

NEWBERG GRAPHIC.

ISSUED EVERY FRIDAY MORNING. EDITORS AND PUBLISHERS: E. H. WOODWARD AND ORM. C. EMERY. FRIDAY, JUNE 16, 1893.

Entered as second class matter at the post office at Newberg, Oregon.

KANSAS rainmakers are not to be compared to an Oregon picnic for bringing a gentle sizzle sozle.

The report that President Jordan was to leave Stanford University is denied by Senator Stanford. It seems to have been a newspaper fable.

The Great Northern railroad has made a cut rate of \$25 from Seattle to St. Paul. This will no doubt set the ball to rolling and it is quite probable that a general war will ensue.

J. H. Urton, member of the late lamented legislature of Oregon, is still airing his views on the subject of the employment of unnecessary clerks in both houses of the legislature.

Ten years ago everybody went to picnics in lumber wagons, but in those days a top buggy or a fine carriage is required. Nearly every dollar of the money paid out for these rigs has gone out of Oregon and has helped make eastern manufacturers rich.

The unfortunate difference of opinion which is eventually to terminate in a split in the Evangelical church, has again come up in the affairs of the LaFayette Seminary. Unless care is exercised it will result disastrously to the school, which, by the way, has been doing excellent work in the past.

The capital city received a compliment recently from the Astoria Budget. Of course it was unintentional, but a compliment none the less.

On Monday last week an old Polk county man named Grosse, married a young Salem woman, after only a few hours acquaintance. In this case the course of true love didn't run very smoothly, for on Tuesday the old man had his bride arrested for fraud, and on Wednesday she was having papers drawn up for a divorce on the ground that the old man was insane.

The Columbia Snake and tributary rivers are gradually rising and the prospects are for a continuous rise. Considerable danger yet exists and while high water is to be expected, yet it is probable that they will attain a higher point than they have in 1889, 1882, or 1887, when in each of these years the river was from 26 to 28 feet at Portland.

AT THE WORLD'S FAIR. In the Cape Colony exhibit are 40,000 rough diamonds. A cheese weighing 22,000 pounds is one of the Canadian exhibits.

OUR SECRETARY OF STATE. Hon. Geo. W. McBride has gone to Mt. Helens to breathe the free mountain air of his native home.

CROP-WEATHER BULLETIN NO. 12. WESTERN OREGON. The week has been cooler than the preceding week.

Under the roof of the Horticultural building are two groves of orange-trees over 100 trees in each grove and a couple of hundred oranges on each tree.

A map of the United States, 18x24 feet, made of pickles, is a Pennsylvania idea. Cities are indicated by spices. The lakes and rivers are of vinegar.

In the East Indian exhibit is a wedding cloth. It required two years' work by Jat and Baisnava women. The red ground is woven. The rest of it is embroidery. This cloth is worn only on the wedding day.

The Millionaire Zachille, of Dresden, was fifteen years making the collection of armor and weapons in the museum of the German village. The collection is valued at \$1,000,000, and was sent to the fair by the owner at the request of the German government.

A Scotchman, who employs 4,000 French women in Paris making lace, has sent a pair of curtains for a bay window. In the six months required for the making of these curtains 2,000 different women worked on them.

During the fore part of the week warm easterly winds prevailed for two days, changing to cooler and cloudy weather, with occasional light sprinkles during the latter few days, especially on the 10th. The mean temperature varied from 48 to 64 degrees, as against 59 to 62 degrees of the preceding week.

In the Columbia river valley counties the easterly winds did some damage to wheat on this soil, the change to cooler and cloudy weather and the occasional showers have been of great benefit to the crops.

The Columbia Snake and tributary rivers are gradually rising and the prospects are for a continuous rise. Considerable danger yet exists and while high water is to be expected, yet it is probable that they will attain a higher point than they have in 1889, 1882, or 1887, when in each of these years the river was from 26 to 28 feet at Portland.

OUR DUMB FRIENDS. It is rather remarkable to note the number of people, in passing about, who have little or no regard for the life, to say nothing about the comfort of dumb brutes under their care.

THE BIGGEST YET. The salmon usually caught at the falls with his spoon and line are the young ones weighing from two to five pounds but occasionally an old stager takes the hook and is landed.

QUAKER CITY Poultry Yard. C. E. Butler, Breeder and Proprietor of Quaker City Poultry Yard, has for sale and satisfaction guaranteed.

THE RACKET. Mrs. M. J. Sassi, Prop. The cheapest place to buy Notions, Hosiery, Handkerchiefs, Laces, Lace Curtains, Ribbons, Towels, Etc.

VALLEY POINTS. River Steamers Wm. M. Hoag & Three Sisters leave Portland Sunday, Wednesday and Friday at 6 a. m. Leave Salem, north, Tuesday, Thursday and Saturday at 8 a. m.

LAND SET TO FRUIT. Improved land \$12 to \$25 per acre. Large farms \$20 to \$50 per acre. Cleared land in 5 to 20 acre lots, \$40 to \$60 per acre.

JOSEPH COOK, MARION, OREGON. Correspondence solicited. Address, JOSEPH COOK, MARION, OREGON.
