County Teachers' Institute.

The teachers' institute held at the college in this city last Saturday was one of the largest and most interesting ever held in the county. The morning session was opened with prayer by Pres. Newlin, followed by music.

The first paper by Miss Maggie Inglis, of the Newberg schools, on the subject of "Number Work," was one of the best given. The statement of her plan of work with primary pupils was very clear, and its advantages were demonstrated by blackboard illustrations.

The second paper, which was also illustrated by blackboard outlines, was by Prof. J. C. Hodson. His subject was "Physical Geography," and he handled it very ably. The institute then adjourned for dinner.

At 1:30, after an instrumental duett by Misses Mills and Larson, the regular work of the institute was resumed. In the absence of Prof. Lowe, Miss Hinchman, of Pacific College, consented to introduce his subject, "Physiology" which she did in an interesting talk of about ten minutes. This was followed by quite a lengthy discussion of the necessity of knowledge in this line, best methods of teaching, etc.

From 2:30 to 3:00 p. m. Pres. Newlin presented the subject of "Psychology." In his hands this subject, usually so dry and sleep-inspiring, took on a new coloring, and not a person present but showed appreciation by rapt attention.

Mr. B. O. Snuffer, from near McMinnville, next presented the subject of "Discipline" in an interesting talk of about thirty minutes duration. As usual, this subject brought out some discussion, and various plans were given for the solution of this problem which has vexed both teacher and pupil ever since schools existed.

The last exercise on the program was a paper on the subject of "Peace," by Mrs. E. B. Miles, of Newberg. The fact that it was secured for publication by vote of the institute, showed that it was appreciated. It will be found elsewhere in this paper.

The next institute will be held at Lafayette on the last Saturday in this month.
