The low rumbling sound of thunder somewhere to the east in the region of the Cascade mountains has been heard here a few times lately. Distance lends enchantment in these instances. A glance at our eastern exchanges will convince any one that we are fortunate, for the papers are full of accounts of the killing of stock and the destruction of property by thunder bolts. Electrical storms seem to have been unusually severe in the Mississippi valley this season.

Last June, Dick Crawford brought his two-months old child, suffering from infantile diarrhea, to me. It had been weaned at four months old being sickly everything ran through it like water through a sieve. I gave it the usual treatment in such cases but without benefit. The child kept growing thinner until it weighed but little more than when born, or perhaps ten pounds. I then started the father to giving Chamberlain's Colic, Cholera and Diarrhea Remedy. Before one bottle of the 25-cent size had been used, a marked improvement was seen and its continued use cured the child. Its weakness and piny constitution disappeared and its father and myself believe the child's life was saved by this remedy. J. T. Marlow, M. D., Tamaroa, Ill. For sale by A. T. Hill, druggist.

a willow for some purpose. Toward evening his sons Charley and Dempsey thinking something was wrong as he did not return, went to search for him and found the lifeless body lying beside a log. He had cut the stick he wanted and started back to the house, when he had apparently stopped and leaned against a log for support, then sank down and died without a struggle. Life had probably been extinct three hours or more when the body was found. The deceased had been a sufferer from stomach and heart trouble for several years and had taken considerable treatment during the past year. He had expressed himself recently as being of the opinion that he had not long to live. All these facts being generally known it was not thought necessary to hold an inquest.

The funeral which was attended by a large number of people was held on Monday afternoon at four o'clock. The services were conducted by Rev. Elwood Scott the pastor.
