Time has proven that J. C. Sawyer wielded the longest pole and the post office commission dropped into his hat the first of the week. Mr. Sawyer of course is happy, as the Newberg post office is now a plum worth the seeking, but the other boys—well there wasn't enough places to go round and that is where the rub comes in. We know nothing about Mr. Sawyer's plans regarding the office but we have no doubt but that he will prepare an office well calculated to serve the patrons of it, and we believe it will be kept in neat shape.

Mr. Sawyer is to be congratulated on his success at the end of the race.

It is stated that there are some boys and a few who are older, who persist in disturbing the inmates of the Chinese wash house by throwing stones whenever opportunity offers. This is not right, and should be stopped by proper authorities.

While we do not favor encouraging the Chinese to start a laundry while there are so many white people who would be glad to do the work, we protest that it is wrong to abuse them, so long as they attend to their own business. There are places where a Chinaman can make money by washing and if he cannot do so here he will go away one of these days. Thus, we think, is the proper way to solve this question.

We have no grievance against Chinamen simply because they are Chinamen, but we do think that as long as there are needy women in town who are anxious to get washing to do in order to raise money to get the necessities of life, they deserve to get it, in preference to able bodied men of any nationality, especially when they will do the work in a more satisfactory manner.
