Hinchman Cooper was out south last week as far as Grant's Pass. At that point he sold nursery stock to the amount of \$2,500. The peach crop, although not up to the average, will be fair. One orchard he saw, he thinks will produce 2,500 boxes.

A letter was received from Prof. Hartley the first of the week, written from Fountain City, Indiana, in which he stated it was so hot that he could not sleep with a clear conscience. To the person who enjoys sound, refreshing sleep, Oregon is a haven of rest.

R. D. Allen, of Silverton, will attend the meeting of the horticultural society tomorrow, and speak on some subject with reference to our horticultural interests. Mr. Allen is a practical fruit grower and all our fruit raisers ought to be out to hear him. Tell all your neighbors and send word to other people.

Cyrus Hoskins has originated a new cherry that gives great promise of making a sensation in the cherry world. He sent a sample box to Washington city, the first of the week, to be examined by the chief of bureau of horticulture and there was nothing small about them. Nine of them laid in a row covered a space of eleven and three quarter inches.

F. A. Morris and wife and J. C. Colcord, wife and daughter, left on last Wednesday morning at an early hour for Scott's Mills. The ladies said they intended remaining for a short time to visit and breath mountain air and take on cheek. The conditions are no doubt favorable and we shall look for much improvement in this particular on their return. Morris and Colcord will probably return today loaded with several bear stories.

Last fall I was taken with a kind of summer complaint, accompanied with a wonderful diarrhoea. Soon after my wife's sister, who lives with us, was taken in the same way. We used almost everything without benefit. Then I said, let us try Chamberlain's Colic, Cholera and Diarrhoea Remedy, which we did, and that cured us right away. I think much of it, as it did for me what it was recommended to do. John Hertzler, Bethel, Berks Co., Pa. 25 and 50 cent bottles for sale by C. F. Moore & Co., Druggists.

Next Saturday is the time for the regular meeting of the horticultural society. The election of officers and other important business that will claim the attention of the meeting ought to bring out a large crowd. Come out and bring your neighbors.

Any one having good specimens of any varieties of fruits that will do to send to the World's Fair, can leave them with E. H. Woodward, C. E. Hoskins or Wm. Allen, the committee to receive and forward them. Newberg can make a good showing if all will take an interest and help. R. S. Isaacs, Pres. Hort. Society.

She has since used it whenever necessary and found that it never fails. For sale by C. F. Moore & Co.

If some parents about this town do not exercise a little more authority to prevent their off-pring from handling or using tobacco they are liable to have cause to regret it. A couple of lads are in the habit of running a doll rack at every public gathering where they are allowed to do so, and we are informed that they have cigars to give away "allice same" grown people. This warning ought to be sufficient.

Those who have seen the Oregon exhibit at the World's Fair, say Cy Hoskins' knocks out all other competitors in the fruit exhibit. The fruit sent by some of the Portland crowned heads is purposefully given more prominence than that sent by Mr. Hoskins, but his fruit is getting the front in the eyes of the visitors just the same. He has forwarded several boxes of cherries that are world beaters. This is an advertisement for Chehalis valley fruit that will tell.

Rev. G. C. Wilding, of Vancouver, Washington, delivered the first of a course of five lectures arranged for at the M. E. church, last Tuesday night. His subject was, "To Briton and Back." Mr. Wilding is full of wit and humor and none of his hearers went to sleep while he was speaking. Considering the number of lectures and entertainments we have had lately, the audience was of very fair size. The next in the course will be on next Tuesday night when Rev. C. C. Stratton will deliver his lecture, "Paradise Restored." This is said to be a very fine lecture. Admission only ten cents. The house ought to be filled.

The track layers arrived here last Friday. Three rails are now laid from Portland to Dundee which covers the Portland and Yamhill divisions. We understand that it will probably be several days before the third rail is laid as far as Whiteson, so that connection can be made with the West Side division.

The Edison concert at the college on last Saturday night, which was in charge of Mr. Wirtz, of Forest Grove, was well attended. The selections were very good and the audience was well pleased with the evening's entertainment. What has been accomplished with the phonograph in bringing out the natural tone and pitch of the human voice is really wonderful. Just what there remains to be discovered about electricity no one knows, but the public is prepared for almost anything.

Master Bennie Reese who has been visiting here for some time returned home last Monday with Alya Cook. He has a bear story to tell that he will not soon forget. He and a couple of the Vantress boys while out fishing were suddenly brought face to face with a hunter and two dogs in a fierce combat with a bear. The man, who evidently did not see the boys, poured the shots rapidly, but fortunately none of the shots hit them. The boys took to their heels, and they, as well as the bear, got away safely, but badly scared.

Prof. Joseph Moore, of Earlham College, Richmond, Indiana, arrived here from California on Thursday last week and remained until last Monday. He had been in California for some time and while there delivered a course of lectures on the subject of higher education. There are a number of persons here who have known the Professor for a number of years, some as a schoolmate and others as a teacher, and he was greatly surprised to find so many familiar faces to greet him on his arrival. He preached at Friends church on Sunday morning to a large audience and delivered a temperance lecture in the afternoon. A man of his intelligence always receives a warm welcome in Newberg and his coming, although unexpected at this time, was highly appreciated.

Bicycle and Base Ball Contest.

A fair sized crowd paid their two bit price into the treasury of Pacific Hotel on last Saturday afternoon to witness the contest for the medal in the bicycle race, and to see the ball game between the Lafayette and Woodburn nines. McMinnville was represented by a small army of wheelmen who came down to see Hibbs carry off the thirty-five dollar gold medal, and it was really too bad to see the boys disappointed, as they were apparently honest in the belief that the medal was already within their grasp, and then they rode a long distance over the dusty roads to see the walk-away they had billed for Hibbs.

"Why," said they, "Adams would have won the other medal if his wheel had not broken in the fall he got, and here we have a better man than Adams." But the boys were doomed to disappointment, all owing to the simple fact that Hibbs proved to be several lengths too slow for Edwards.

The entries were, Hibbs and Adams of McMinnville and Edwards and Jones of Newberg. They got a good start in the first heat and all went well until the first quarter was reached, when to the surprise of everybody, Hibbs took a tumble. Just why he made such a break nobody seemed able to give a reasonable answer. This ended his part in the first heat. Edwards won the heat easily, with Jones and Adams coming in an even second. Edwards also won the second heat without any special effort and was awarded the prize. Hibbs came in second but was away behind.

The medal was made by E. D. Elwood, the jeweler, and is a beauty. O. K. now wears two medals won this season and says it is enough for the present and will lay aside wheeling for the season and devote his time to work at home.

The ball game took up the rest of the evening and at the close the score stood 13 to 15 in favor of Woodburn. It was

Mr. and Mrs. Nathan White and Mrs. Craven and daughter Gertrude, drove up from Middleton on Thursday evening of last week to attend the lecture delivered by Addison Coffin. They returned home after the lecture.

The ball game took up the rest of the evening and at the close the score stood 13 to 15 in favor of Woodburn. It was

rather an interesting game, although the score ran up pretty well. Brooks the pitcher for Lafayette did some very good work during the first half of the game but lacked the strength to hold up to the end of the game. Washburn who pitched for the Woodburn nine proved to be the jolliest pitcher that ever tossed a ball in a game here, and his work was admired by all who saw him.

The band furnished good music and everybody seemed to enjoy the afternoon. Considering everything the receipts were very satisfactory.

Picnicing.

The day appointed for the W. C. T. U. picnic dawned beautiful and clearly. The committee of arrangement had their plans complete. Teams began to leave town as early as nine o'clock, and continued to arrive until noon, at the beautiful fir grove near the Corbly school-house, which had been selected for the occasion.

Tables spread with snowy white cloths, decorated with bouquets of flowers, and loaded with eatables of choice and tempting variety, including free ice cream for all present, was no small item of interest at the noon hour when all partook of the bounteous repast.

At two o'clock the company was seated in front of the platform to listen to the program which consisted of music and speeches. Mrs. Harford, on behalf of the worthy people of Corblyville extended a hearty welcome to all in such a pleasing manner that we knew it was from the heart, hearty. Wm. Allen responded, delivering one of the best gospel temperance addresses we have heard. He based his remarks on the prophecies of Isaiah. Among the many things he said, he spoke of the white ribbon worn by the W. C. T. U., as the web that shall bind the serpent intemperance then the W. C. T. U. will not be changed but will read "What Christ Teaches Us."

Mrs. Mary Moon's account of a picnic in Alaska was listened to with eager interest. Space forbids a full recital. Said their "bill of fare" consisted of bread, beans and molasses with berries which they picked after arriving on the grounds, and some fish which the children caught during the day.

Recitations were given by Bessie, Don, and Kenneth Chase, Edna Hobson and Nellie Burrows.

Mr. Joshua Smith gave a short but pointed speech. As is customary to reserve the best for the last, Mr. Harford gave the closing speech. He gave us many solid facts in a real speech making way. Said, "we must reap what we sow." "We have planted the seed, we must wait for it to grow." "Let the things of God on this subject permeate our whole being even to the end of our fingers, so that we can drop the ballot for God and Home, and Native Land."

Thirteen new names were added to the list of membership. The absence of our president was lamented as she was detained at home on account of sickness. She was reminded of this by the bouquets and a liberal supply of cake sent her. We were so attracted by the program that we had not perceived any side issues and at its close were agreeably surprised to see the long table again spread with cake and ice cream.

We feel grateful to the good people of Corblyville for their kind invitation which gave us profitable recreation and the committee of arrangement deserve special credit for making the picnic a success in every way.
