicate morals of a higher tone among the young people throughout Yamhill county in the future. Such a number of young people showing an active interest in religious work could not have been gathered together in any town in the county two years ago.

"Our Missionary Responsibility," by J. E. Todd, and "The Junior Work," by Mrs. J. J. Jossup were well prepared papers that were listened to with much interest.

On account of the union services held at Friends church on Sunday morning the other churches adjourned and attended there. President Nowlin combined Endeavor and Easter Sunday services in one of his characteristic sermons which was well received by the large audience present.

E. S. Miller of Portland, president of the State Union, gave a very interesting

talk on the various features of the work on Saturday night. He also conducted the exercises at the Y. M. C. A. rooms on Sunday afternoon. Mr. Miller is an enthusiastic Endeavorer, a good singer and a very pleasant talker.

The place for holding the next meeting has not been determined on. Either Sheridan or Amity will probably be chosen.

It has not been very long since it required a base ball game or a dance, to get a company of young people together in most of the towns in the county. The large number of bright intelligent young men and women present as delegates from these towns indicates that a change for the better has taken place. The better element of society all over the county rejoices to see the change.

A meeting of more importance to the moral and religious interests of Yamhill county has never been held within our borders. Get a young man or woman started right and then surround them with Endeavor influences and their chances for an upright christian life are all favorable.

W. C. T. U. Meeting.

The W. C. T. U. met in the Y. M. C. A. rooms as usual, on the 29th ult. The attendance was good and the meeting very interesting, it being the last meeting of the year. A summary of the reports showed that a diligent work had been done. From the superintendents of twenty-six departments, full reports were presented by all with the exception of four. These reports show that an amount of good seeds have been sown, here the past year, they will spring up in God's own time. Then will come the rejoicing when the sheaves are being gathered in.

"We cannot expect to be reapers  
And gather the bright golden ears  
Until we first have been sowers  
And watered the furrows with tears."

The average attendance for the past year was twenty and one-fourth. We began the new year with sixty paid up members. The following named persons are the presiding officers: President, Mrs. J. H. Townsend; Recording Secretary, Mrs. Wm. Allen; Corresponding Secretary, Mrs. W. T. Macy; Treasurer, Mrs. Christensen, and vice-presidents from the different churches represented: Baptist, Mrs. Marshall; Christian, Mrs. Hash; Presbyterian, Mrs. N. E. Britt and Friends, Mrs. Bowerman. We feel quite strong and able for the work with these as our leaders and with our one Great Leader, for he was never foiled in battle nor beaten in conflict. Victory will be ours for "Right is sure to win."

### THE HAWAIIAN DEATH-PRAYER.

Upon the minds of such a priest-ridden people as the Hawaiians were, while under their ancient form of religion, it was but natural that superstition should gain a rooted hold. The most curious and effective belief to which they were made subject was that a man can be prayed to death—a belief that survives among the natives to the present day. For the success of the tragical death-prayer it was necessary to obtain some hair or a piece of finger nail of the intended victim. A priest was then employed to use incantations and prayer for his destruction. The efficacy of prayer was terribly illustrated in these cases and the results prove how deeply superstitious fear was implanted in the Hawaiians' heart. Always informed of the doom that the priest was invoking upon him, the victim generally pined away and died.

There is a story current that an Englishman in the service of Kanehameha I., having incurred the displeasure of a priest, the latter proceeded to "remove" him by the death-prayer process. The Anglo-Saxon, however, set up an opposition altar in derision, and jokingly proclaimed that he intended to pray the priest to death. Alarmed at the threat and overwhelmed at the failure of his own incantations, the sorcerer died, proving by his death his faith in his religion. —E. Ellsworth Carey, in April Californian.

For Sale.  
40 acres of choice fruit land, 15 acres cleared. 1,000 fruit trees and small fruit. Good house and barn, 2 miles from Newberg. For particulars call at Newberg Nursery or address A. B. Cooper, Newberg, Oregon.
