Archie McKillop of Salem who was working for Charley Spaulding was the victim of an accident on last Tuesday morning which resulted in his death. He with others was engaged in rolling logs into the Willamette. The logs had become jammed from the sand bar up to the bank and McKillop attempted to break the jam by prying the bottom log out of position. He succeeded in doing so but failed to get out of the way of the other logs and was caught between them and his body from the waist down was crushed in a horrible manner. After much hard work the boys extricated him from between the logs and carried him to the camp where he died in a short time. Lon Hill was present when the accident occurred and helped to remove the poor fellow from his perilous position. He never wants another such an experience.
