SUNSTRUCK IN BATTLE!
DR. WILSON'S MEDICAL CO. ELEVATOR.
I must say the Restorative Nervine and Nerve and Liver Pills have done me great good.
FOR YEARS I HAVE NOT FELT AS WELL AS NOW.

The starting point of my disease was a sunstroke received in battle before Fort Hudson, Louisiana, June 10th, 1862. Up to the time of beginning to take Dr. Wilson's Restorative Nervine and Nerve and Liver Pills I had had a continual distressing pain in my head; also, weak spells, and the past four years I have had to give up everything of an active character, and stay in the house for a 11 months.
I HAVE CURED MYSELF IN A FEW MONTHS. I KNOW YOUR REMEDIES HAVE CURED ME, and that the cure will be permanent. Several of my friends are using your remedies, and all speak well of them. Yours truly,
COL. C. W. DEAN.

FROM OUR EXCHANGES.
Telephone-Register.
Wm. Abbot has sold the St. Charles hotel in this city to a gentleman from Gray's Harbor, who takes possession at once.
Christmas trees were given at the Baptist, Christian, M. E. and C. P. churches on Monday evening for the Sunday schools. All were largely attended and are spoken of as being very fine.

Yamhill County Reporter.
George Gamme, who for the past eight and a half years has been superintendent of the Broadmead farm, relinquishes his position January 1st, and will move to Forest Grove for the present. It is his intention to buy a farm of moderate proportions near some flourishing town. The community that is fortunate enough to secure him as a citizen can be congratulated.

A Reporter representative took advantage of a recent clear evening with others to gaze through the McMinnville college telescope. Jupiter was enlarged to the brilliancy of the sun in a fog, and its four moons were shown brighter than the planet appears to the naked eye. The hands across the planet were also clearly visible. An attempt was made to sight Venus, but it was headed off by a cloud. Those who desire the pleasure of a look through the telescopes will find Prof. Fargo courteous and obliging, when the heavens are clear. This telescope is a great feather in the cap of McMinnville college, there being but one other, it is said, on the coast, that of Lick observatory. We should feel very proud of it.

Dayton Herald.
We have been busy moving the Herald this week to new building on Alder street, between Second and Third streets, and therefore could not attend any Christmas festivities. We are informed that they were all excellent, and much enjoyed by all who attended and those who took part in the exercises.

Last week a young man in this vicinity, went to bring a young lady who lives about two miles in the country, to the Friday night dance. On his way back to Dayton with the young lady, she informed him that she would dance with him, but that she would return home with another young man, who the gentleman with whom she was riding, did not consider a proper person with whom to associate, or a young lady to keep company. The young man, to make sure that he heard aright asked the young lady if she really meant to go home with the person mentioned. She replied that she did. The gentleman immediately turned his horse in the road, and invited the young woman to alight from the buggy, which she did, being then about half way to Dayton. The young man drove on to town, leaving the young woman to follow on foot.

The new students whose names we have not yet learned, we wish to extend a word of welcome.
The work of the past term is reported to have been the best in the history of Pacific College. With this for encouragement and inspiration we should make the records of this term far exceed those of the one that has just passed.
