

STEAMER TOLEDO.
Makes the round trip daily, except Sunday, between Dayton and Portland. Leaves Dayton at 5 a. m.; Newberg at 6 a. m., and returning leaves Portland at 7 p. m.

OREGONIAN RAILWAY DIVISION
PORTLAND AND YAMHILL RAILWAY.
Trains arrive at Newberg as follows:
North. 7:55 a. m.
*12:20 p. m.
*Every other day.
Passenger and Freight Rates to all points can be obtained from C. H. FISSELL, Agent Newberg.

Local Events.

Try the Middleton pickle.
Frank Deach was in town yesterday.
Buy slabwood from Newberg Milling Co.
Geo. Tolson went to Portland this morning.
Ask your grocer for the Middleton pickle.
Best lumber in the county. Newberg Milling Co.
Dr. Will Clark of Ontario, Cal., spent Sunday in town.
Call on A. Pickett, at City Feed Store, for your grass seed.
Cyrus Hoskins has a full force of hands working at his dryer.
There will be a partial eclipse of the moon this evening about 8 o'clock.
One dozen photographs cabinet size, extra finish, for \$1.50 at Smith's gallery.
Mr. and Mrs. Al Harold of Salem were visiting at Emmor Hall's the first of the week.
Charley C. Johnson was the artist that erected the awning in front of the city feed store.
Mrs. Bradshaw of The Dalles, a sister of Dr. Littlefield, visited him Monday and Tuesday.
Mrs. J. H. HARRIS has returned with the largest stock of millinery goods ever brought to Newberg.
Edgar and Miss Huldah Cox of Calvin visited at J. F. Osborn's and of Salmon Stanley's the first of the week.
Mr. and Mrs. J. H. HARRIS returned Wednesday and will make Newberg their permanent home hereafter.
The Salvation Army is holding meetings in the dry house on the Wilson ranch, near Yerger's ferry.
Frank Mills left Monday morning for Butteville where he has the contract to dig a well at the new school house.
The Salvation Army will move into the Hardwick building the first of next week and will open Wednesday evening.
You can't afford to steal from your neighbor's clothes line when you can buy a good work shirt for 40c. or a pair of pants for 75c. from Parker & Inglis.
The baggage master that runs on the morning train asked for a college catalogue the other day, saying that he had a brother that intended to come here this winter.

We hereby serve notice on all parties using legal blanks that they need not go farther than the GRAPHIC office for supplies. We will keep a full supply of all kinds on hand.
Lt. Brown was at Dayton last Sunday night swearing in recruits to the Salvation Army. Comrades from Newberg and Dundee were present and took an active part in the services.
Grant Wiley, who has been working with a bridge gang on the Union Pacific, arrived home Monday evening. He will probably go to California in a few days to work on a new road there.
The farmer has to sell his stock cheap and it is cheap meat that you want, while it is your money I want. Take advantage of the supposed short life of the Central Meat Market and buy meat at hard times prices.
J. S. BAKER.
Will Jessup sports a "foxy" team these days—a couple of bunchgrasses. They have kept Jessup pretty busy watching them, the blacksmith mending the wagon and the harness maker has lost sleep fixing up harness.
Farm in Washington to trade for Oregon land or town property. 320 acres, in Spokane county, twenty-six miles southwest Spokane City. Open to extensive outside range. Call on or address
E. M. HONSON, Newberg, Or.
Pacific College opens for the fall term's work next Tuesday the 18th. Enrollment, classification and assignment of lessons during the afternoon beginning at two o'clock. On Wednesday morning, chapel exercises at 8:45 and regular recitation work beginning at 9 o'clock.
R. H. Tyson of the Middleton pickle factory was in town last week with a sample of the German or Hill pickle put up by him. Experts pronounce it the finest flavored pickle on the market. The factory consumes 200 tons of cucumbers, 40 tons of cabbage, 20 tons of tomatoes and 30 tons of small white onions each season. Requiring 40 acres of land to produce the cucumbers, alone.
The feet pipe running from the boiler to the engine, on the steamer Anetia, burst Monday morning. The steamer had been chartered by Jesse Edwards to carry brick to Butteville and she was coming up for the second load when the accident happened. No other damage was done except several men were frightened almost to the point of jumping into the river. It is reported that she was carrying 190 pounds of steam, while she is only tested to 130.

The new monument erected by the Woodmen over the grave of Elijah Frank in the Masonic cemetery at McMinnville was publicly unveiled last Sunday afternoon at 3 o'clock. The ceremonies were in charge of the Newberg camp and were largely attended. Those present from Newberg were Frank Storey, L. M. Parter, Dave Lamb, Calvin Stanley, Frank Hobeon, A. C. Cox, Lewis Hoskins, S. C. Calkins, O. C. Emery, G. M. Bales, L. G. Hill and Ab. Hill.
Dr. Price's Cream Baking Powder World's Fair Highest Award.

Dr. Price's Cream Baking Powder Awarded Gold Medal Midwinter Fair, San Francisco.

Dr. Price's Cream Baking Powder World's Fair Highest Medal and Diploma.

"As old as the hills" and never excelled. "Tried and proven" is the verdict of millions. Simmons Liver Regulator is the only Liver and Kidney medicine to which you can pin your faith for a cure. A mild laxative, and purely vegetable, acting directly on the Liver and Kidneys. Try it. Sold by all Druggists in Liquid, or in Powder to be taken dry or made into a tea.

Better Than Pills

The King of Liver Medicines.
"I have used your Simmons Liver Regulator and can conscientiously say it is the king of all liver medicines. I consider it a medicine chest in itself."—Geo. W. JACKSON, Tacoma, Washington.

32-EVERY PACKAGE HAS THE Z STAMP IN RED ON WRAPPER.

Try the Middleton pickle.
Wm. Allen has started his dryer.
Pumps, pipe and fittings at Storey's.
The GRAPHIC office for first class job work.

E. H. Skinner's fruit dryer is running to its fullest capacity.
Charley Mitchell and Emmor Hall started their dryer Monday.
Squire Hadley was out posting bills for the Newberg fair yesterday.
See Mrs. J. H. HARRIS' new stock of Fall and Winter Millinery in Armory Hall block.
Prof. C. E. Lewis filled the pulpit at the Friends church at Middleton last Sunday.
Prof. J. J. Jessup done missionary work for Pacific college at Sherwood last Saturday.

In order to make room the Newberg Milling Co. will sell slab wood for 25c. per load during the next 30 days.
Misses Dora Cummins and Anna Thompson of Tualatin were in town yesterday making arrangements to attend college.
Dr. L. M. Davis and wife of Portland visited J. S. Baker's last Sunday. Dr. Davis is a member of the Portland city council from Albina.
Howard Williams has sold his team to Canby Heston, and has been making daily trips to Portland, trying to find another one to put on the trucks.
Mr. and Mrs. John Crawford came home from Sodalville last Sunday. Mr. Crawford is as much in love with the healing qualities of the water as ever.
We have just received a shipment of Domestic Sewing Machines. Needles of all kinds, machine oil, etc. Call and examine.
J. H. TOWNSEND.

If you want a pump go to Storey's. He handles the best made, fits them up himself and guarantees them to satisfy you. Galvanized pipe and fittings always on hand.
Kinley Blair, Alf. Blair and Charley Cavill of Middleton left last Saturday morning for the Cascade mountains. They will go up to the Molalla country hunting and prospecting.
A special carrying the general officers of the Southern Pacific went through town Tuesday morning like a cyclone. The supposition is that the road and depot was all right at this place.
The W. F. M. S. of the Friends church will hold their regular meeting in the church on next Saturday at 3:30. At which a lesson will be given on "Systematic Giving," also a letter will be read from Anna Moon telling of their journey and safe arrival on Kake Island.
While in Chicago, Mr. Charles L. Kahler, a prominent shoe merchant of Des Moines, Iowa, had quite a serious time of it. He took such a severe cold that he could hardly talk or navigate, but the prompt use of Chamberlain's Cough Remedy cured him of his cold so quickly that others at the hotel who had had colds followed his example and half a dozen persons ordered it from the nearest druggists. They were profuse in their thanks to Mr. Kahler for telling them how to cure a bad cold so quickly. For sale by A. T. Hill, druggist.

The new school house at Butteville is to be a large and commodious building. There will be two rooms on the first floor 25x32, a cloak room 10x17½, a library 10x17½, an entrance 16x14; the second floor is the same except there will be a recitation room in place of library and entrance, and 50 feet to top of flag staff. The house is to be a frame structure, colored glass windows, grades of fancy shingle work. The house will cost about \$3,000, and to be finished by Thanksgiving. T. A. Johnson of Salem is the contractor.

It is understood that Graham Bros., owners of the handsome river steamers Altona and Ramona, will run both these crafts on the upper river during the coming winter and spring, and by so doing will make daily runs between Salem and Portland. This is an encouraging outlook for the boating season on the Willamette, and with the other boats will sweep things likely at the docks. The Altona and Ramona are now plying between Oregon City and Portland.

ESTIMATES FOR WATER WORKS.
The Water Committee Meets and Rough Outline Drawn Up.
The committee appointed by the council to examine the water supply, right of way, and to get an estimate of the cost of water works met Messrs. H. Orchard and Judge D. J. Switzer, water works contractors of Portland, Tuesday morning. The committee, consisting of Jesse Edwards, H. D. Fox and D. Tallman, prepared a rough and drove out to the spring near Alf. Moore's and then to Snyder's spring, near Chehalis Center. In the afternoon they drove out to the David spring and the fish pond. They made a thorough investigation in regard to the quantity and quality of water and elevation above town.
The David spring was considered the largest one of the four, although the Snyder and fish pond springs are but little, if any, smaller. An estimate was made of the capacity of the David spring and it was found to be about two gallons per second, or 172,800 gallons per day, enough for a city of 30,000 people. For instance the pumping plant of the Roseburg city water works has a capacity of only 17,000 gallons. The springs at the fish pond are nearly on a level with the town and would require a pumping plant, and the one at Alf. Moore's is hardly large enough and they are virtually out of the question.
Either one of the others can be reached with three miles of pipe. The estimates submitted by Messrs. Orchard & Switzer are based on procuring the water supply from either the Snyder or David springs. They contemplate a mile of a cheap grade two inch pipe to the reservoir and two miles of four inch pipe to the corner of First and Meridian streets. The reservoir is to have a capacity of 125,000 gallons, and an elevation of 200 feet.
The committee held an informal meeting Tuesday evening and a rough outline of the proposed system was drawn up. It provides for 13,000 feet of four inch pipe, 10,530 feet of three inch, 10,500 feet two inch, ten fire hydrants, 600 feet of hose, hose cart, 100 gate valves and nozzles. It also provides for the excavation for the reservoir and trenches for the mains, and will cost in the neighborhood of \$11,000. The plans for piping the town are as follows, the corner of First and Meridian being the place of beginning:
From the corner of First and Meridian to First and Main, a four inch pipe.
From First and Main to Carter's store, a three inch.
From First and Main to Fifth, a two inch.
From Morris & Miles' store to Edwards' house, a three inch.
From First down Meridian to Fifth, a two inch.
From Meridian down Third to Parker's house, a three inch.
From Meridian on Sheridan to school house, a three inch.
From school house to Washington street a two inch.
It also includes 5,000 feet of two inch, additional, to be placed where the council may direct at the time.
Of course the above is preliminary, as nothing can be decided until the council acts on the question, and bonds are sold. It does not include water rights, right of way, or damages that may be brought against the town. Although it will serve as a basis to work upon in case the board decide to let the contract. The cost of the land surrounding the spring, the amount of damages claimed by property owners affected by loss of water, and the right of way will have everything to do in the matter of procuring the water supply.
Messrs. Orchard & Switzer claim that if the mains are buried two feet under ground the water will be as cool as any point in town as at the spring. They claim well recommended as business men of integrity and amply able to carry out any undertaking they may assume, and their estimates may be relied upon. If they were bidding upon a plant of the above description it is possible that they might come down a thousand or so. The estimate is none too high at least.

GOLD \$\$ for 50 Cents!

It is an expression often heard, but we have yet to meet the person who has received any at that price. Yet many articles in our store are being sold at prices that are lower than some goods have ever sold.

We are trying to help you over the hard times.

DO YOU COMPARE PRICES? IF NOT, WHY NOT?

- See our low priced Gingham—7 and 8 cents.
- Granulated Sugar—per sack, \$6.50. We sell nearly one ton per week. GOOD AS THE BEST.
- Coffee—Arbuckle, Lion, Faultless—your choice, 25 cents.
- 5 gallon keg Pickles—70 cents.
- Large stock of Fruit Jars, Jelly Glasses, etc.

While we name the lowest prices we guarantee our goods in every particular.

MORRIS & MILES.

Try the Middleton pickle.
Pres. Newlin is expected home today.
Timothy and clover hay at City Feed Store.
Ask your grocer for the Middleton pickle.
See Newberg Milling Co. for all kinds of lumber.
Parker & Inglis are rustling for trade and are getting it.
For a good wearing comfortable shoe call on G. M. Bales.
The Weekly Oregonian and the GRAPHIC one year for \$2.50.
Miss Margaret Williams will teach the Brisbane school the coming winter.
City Feed Store for flour and all kinds of feed.
A. PICKETT, Prop.
G. M. Bales the shoemaker keeps in stock a fine line of shoe dressing. Cork soles constantly on hand.
Mrs. Vannie Martin and Mrs. Mary Edwards spent Thursday of last week in the vicinity of Dayton in the interests of Pacific College.

Mr. and Mrs. L. G. Hill and Mr. and Mrs. Ab. Hill were at McMinnville Sunday to witness the unveiling of the Woodmen monument.
Charley Spaulding sent a crew of ten men up to Wheatland island Wednesday to cut timber for the Newberg Milling Co's mill. Billy McLaughlin is foreman.
Mrs. J. H. HARRIS has returned with a full line of Fall and Winter Millinery, and will have a grand opening next Monday, Tuesday and Wednesday, 17th, 18th and 19th, to which all are cordially invited.
A horse belonging to Smith Bros. left standing in front of Moont's Wednesday, became frightened and ran down First street, the remains of the buggy was gathered up in a basket.
Miss Mattie Stratton came home last Thursday from Tillamook, where she has been teaching a summer school. She will probably return next week and take charge of the same school during the winter.
Bran 75c. per hundred. Bran and shorts mixed 80c. Shorts 85c. Chop 85c. Barley chop 90c. Flour 70c. per sack. Deliveries made anywhere inside the city limits. Leave orders at post office.
J. D. TARRANT & Co.

The Fred T. Merrill Cycle Co. have sent a bicycle horn and a New Departure Bell to be offered as premium in the bicycle races at the fair. They have arrived too late for the programs, but they are here and will be given to the fastest man in some of the races.
Irving W. Larimore, physical director of Y. M. C. A., Des Moines, Iowa, says he can conscientiously recommend Chamberlain's Pain Balm to athletes, gymnasts, bicyclists, football players and the profession in general for bruises, sprains, and dislocations; also for soreness and stiffness of the muscles. When applied before the parts become swollen it will effect a cure in one half the time usually required. For sale by A. T. Hill.
At the Methodist church, on Friday evening, the Rev. Mark Noble and J. H. Townsend will discuss the affirmative, and O. C. Emery and J. G. Hadley the negative of the equal suffrage question. Opportunity will be given for each man and woman present to occupy five minutes in giving a reason for their opinions on this absorbing question. Music and other exercises. Come and be instructed and entertained.

The Water Committee Meets and Rough Outline Drawn Up.
The committee appointed by the council to examine the water supply, right of way, and to get an estimate of the cost of water works met Messrs. H. Orchard and Judge D. J. Switzer, water works contractors of Portland, Tuesday morning. The committee, consisting of Jesse Edwards, H. D. Fox and D. Tallman, prepared a rough and drove out to the spring near Alf. Moore's and then to Snyder's spring, near Chehalis Center. In the afternoon they drove out to the David spring and the fish pond. They made a thorough investigation in regard to the quantity and quality of water and elevation above town.
The David spring was considered the largest one of the four, although the Snyder and fish pond springs are but little, if any, smaller. An estimate was made of the capacity of the David spring and it was found to be about two gallons per second, or 172,800 gallons per day, enough for a city of 30,000 people. For instance the pumping plant of the Roseburg city water works has a capacity of only 17,000 gallons. The springs at the fish pond are nearly on a level with the town and would require a pumping plant, and the one at Alf. Moore's is hardly large enough and they are virtually out of the question.
Either one of the others can be reached with three miles of pipe. The estimates submitted by Messrs. Orchard & Switzer are based on procuring the water supply from either the Snyder or David springs. They contemplate a mile of a cheap grade two inch pipe to the reservoir and two miles of four inch pipe to the corner of First and Meridian streets. The reservoir is to have a capacity of 125,000 gallons, and an elevation of 200 feet.
The committee held an informal meeting Tuesday evening and a rough outline of the proposed system was drawn up. It provides for 13,000 feet of four inch pipe, 10,530 feet of three inch, 10,500 feet two inch, ten fire hydrants, 600 feet of hose, hose cart, 100 gate valves and nozzles. It also provides for the excavation for the reservoir and trenches for the mains, and will cost in the neighborhood of \$11,000. The plans for piping the town are as follows, the corner of First and Meridian being the place of beginning:
From the corner of First and Meridian to First and Main, a four inch pipe.
From First and Main to Carter's store, a three inch.
From First and Main to Fifth, a two inch.
From Morris & Miles' store to Edwards' house, a three inch.
From First down Meridian to Fifth, a two inch.
From Meridian down Third to Parker's house, a three inch.
From Meridian on Sheridan to school house, a three inch.
From school house to Washington street a two inch.
It also includes 5,000 feet of two inch, additional, to be placed where the council may direct at the time.
Of course the above is preliminary, as nothing can be decided until the council acts on the question, and bonds are sold. It does not include water rights, right of way, or damages that may be brought against the town. Although it will serve as a basis to work upon in case the board decide to let the contract. The cost of the land surrounding the spring, the amount of damages claimed by property owners affected by loss of water, and the right of way will have everything to do in the matter of procuring the water supply.
Messrs. Orchard & Switzer claim that if the mains are buried two feet under ground the water will be as cool as any point in town as at the spring. They claim well recommended as business men of integrity and amply able to carry out any undertaking they may assume, and their estimates may be relied upon. If they were bidding upon a plant of the above description it is possible that they might come down a thousand or so. The estimate is none too high at least.

ESTIMATES FOR WATER WORKS.
