VOL. 8.

NEWBERG, YAMHILL CO., OREGON, FRIDAY, JANUARY 17, 1896.

NO. 8.

TELEGRAPHIC RESUME

Events of the Day in a Condensed Form.

OF INTEREST TO ALL READERS

Items of Importance From Domestic
and Foreign Sources—Cream
of the Dispatches.

Disastrous prairie fires in Western
Kansas have caused great loss of life
and property.

The gross earnings of the Northern
Pacific for the six months ended De-
cember 31, were \$11,588,148, an in-
crease of \$1,625,533.

Associate Justice Peckham, the latest
acquisition to the supreme bench, has
taken his seat. Chief Justice Fuller
administered the oath.

City Treasurer Henry Bolin, of
Omaha, Neb., is short more than \$115,-
000 in his accounts. He offers no ex-
planation for the defalcation.

A board of naval officers has been ap-
pointed by the navy department for in-
vestigating the condition of the nine
monitors lying at the League island
yard, Philadelphia.

Disorders have occurred in the East
End of London growing out of the fact
that the German and Dutch sailors
about the docks were hissed. The win-
dows of the shops kept by German
Jews were broken, and several German
clubs were closed.

The London Times, in an editorial,
reminds the United States that
"whether we have troubles in Europe
and Africa or not, we will not yield
on the Venezuela question. We have
insulted nobody, but if we are com-
pelled to fight we shall be ready to de-
fend what is worth fighting for."

Stephen V. Emmons, a prominent gold
miner of New York, has addressed an
open letter to President Cleveland,
setting forth a unique plan for main-
taining the treasury reserve. His sug-
gestion is that if the secretary of the
treasury will put himself in com-
munication with the owners of gold
mines throughout the country, he can
cause the entire product of the United
States to be at the disposal of the gov-
ernment in exchange for silver coin.
He promises the co-operation of all
his interests.

At the request of Senators Mitchell
and McBride the secretary of the in-
terior has directed a special agent of
the department to proceed to Oregon
immediately, to make such investiga-
tions as can be made at this season of
the year in relation to the alleged ap-
propriation and occupation of lands
within the Bull Run reservation (from
which Portland receives its water sup-
ply), the pasturing of cattle and sheep
thereon, and the destruction of timber
by forest fires and trespassers. This
agent is directed by the secretary to con-
fer with the chairman and other officers
of the Portland Water Company and
their attorneys, to co-operate with
them in every way.

New Mexico offers to supply the
necessary land free of cost for the
colonization of Armenians in this coun-
try.

The rebel chieftan, Gungunhana,
who has been making war on the Por-
tuguese in Mozambique, South Africa,
has been captured, and the rebellion
will be terminated.

Judge Morrow, of San Francisco,
gave judgment in a sum of \$300,000
to a passenger who was refused accommo-
dation on the steamer Willamette Valley
for the reason that he had a scalper's
ticket.

Judge Shiras, of Iowa, in the federal
court at Omaha, rendered a decision
declaring that in cases where Indians
have become citizens with all the ac-
companying privileges, the government
is still bound by the treaty stipulations
existing while the tribal relations were
sustained. He holds that it applies on
all reservations, and is wide in scope.

A dispatch from Berlin says that
serious rumors are in circulation re-
garding the situation of Italians in
Erythrea. Their position is said to be
almost desperate. It is learned that
the tension between England and Italy
regarding the refusal of the former
power to allow the latter to disarm
troops at Zelaya has become very serious.

The notorious outlaw, Bill Dooley,
is again creating trouble for the of-
ficers, this time in Texas.

Both Cincinnati and St. Louis are
working hard to secure the national
Democratic convention.

A special from Rome says 10,000
Abyssinians were killed or wounded in
an attack upon Makile.

The heirs of the late Jay Gould are
being made to pay their inheritance
tax by the New York courts.

The available cash balance of the
treasury is something over \$180,000,
and the gold reserve below \$60,-
000,000.

Charles H. Hill, a former ball-player
of note, shot and killed his wife on the
streets of Oakland, Cal. Domestic
troubles were the cause.

The government is taking active
steps to put a stop to poaching in Yel-
lowstone Park, in order to protect the
few remaining buffaloes.

Mrs. Alva E. Vanderbilt, the di-
vorcee wife of William K. Vanderbilt,
has been married to Oliver H. P. Belmont,
Mayor Strong, of New York city,
performing the ceremony.

The term of F. B. Rockefeller, the
ex-banker of Wilkesbarre, Pa., who
closed the doors of his private bank in

February, 1893, demanding 600 de-
positors out of nearly \$500,000, has ex-
pired.

Edwin Fields, who at one time
owned a large part of the city of Tomb-
stone, Ariz., and a mine worth more
than half a million, has been taken to
the poorhouse at Dunning, Ill., to
spend his few remaining years.

Attorney-General Maloney, of Il-
linois, has begun quo warranto proceed-
ings against the National Linseed Oil
Company on the ground that it is a
trust. The case is similar to the pro-
ceedings pushed to a conclusion against
the late whisky trust.

Sir Mackenzie Bowell, of Ottawa,
Ont., authorizes a statement relative to
Canada's position in regard to arbitra-
tion of the Behring sea seizure claims,
that Canada has agreed to the terms of
the treaty and promptly forwarded her
assent to the British authorities.

Three brothers were fatally injured by
an explosion of dynamite in Philadel-
phia. The boys experimented with a
toy safe, which they were trying to
open with dynamite, an explosion oc-
curring, breaking open the door. The
three were so badly burned that their
death is momentarily expected. The
mother sustained serious injuries try-
ing to put out the flames.

Alexander J. Boroday, an electrician
of the Westinghouse Company, of Pitts-
burg, Pa., is believed to be held a
prisoner by the Russian government,
probably in Siberia. He was a natu-
ralized American citizen, but had been
active in political agitation in Russia
before coming here. Albert Schmidt,
general superintendent of the Westing-
house works, has communicated the
facts to Secretary Olney.

A dispatch from Johannesburg says
it is reported from Pretoria that Dr.
Jamieson and other officers interested
with him in the recent disturbance
with the Boers, in South Africa, have
been started for Natal, where they will
be handed over to the British authori-
ties to be tried under the laws making
it a punishable offense to prepare a
warlike demonstration against a friend-
ly state.

A representative gathering of men
and women of Detroit, took action ex-
pressive of keenest sympathy with the
Armenians, and also by a gift of over
\$500 made a substantial beginning in
rendering financial aid to that oppres-
sed people. The meeting also adopted
memorials to the United States
government, and to the queen of Great
Britain, urging action which shall for-
ever end the atrocities perpetrated by
the Turks against Christians.

The London correspondent of the
Associated Press says that Great Britain
is seriously and steadily preparing for
war on a very large scale, and on land
and against Germany, of against
Germany, France and Russia, should
they combine against her. Emperor
William threw down the gauntlet; it
was promptly picked up and energetic
steps were immediately taken by the
British government to back up this
action by a most imposing display of
sea power.

Those in a position to have early in-
formation on the subject, claim to have
good reason for believing that large
German banks intend to subscribe for
\$40,000,000 of the new government
loan. The Deutsche bank, it is said,
intends to subscribe for \$25,000,000 of
the bonds, and the Bleichroeders for
\$15,000,000. It is also said that the
imperial council has been largely in-
fluenced in consenting to these sub-
scriptions by the strained relations
now existing between Germany and England.

Ten days of suffering from cold and
privation on a rocky bluff, during
which time seven of the crew, includ-
ing the captain and mate, met their
death, and the other mate and a sea-
man terrible accidents, tells the tale
of the wrecking of the big four-masted
English ship Jeannette Cowan, on Van-
couver island, Puget sound, other-
wise known as the "keyway of the Pacific
Ocean." Seven people are dead and two
injured. The officers of the tug
tell a harrowing story of the wreck and
of the crew and its surroundings as
found by them.

The interest of American millers is
centered in the next meeting of the
executive committee of the National
Millers' Trade Association, to be held
January 27, in Chicago. Millers have
recently practically decided upon a per-
sistent agitation for reciprocity with
South American countries, and will
make a determined effort for the repeal
of that portion of the tariff law which
they think conflicts with the four in-
terests of the United States. B. A.
Hart, a member of the association, says
the prospect of the Cubans gaining
their independence will have a ten-
dency to promote commercial relations
between the new republic and this
country.

A Wreck in Mexico.
City of Mexico, Jan. 13.—A tele-
gram from Progresso announces the
wreck of the steamer Oxford on Alern's
reef. Twelve of the crew came ashore,
but the rest are missing.

Jeannette Cowan Reported Lost.
Seattle, Jan. 13.—Shipping men here
say that the iron ship lost on Van-
couver island is the British ship Jeannette
Cowan, 2,496 tons, 135 days out from
Cape Town for Vancouver.

News From Japan.
Yokohama, Jan. 13.—An address to
the throne censuring the government
for surrendering the Liao peninsula
has been rejected. Strong reinforce-
ments of troops are going to Formosa
to assist in pacifying that territory.

Dingley's Bond Bill.
Baltimore Sun: Chairman Ding-
ley's bond bill has the serious defect
of not authorizing the retirement of
the greenback. The greenback is to be
hoarded, not retired.

The Polk county census returns show
2,440 legal voters. The entire popula-
tion is 9,128. Over 2,000,000 pounds

NORTHWEST BREVITIES

Evidence of Steady Growth and Enterprise.

ITEMS OF GENERAL INTEREST

From All Parts of Oregon, Washington,
Idaho, Montana and British Co-
lumbia—Washington.

Adams county claims not to have
had a sheriff's sale advertised for two
months.

The large log jam in the Coweeman,
in Cowlitz county, was recently broken
with dynamite.

Waitsburg is discussing the matter
of putting in a pumping station during
the dry season.

E. P. Brinnon, a pioneer of Jefferson
county, is dead. The town of Brin-
non was named after him.

Snahomish expects to add an im-
portant industry this year to her resources,
namely: a beet sugar factory.

The teachers of Walla Walla county
have decided to have a permanent or-
ganization to hold a monthly meeting
at Walla Walla, Waitsburg, Prescott
and Dixie.

The Whatcom board of trade has
appointed a committee to look up a site
for the Lynden creamery on Belling-
ham bay where good shipping facili-
ties can be had.

The merchants and ship owners of
San Francisco and Puget sound con-
template a telegraph line from Tatoosh
island to Gray's Harbor. This stretch
of country is totally unexplored.

Tacoma exported last year 337,210
tons of coal, valued at \$1,630,177;
wheat valued at \$2,013,939, and 273,-
984 barrels of flour, valued at \$672,126,
making a total of nearly \$4,500,000.

The executive committee of the
Northwest Mining Association have
decided to call a convention on Febru-
ary 23, at Spokane. Invitations will
be extended to the state officials of
Washington, Oregon, Idaho and Mon-
tana.

The Everett school board has de-
termined to bond the outstanding in-
debtedness of the district, and then to
put expenses on a cash basis. The
board is not inclined to issue any more
warrants. The problem it has to solve
is to run the school without going into
debt.

The Great Northern contemplates
increasing largely the working forces
at the big shops at Hilliard. It is
proposed to do all the repairing of the
Western division at this place. At
present there are about ninety men in
the shops, this number will be in-
creased to about 300.

The Northern Pacific railroad com-
pany have notified the county auditor
that they will work out their property
tax in this county, instead of pay-
ing the cash, as provided by law. This
is an innovation and the probabilities
are that the company will contract
with a gang of men to work out their
road taxes in each county.

The salmon pack statistics for the
Columbia river for 1895 show: Spring
pack—Chinook salmon, 437,810 cases;
total value, \$2,711,853.75; amount paid
for fish, \$1,776,547. Allowing one-
half of the catch to Washington fisher-
men makes the amount received by the
fishermen of Washington for spring
salmon delivered to canneries, \$888,-
273.50. Fall pack—92,086 cases of
silverside; 31,500 cases of Chinook;
3,500 steel head. Total 137,086 cases,
valued at \$456,509.60.

The report of Fish Commissioner
Crawford for the year 1895 shows
many points of interest in the develop-
ment of one of Washington's leading
industries. In this document he says:
The sum of \$20,000 was appropriated
by the recent legislature from the fish
commission fund, for the purpose of
creating and operating artificial salmon
hatcheries. A hatchery with a capac-
ity of turning out 6,000,000 young
salmon annually has been erected on the
Kalamia river, a tributary of the Colum-
bia, and is now being operated. There
are now in this hatchery over 4,000,000
young Chinook salmon in various
stages of development. A station for
taking and eyeing salmon spawn has
been built on the Chinook river, in Pa-
cific county. The total amount ex-
pended from the appropriation is
\$7,077.

Oregon.

There are five stamp mills now in
Jackson county.

The Columbia river is now lower than
it has been for many years.

Of forty-three vessels examined by
the health officers at Astoria, during
the last quarter, no contagious diseases
were found.

A cargo of lumber is strewn along
Elk Beach for miles, which is supposed
to have been floated off the decks of
lumber schooners during the late storm.

The Southern Miners' Association has
formed a permanent organization at
Grant's Pass. About 200 miners were
present and genuine enthusiasm pre-
vailed.

Sturgeon fishing has become quite an
industry around The Dalles. Several
large catches are reported in that dis-
trict, a recent one weighing 435
pounds.

Fourteen additional machines for
making small nails have just been
added to the Everett nail works. The
works have been run overtime for some
weeks to keep even with orders.

The Polk county census returns show
2,440 legal voters. The entire popula-
tion is 9,128. Over 2,000,000 pounds

of hops were raised; 795,951 bushels of
wheat, and 530,507 bushels of oats.

The Coos Bay Creamery Association
paid in actual cash to its milk reducers
during 1895, \$13,500. Notwithstanding
the low price of butter this season,
the year was fully as good as in 1894.

Work on the construction of the
freezing and packing house, at Goble,
is progressing as rapidly as possible.
The machinery will arrive this month
and the establishment will be ready
for operation by May.

Mrs. Warren, the first white child
born in Oregon and one of the sur-
vivors of the Whitman massacre,
was recently married to William Coch-
ran. The couple have moved to San
Jose, Cal. The bride was 60 years old
at the time of the marriage.

The promoters of the Oregon summer
school have formed a corporation with
a capital of \$20,000, at \$1 per share.
The objects of the association are to ad-
vance the standard and efficiency of
the teachers of the various educational
institutions of the state of Oregon.
It is intended to maintain and con-
duct one or more schools and to provide
lectures and instruction on pedagogics
and the associated sciences.

The total population of Oregon is
about 378,000, a gain of more than 100
per cent over 1885, and of 18 per cent
over 1890. Between 1880 and 1890
the state increased at the rate of 79.53
per cent. Increase has been more
rapid, therefore, between 1885 and
1890, than between 1880 and 1890.

On the other hand, the rate of increase
was greater between 1885 and 1890
than between 1880 and 1890. It will
never be as large again, because a
greater immigration will bear a small-
er proportion to the whole. Oregon
gained 294.65 per cent between 1880
and 1890 because the original popu-
lation was so small that the immigra-
tion of that era exceeded it. The gain
of 18 per cent between 1890 and 1895
is just about such as is shown by states
which are growing, but not receiving
considerable immigration. New York
gained 18 per cent between 1880 and
1890.

Idaho.

A new lumbering enterprise has just
been started at South Boise. The mill
cost \$40,000, and will cut about 4,000,-
000 feet this year. The maximum ca-
pacity is 40,000 feet per day.

A coal mine has been located about
twenty-five miles from Idaho Falls.
It is a superior quality of coal and can
be delivered at that place for \$3.50 per
ton, one-half of the price of soft coal at
the present time. It is a very light
coal, free from iron and with great
heat. A road is to be constructed to
the mine.

A company has been organized,
which has secured deeds to gravel bars,
and water rights about the Horsehoe
Bend to Salmon river. It is the object
of the company to construct a large
cut through the neck of the bend which
will be 13,000 feet long, and by this
means drain 9,000 feet of the present
river channel.

A Chicago capitalist is about to
launch on the Snake river a veritable
floating mining camp. On the boat
there is a good-sized boarding and lodg-
ing house to accommodate 150 miners,
an immense stationary engine and
boilers, together with dredgers and
pumps of all sizes. This mechanical
boat battery will move up and down
Snake river, working the banks for
gold.

The report of Wells-Fargo & Com-
pany gives the total mineral produc-
tion of Idaho, in 1895, at \$7,353,320,
an increase of \$511,900 over last year.
Of this production the gold was \$2,-
521,000; silver, 2,807,400; lead, \$2,-
680,880. The difference between
Wells-Fargo's total and the assay office
estimate is largely accounted for by
the different value per ounce of silver,
the mint using the coinage value and
Wells-Fargo the commercial price.
The difference, 62 cents, amounts to
\$2,500,000.

Montana.

A new hotel is to be built early in
the spring at the old Hunter's Hot
Spring's resort.

A stucco company has been incor-
porated with a capital stock of 15,000.
It is to work the gypsum fields at Kib-
bey.

The Odd Fellows at Belt have let a
contract for a new building. The
lower floor is to be used as a public
hall.

The Great Falls soap factory offered
a good price for a band of horses at
Stevensville. Small cayuses are worth
more for soap than any thing else at
present.

Governor Rickards is on a trip to the
national capital for the purpose of se-
curing aid from the federal authorities
to remove the marauding Cree Indians
across the border.

The long bridge over the Yellow-
stone, five miles south of Livingston,
was blown into the river by a high
wind. It is a total wreck and cost
Park county \$8,000.

The production of gold was 4,100,000;
of silver, 4,500,000 ounces; of copper,
212,000 pounds, and of lead, 24,500,
000 pounds. The output of copper is
estimated as being 65 per cent of the
production of the United States. The
receipts of bullion at the Helena assay
office during 1895 were 10 per cent
greater than last year, and 47 1/2 per
cent greater than during 1893.
