Last fall I was taken with a kind of summer complaint, accompanied with a wonderful diarrhoea. Soon after my wife's sister, who lives with us, was taken in the same way. We used almost everything without benefit. Then I said, let us try Chamberlain's Colic, Cholera and Diarrhoea Remedy, which we did, and that cured us right away. Newberg has as much sidewalk as any town in Oregon of its size, but we stop right here to say that we believe it to be the duty of the city council to get to work and fix it up or see that it is done by property owners. The blocks have worked from under the walks in many places, causing them to shake and sway in a very unpleasant manner. This shaking loosens the nails and in many places, besides the unpleasant rattle of loose boards, the walks are absolutely unsafe to travel on unless one walks in the middle of them. A "stitch in time saves nine," and this applies to sidewalks as well as to anything else, and if the city of Newberg does not want to pay for a broken log one of these days, a few hours work should be done.
