Last June, Dick Crawford brought his twelve months old child, suffering from infantile diarrhea, to me. It had been weaned at four months old being sickly everything ran through it like water through a sieve. I gave it the usual treatment in such cases but without benefit. The child kept growing thinner until it weighed but little more than when born, or perhaps ten pounds. I then started the father to giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. Before one bottle of the 25-cent size had been used, a marked improvement was seen and its continued use cured the child. Its weakness and puny constitution disappeared and its father and myself believe the child's life was saved by this remedy. J. T. Marlow, M. D., Tacoma, Ill. For sale by C. F. Moore & Co., druggists.

Our people have the reputation of being a well behaved people and we hope that no one will be guilty of any act at the meetings held by the Salvation Army that will lose us the reputation. The people have methods that are somewhat different from those that most church goers are accustomed to, but they are thoroughly in earnest and are reaching a class that churches fail to get and they are entitled to christian courtesy. We have seen them shamefully abused in some places by those who it seemed ought to have had better sense and if anything of this kind takes place here we hope to see the officers of the law take the thing in hand and make arrests promptly.
