My! How elated the average Oregon wheat raiser must feel with the price of what at 49 cents. Here's an industry, that while not an infant is as worthy of protection as many another. But there is very little protection in this.
As it is not our prospect to carry farm implements next year, but give all our room to hardware, stoves and furniture. We will sell wagons, hacks, carriages, buggies, plows, harness and cutlery, now held on consignment at cost until Jan. 1, 1894. J. H. TOWNSEND.
Albert Ault from the vicinity of Forest Grove was in town a day or two this week. He has sold out his land over there and is soon expecting to visit his former home in Hamilton county, Indiana, after which he will return and relocate somewhere in Oregon. He was much pleased with what he saw here.
Another kiln of very fine pressed brick was opened at the works this week. The indications are that at least twenty-five or thirty thousand of them are good face brick. Mr. Edwards thinks a larger percent of face brick can be burned in each kiln by making some changes in the kiln which he will have done at once. With the revival of business Newberg will turn out brick that will be in demand.
The regular meeting of the Woman's Foreign Missionary Society of Friends church will occur in the church on next Saturday at 2:30 p. m. This is the election of officers for the coming year and some other important business. A full attendance is desired. A called meeting of the Aid Society will be held at the close of the missionary meeting. There are important matters for consideration. MARY E. K. EDWARDS, Pres.
The Y. P. S. C. E. of the Friends church will have a social in Prof. Jessup's park next Saturday evening the 19th. A part of the evening will be spent in playing games, after which there will be a short literary program. An enjoyable time is anticipated. The young people are all cordially invited. We believe that God will be with us in this social meeting, as in our Sabbath evening prayer meeting. Let us go breathing the prayer that our every act will meet with His approving eyes and that there will be seeds of good sown that will by and by be a rich harvest for our Master.
SOCIAL COMMITTEE.
The second biennial report of the Oregon State Horticultural Board has been printed and can be had by applying to the secretary. The report is a book of about 350 pages and contains much valuable information for fruit growers of Oregon. It is in papers written by the best and practical fruit growers of the state on insects, insecticides, orchard planting, cultivation, pruning, evaporating, marketing, floriculture, smaller fruits and many other subjects. I will agree to see that every paid up member of the Chalem Valley Horticultural society is furnished with one of the reports. It will pay you to join. E. C. ANASTROSO, Sec.

A gentleman named Nels Christenson, who with his son had recently arrived from the east, and who was staying with friends up the valley, died of hemorrhage of the lungs last Saturday, and was buried Sunday. He was about sixty-two years of age.
Frank Storey's renown as a tin and iron worker is not confined to Newberg. A gentleman came over from Carlton one day last week and gave him a job of fitting up his dryer with pipe, having learned of his success in this line. It pays to do good work in any line, and no one knows it any better than Frank Storey.
Mrs. Hunter, who is mother and not the mother-in-law of E. D. Elwood, as we said last week, is still very low at the hospital in Portland. She suffers great pain from a cancer, which her physicians say will doubtless result in her death in a few weeks. This will be sad news for Mrs. Hunter's many friends at Cord-olive and about Newberg, who though they have only known her a short time, have found her to be an estimable christian woman.
One of S. Brutscher's big teams became unmanageable last Saturday and a runaway was the result. There were three men in the wagon. S. Brutscher, his son George, and a man named Alexander, who were thrown out and badly hurt by the overturning of the wagon. Alexander has quite a bad scalp wound and several severe bruises to remember the incident by, while S. Brutscher has been in bed all week as a result of his severe shaking up. George, however, did not get off as easily as the others, having had a large triangular piece of his scalp torn loose and his skull badly fractured. He was taken to Portland Tuesday, where he can receive proper treatment and where he will doubtless soon recover. Drs. Littlefield and McConnell have charge of the others, who are doing nicely.
The Misses Daisy and Lulu Trueblood returned last Monday from an extended visit with friends at Milwaukie. A correspondent from that place writing to the Oregon City Enterprise, says of their visit: "Friday evening some of the young ladies and gentlemen gave a boating party in honor of the Misses Daisy and Lulu Trueblood of Newberg, who are visiting old acquaintances here. The boats were decorated with Japanese lanterns, and a full stringed orchestra furnished the music. Refreshments were served and every one had a good time. Those present were Misses Daisy and Lulu Trueblood, Hattie and Dora Bonnet, Rosa and Anna Scott, Anna Rogers, Anna Wilson, Messrs. Oscar and George Weissinger, T. J. Gary, Charles Mullan, J. C. Hungerford, Robert and James Wilson.
The success of Mrs. Annie M. Beam, of McKeesport, Pennsylvania, in the treatment of diarrhoea in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johnston, Pa., after the great flood, on account of my husband being employed there. We had several children with us, two of whom took the diarrhoea very badly. I got some of Chamberlain's Colic, Cholera and Diarrhoea Remedy from Rev. Mr. Chapman. It cured both of them. I knew of several other cases where it was equally successful. I think it cannot be overpraised and cheerfully recommend it." 25 and 50 cent bottles for sale by C. F. Moore & Co., Druggists.

Any fruit grower can now have the opportunity of shipping his green fruit to the eastern markets by refrigerator cars through the Earl Fruit Company of California. This has been a very satisfactory way of disposing of such fruits in California, as their business there amounts to about 100 car loads per week. Fruit will be received, if properly gathered and delivered at the cannery in Newberg and properly packed and delivered on board the steamer Modoc for shipment to Portland on any trip down. The steamer will deliver the fruit at Ainsworth dock and immediately be placed under refrigeration on being packed in the car on the other side of the dock. No person should undertake to pack and ship until thoroughly posted in all the details. It is desired that each grower learn to pack and ship his own fruit. For further information inquire of Cyrus Hoskins or myself. Jesse Hobson.

Dr. Miles Medical Co., Elkhart, Ind.
Gentlemen: I take pleasure in informing you of the very beneficial results which have followed the use of Dr. Miles' Restorative Nervine in the case of myself and wife. For a year I was subject to a distressing pain at the base of the brain and upper portion of the spinal cord. I was unable to get up, but both were greatly recommended to me. My case had been so obstinate that I had no confidence in the efficacy of any medicine. Yet as a last resort I consented to give it a trial. Much to my surprise, I experienced marked benefit; my sleeplessness, disturbed health, nervousness, my general health improved. I soon gained twenty pounds. All this occurred after learning and well known physicians had failed. My wife is taking the Nervine and has also gained twenty pounds. I would not be without it. LOUIS D. VANDERBERG.
