WANTED—Pushing Conveyer of good address. Liberal salary and expenses paid weekly. Permanent position. BROWN BROS. Co., Nurserymen, Portland, Oregon. m2n13
Mrs. Alice Gove and Miss Lillian Pool of Portland visited with Mr. and Mrs. J. H. Townsend last Sunday. Miss Pool has been teaching in Mills Seminary in California for the past two or three years, but we understand she will teach in one of the eastern colleges next year.
Rob Cooper drove over to Scotts Mills Thursday with a load of furniture for John Brown. He will go into the mountains with Brown and Lamb and bring out a load of ore to be tested. Snow is still lying around in the mountains in abundant quantities and the air is not supposed to be sultry in that region.
Newberg people were pretty well scattered on the Fourth. Some went to McMinnville, others to Dayton and Oregon City, while others lunched on Chehalum mountain and some visited cherry orchards and filled themselves with this luscious fruit. A few of us remained quietly at home and took a rest, and held the town down.
See Newberg Milling Co. for all kinds of lumber.
Willamette steamers have been doing a big passenger business since the strike began. Business men and others within reasonable distance of the river find it very convenient just now to be able to find a river steamer to patronize. Inferior towns will be glad to welcome the old time stage coach again if this thing continues many days.
"Many of the citizens of Rainville, Indiana are never without a bottle of Chamberlain's Cough Remedy in the house," says Jacob Brown, the leading merchant of the place. This Remedy has proven of so much value for colds, croup and whooping cough in children that few mothers who know its worth are willing to be without it. For sale by C. F. Moore & Co., druggists.
Hors:—You will get a better price and be at less expense each year by getting a first class outfit. F. H. Storey has the best and heaviest horn stove made. The half inch bolts are all on the outside, it is put together with fire proof asbestos cement, has large draft, interchangeable grate bars, protected bottom plate, etc. Call and examine the stove and also make arrangements for your hop pipe. Mr. Storey puts out nothing but heavy steel pipe closely riveted which with this stove will make an outfit that will last you for years.

WANTED—To trade a nice, gentle bunch-grass, buckin' cayuse pony for a light running road cart. For further particulars call on Dallas Disney or Frank Holt.
If you want a pump go to Storey's. He handles the best made, fits them up himself and guarantees them to satisfy you. Galvanized pipe and fittings always on hand.
The hard earned dollars that went out of Newberg on the morning of the Fourth and failed to return in the evening will be wanted here again, but we are a patriotic people and must celebrate.

There seems to be something of a craze just now for prospecting for the yellow metal in the mountains. Palen Clark, young Mr. Cash and another young man started out the first of the week prepared for such a jaunt in the mountains, and Enos Ellis, H. O. Bowers, James Hammett and Irvine Estep left on Thursday for the south. We sincerely hope the boys will return fully rewarded for their time and outlay of money, but we fear they will be disappointed.
I have two little grand children who are teething this hot summer weather and are troubled with bowel complaint. I give them Chamberlain's Colic, Cholera and Diarrhoea Remedy and it acts like a charm. I earnestly recommend it for children with bowel troubles. I was myself taken with a severe attack of bloody flux, with cramps and pains in my stomach, one-third of a bottle of this remedy cured me. That Dr. Clark, having completed the Post Graduate Course of Dentistry at Chicago, is now ready to do the latest work in all branches of Dentistry. Aluminum plates with pink rubber attachments. Bridge work, and teeth extracted without pain by all of the approved methods. All work warranted first class.
Dr. Clark Home Again.
Dr. Harold Clark, who has been absent at Chicago for some time taking a post graduate course at the American College of Dental Surgery, arrived home last Tuesday evening. He came over the Union Pacific from Denver and was at Pendleton when the strike began. The passengers finally got through to Portland by riding twenty miles in lumber wagons and walking some three miles, and making a series of transfers on the Columbia.
Since his arrival Doc has been showing his friends his sheepskin which reads something like this: "Be it known by these presents, that Harold Clark having successfully completed the post graduate course of study in the American College of Dental Surgery of Chicago, Illinois, is presented with this certificate as evidence of the same." It bears date of June 29, 1904, and is properly signed and the seal of the college attached. Dr. Harper, professor of anesthetics, who stands at the head of the profession in this country, was his instructor in this department and he is now ready to administer the best known anesthetics to those who may call on him for dental work. We are glad to know that Newberg has a resident dentist who is fully able to do dental work of any kind in the best manner known to the dental profession.
His course in dental surgery was complete, as the college has the best faculty that can be obtained and there was no lack of subjects while he was there. Doc has a host of friends who are glad to see him back again.
Dangers that Lurk in Flowers.
According to the N. Y. Sun, science has succeeded fairly well in making humanity shudder over every bite or sup it takes, because of the deadly microbes that are said to abide in everything eatable or drinkable, and now it has started off on an entirely new crusade. You mustn't smell flowers now, or if you do, you take the consequences which science says this aesthetic pleasure entails.
A very learned French specialist, M. Jol, has just issued in Paris a treatise bearing the title "Le Danger des Fleurs." He writes most profoundly of the chemical decomposition of the atmosphere caused by the odors given off by flowers, and the consequent great increase of carbonic gas; of the partial asphyxia which results to human beings breathing this vitiated air; and of the poisoning of the system caused by inhaling the emanations of the essential oils contained in flowers. He backs up his assertions as to

the subtle viciousness of flowers by citing individual cases.
M. Jol says the smell of flowers is especially injurious to the vocal organs. The rose, and others flowers with a strong scent, should, he protests, be avoided. He knows of operatic singers who have completely lost their voices through their passion for certain flowers. To some persons the perfume of the violet is particularly injurious. Others should avoid the lilac, and others the gardenia. Personal susceptibility has much to do with the injurious effects that may result from smelling certain flowers, and M. Jol cannot, therefore, say what particular flowers should be avoided by certain temperaments.
The writer cites a case of a young woman who used invariably to faint at the smell of orange blossoms. The curious conjunction of a susceptible young woman and a bridal wreath in this illustration might lead to the supposition that there is more in the case than M. Jol makes apparent. He tells of a soldier who lost consciousness under the effect of the odor from a pony, and alleges that persons have been known to suffer a violent attack of coryza from smelling roses. It is suggested that a great percentage of the headaches, cold in the head, and the like ailments from which people, especially women, suffer, on the morning after attending a ball, dinner party or other social function, is a direct result of the odors of the floral decorations. This will, at least, be useful in supplying a new excuse to the man who wakes up in the morning with "a head."
As to the evil effects of flowers on the voices of opera singers, the teacher Faure, in his work on the voice and singing, cautions singers against keeping flowers in their homes or in their dressing rooms at the theater. Mmes. Richard, of the Paris Opera, forbids her pupils to have flowers about them, and it is asserted that Mms. Kraus, one of the star singers now at the opera, refuses to stay in a room with a bunch of violets. Another singer can stand the smell of roses, but the perfume of lilacs makes her hoarse. Even Mme. Calve is cited as saying that she suffers from dizziness and the headache after sitting in a room containing tuberoses or mimosa. She is quoted as giving an instance where, after singing at a concert, she received a bouquet of lilacs, and after inhaling the perfume a minute or so, she completely lost her voice, and did not regain it until she had taken a walk in the open air.
This suggests a serious consideration of the custom of presenting bouquets of flowers to singers, or of sending boxes of flowers to one's best girl. In fact, if M. Jol knows what he is talking about, science's new crusade means revolution, as well in the world of fancy as in that of fact.

TIRED, WEAK, NERVOUS, Could Not Sleep.
Prof. L. D. Edwards, of Preston, Idaho, says: "I was all run down, weak, nervous and irritable through overwork. I suffered from brain fatigue, mental depression, etc. I became so weak and nervous that I could not sleep, I would arise tired, discouraged and blue. I began taking Dr. Miles' Nervine and now everything is changed. I sleep soundly, I feel bright, active and ambitious. I can do more in one day now than I used to do in a week. For this great good I give Dr. Miles' Restorative Nervine the sole credit. It Cures."
Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at 50c. bottles for \$1.00, or it will be sent prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.
Sold by all Druggists.
