Dr. J. E. Connet, The Missionary. Dr. J. E. Connet who has been located on Douglas Island, Alaska, as superintendent, physician and teacher in the Friends Mission, which was founded a few years ago by E. W. Wessner of our town, arrived here last Monday and remained in town until yesterday morning. He had with him a couple of bright Indian children, a boy nine years old and a girl thirteen, which he is taking east where he will have them educated at his own expense. He thinks of taking them to Bloomington, Indiana, where he has

friends who will assist in the work. After they receive their education he hopes to have them return to Alaska to engage in mission work. Tuesday night at Friends monthly business meeting, the doctor gave a talk on mission work among the natives in Alaska that was very interesting to every one present, whether they had ever felt any special interest in mission work or not. He is a well educated, bright, intelligent christian man, who would be able to make his mark in the world along any line almost that he would be willing to mark out, even though the competition was strong, and it seems at first thought rather a dark picture to look upon, when you think of such a man turning his back on all these possibilities and entering a field where there seems to be but little except degraded manhood and womanhood of the lowest type to look upon. He feels however that his place is among these benighted aborigines and he seems very happy and cheerful in occupying the field of labor that lies before him. After spending a day or two at Salem he will start east with the children. He expects to spend a short time at his old home in Crawford county, Illinois, after which he will return to Alaska, hoping to reach there the first or second week in June.

**Public School Commencement.**  
The public school commencement exercises at Friends church last Friday evening were very interesting. All the graduates acquitted themselves with credit to themselves and their teachers. However, it was a noticeable fact that of the ten exercises only three were original productions, which did not speak very well for the originality of the class. We feel sure that any one of them could have written something in the way of an essay that would have given their audience a better idea of their ability than could be gained by listening to their recitations. It was a fact worthy of notice that of the ten graduates, only two were boys, and both these from the country. This is quite an item in favor of the girls, and a very hard hit at some of the boys in town who, to judge by their actions, had rather smoke cigarettes and loaf about the streets than fit themselves for useful positions in life. Following is the program:  
Invocation.  
Song, "Climb for the Top," Class.  
"A Legend of Brezeng," Edith D. Graves.  
"The Voiceless Chimes," Etna B. Heston Oregon, Hervey M. Hoskins.

"The Bridge Keeper's Story," Lulu Lamb Music.  
Influence of Fashion, Leona M. Sims.  
"The Fireman," Otta Fickett.  
"Jimmie's Prayer," Mammie Maria.  
"Kate Shelly," Stella Lyon.  
Class Prophecy—Valedictory, Mazie Hunt.  
Address, Rev. T. C. Brown, Conferring Diplomas. Class Song.  
Dr. Connet, The Missionary.
