The paper of all agricultural weeklies. The Prairie Farmer comes to us this week in a resplendent new dress, and announces a list of eminent writers for the coming year. Prof. G. E. Morrow becomes special staff writer; E. P. Goodrich, special dairy writer; Jos. Meehan, horticultural writer; Chas. Daband, on bees; and many others of equal prominence. There are many noteworthy features promised. The "Household" department is in competent hands, and young folks are well cared for. Manager L. C. Brown says that nothing is too good or too expensive for Prairie Farmer readers this year.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept on hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it. For sale by A. T. Hill, druggist.

A warrant has been in the hands of Constable Macy for several days for the arrest of Monroe McGrew, Howard Nash and Miss C. A. Layman of Dundee, who are charged with the ungentlemanly and unladylike conduct of disturbing a meeting of the Salvation Army at Unity school house one night last week. Macy has visited the homes of the accused but so far their seats around the parental fire-side have been found vacant. It seems that they were apprised of the fact that they were wanted and concluded to seek other pastures, but Macy says he will have them if they are in the county. The way of the transgressor is pretty tough sometimes.

Knights and Ladies of Security.

Is the name of the fraternal and beneficial order that was organized in our city last week, by Deputy National President M. D. Greenlee and O. V. Allen. The local council starts out with flattering prospects having some of our best citizens among its members who speak very highly of the new order especially of its copyrighted reserve fund plan, and disability features, by which they overcome the "increase" in assessments where the order grows older, and also furnish protection to its members in case of serious accidents.

Reports from the National Council at Topeka, Kansas, show that over six thousand certificates have been issued, about two thousand five hundred of them since the first of last June. Anyone wishing to join the order, or get up a local council should write to M. D. Greenlee, Deputy Nat. Pres., 244 Montgomery St., Portland, Oregon, where he has gone in the interests of the association. Newberg Council No. — will hold its first regular meeting in J. O. O. F. hall Saturday evening, October 20. Joel P. Gray was elected president; John K. Wright, Cor. Secretary and J. C. McCrea, Treasurer.

POSEY.

Prospects Brightening.

A few days ago while the boys in the office were considering the outlook for fodder for winter, which is rapidly approaching, and with gloomy countenances scanning the names of delinquents long past due on subscriptions, with little prospect of early payment, musing the while on man's inhumanity to man—particularly the newspaper man, there was heard at the office door a rapping, as if some one was tapping, tapping at the office door.

On investigation it proved to be no other than Jessup the expressman, who entered in a businesslike way and deposited an express package on the table and silently departed. Knowing that infernal machines with intent to do bodily injury were often, in these degenerate days, done up in like packages, this one was handled all the same as glass, "with care."

After due care had been extended the string was cut, the package opened and the following note dated at Scott's Mills, Oregon, October 8, 1894, and directed to the GRAPHIC was found.

We hereby acknowledge receipt of order for winter meats through your issue of September 28, and in reply will say owing to great amount of rain in the mountains we have, up to date been unable to bag a variety of small game but have been quite successful in killing large game and herewith forward you a sample of which we are daily curing to fill your order. We will make the first shipment "a car load" something during the present week, same as sample, and will continue shipments until further notice.

Very Respectfully,
(Geo. W. MITCHELL,
T. H. WHITE.

Down deep in the box laying on its back the sample was found as indicated in the bill of instructions. Like the old lady's apples he is little but he is good—at least he smells good. His size indicates that he was pulled at an immature age, but the boys intentions were evidently good and this little discrepancy in making a selection will be overlooked this time. In due season invitations will be sent out to the friends of the GRAPHIC inviting them to a feast of fat things.
