Hervey Hosking lately received quite an addition to his collection of postage stamps, in the shape of a package of choice foreign ones, collected and sent by Prof. W. A. The boys who have nothing better to do than to disturb the meetings at the Salvation Army barracks need to be looked after by their parents. In case the parents fail to do their duty toward the boys it will become necessary for the proper officers to give the boys a night's lodging in the cooler. The law is very plain and easily understood respecting the disturbance of public meetings, and the youth who goes into trouble in this way deserves little sympathy.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which induces a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept on hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it. For sale by A. T. Hill, druggist.
