Some time ago Mr. Simon Goldbaum of San Luis Rey, Cal., was troubled with a lame back and rheumatism. He used Chamberlain's Pain Balm and a prompt cure was effected. George Frank who lives out east of town is in very poor health, with little prospect of ever being any better. Mr. Frank is paying the penalty of years of hard service for Uncle Sam during the dark days of the rebellion, and he deserves the sympathy and kind assistance of the people in his declining years. We are all too quick to forget the services the boys in blue rendered their country when the fate of the government hung in a balance.

Chamberlain's Cough Remedy is famous for its cures of bad colds. It opens the secretions, relieves the lungs and aids nature in restoring the system to a healthy condition. If freely used as soon as the cold has been contracted, and before it has become settled in the system, it greatly lessens the severity of the attack and has often cured in a single day what would have been a severe cold. For sale by A. T. Hill, druggist.

Jesse Edwards has not been able to enjoy real sound slumber for several weeks, owing to a desire on his part to play even with some dogs that seem so chock full of the doctrine of free will that they have been making raids during the still hours of the night on his flock of sheep. He says it is remarkable how closely some of the neighbors look after the interests of their dogs and how well they know where they are at all hours of the day and night. Family pets never kill sheep, no never.

The regular meeting of the County Horticultural Society at LaFayette on Tuesday was well attended. The time was chiefly occupied by Prof. Hedrick of Corvallis with a well written paper on fungus diseases, followed by discussion, all of much practical interest to fruit growers. A. H. Carson of Grants Pass gave an interesting talk on evaporation and sale of fruit, exhibiting some fine samples of bleached silver prunes and peaches. These papers will appear in print in due time. A committee was appointed to formulate definite plans for marketing our fruit, and report to a called meeting in the early spring. C. E. Hoskins gave some good suggestions along this line. Hon. H. E. Dosch was ready as usual with timely remarks during the meeting. Sixteen names added to the roll. J. H. REES.

A Great Stroke of Economy.

At the beginning of last year the Graphic put in a bill for \$2.50 for printing the city tickets. This bill was promptly cut down to \$1.50 by the city council when it came up for consideration before that body. No kick was made by the Graphic as the proprietor is a tax payer and he thought if strict economy was to be the watchword of the council for the year he had no objections to offer. But what has a little bit of watching of the actions of the council for the rest of the year developed but the fact that the city fathers evidently concluded, that with this one great first and only stroke at economy, in which they made a saving to the city of one big round dollar, they had covered themselves with enough glory for one year, for with the possible exception of one little bill, where has there been a cut on any bill that has been presented to the council during the whole year of 1895. Why, it has appeared that the only thing necessary for any one to do was to present a bill of such dimensions as they liked and the council would swallow it with an apparent relish. For the month of December the marshal put in a bill for \$35.75 and the recorder one for \$25.95 and these bills went through so quick that these officials are no doubt wishing they had made their bills larger. The fact is the council seems to be quite a harmonious body of men, for when a matter is up for consideration and a "direction" is made, and "Simon says thumbs up," up the majority of thumbs go without a quibble.

If the business ability displayed by the council during the past year is to be taken as a sample of what we may expect during the year 1896, won't things hum when a market is found for those \$15,000 war bonds.

Who will care for a 10 mill city tax and an all round tax of 31 mills, when men of money are tumbling over each other to get to invest their cash in a town where the city treasury is easy of access.

With the coming of the robins in the spring of 1896 everything will be lovely and the goose—well it looks now like she would be pretty well cooked before the year is out. In the meantime "keep your eye on Pasco."

An Old Soldier's Recommendation.

In the late war I was a soldier in the First Maryland Volunteers, Company G. During my term of service I contracted chronic diarrhoea. Since then I have used a great amount of medicine, but when I found any that would give me relief it would injure my stomach, until Chamberlain's Colic, Cholera and Diarrhoea Remedy was brought to my notice. I used it and it will say it is the only remedy that gave me permanent relief and no bad results follow. I take pleasure in recommending this preparation to all of my comrades, who, while giving their services to their country, contracted this dreadful disease as I did, from eating unwholesome and uncooked food. Yours Truly, A. E. Bending, Halsey, Oregon. For sale by A. T. Hill, druggist.

Sentence Commuted.

At Ritzville, Washington, a few days ago George Symes was tried for the murder of deputy sheriff Conlee, son of John Conlee of Newberg. The jury found him guilty of murder in the first degree, but Judge Upton set aside the verdict and sentenced him to nineteen years at hard labor in the penitentiary. Symes was taken away from Ritzville as soon as possible after being sentenced by Judge Upton, as it was feared the disappointment at the setting aside of the jury's verdict of murder in the first degree would lead to the revival of the old talk of a lynching party.

Sophomore Recital.

The Sophomore class will give a recital at the college chapel on the evening of Saturday, January 18. A cordial invitation is given to the public to attend.

An exchange tells of an old lady who,

on hearing of an alarming case of diphtheria in the neighborhood, made haste to send the afflicted family the advice to use onions on the patient, claiming that she knew of several lives which had been thus saved from the scourge. Her directions were to place raw onions in a bandage and pound them into a pulp. Then apply the cloths, onions, juice and all, to the throat and well up over the ears, renewing as often as the mass becomes dry. It is said in the cases noted the result was almost magical, deadly pain yielding in a short time to a sleep of comfort. This is a remedy which is very simple and certainly harmless if not effective and is worthy of remembrance and a trial. Cut this out and save it. It may be valuable.

Dr. Esther Barnard, who is not yet

very conversant with the ways of the wild and woolly west, while on Chehalum mountain a few days ago plucked a twig from an innocent looking shrub and put it in her mouth, and by so doing she made a very practical test of what poison oak will do under favorable conditions. For several days she has been unable to see her patients or even to see herself as others see her, but she is now on the road to recovery. Poison oak don't improve one's appearance for the time being, as many a tenderfoot has been able to testify.

An effort is being made to induce Gov-

ernor Lord to call an extra session of the legislature with the hope that extravagant appropriations made at the last session may be cut down to correspond with the depression in business and thus cause a lowering of state taxes. If any assurance could be had that an agreement could be reached on the meeting of these points and needed relief be given, an extra session might be a good thing for the state, but if such assurance can't be guaranteed, the expense of an extra session should be avoided.

A number of the citizens of this com-

munity were at La Fayette on Tuesday in attendance at the meeting of the county horticultural society. A very interesting and profitable meeting was reported.

A TEN MILL LEVY.

The City Council Harrows \$2,100 and Makes the Tax Levy for the ensuing Year.

The council met in adjourned session last Tuesday evening with Councilmen Smith, Terrill, Lashier, Elwood, the marshal, recorder and mayor present.

The street committee recommended that Seventh street be grubbed and stumps burned, so that it could be graded in the spring. So ordered.

The petition for licensing drays, presented some time ago, on recommendation of the judiciary committee, was laid on the table indefinitely.

The committee appointed to secure the money to finish paying for the spring, north of town, reported that the money could be procured at the Chehalum Valley Bank, on six months time, with ten per cent interest. The committee was instructed to procure the money.

A communication from County Clerk A. E. McKern was read, showing the valuation of taxable property in the city to be \$163,535. A decrease of \$30,205 from last year. The council then proceeded to make a tax levy of ten mills on all assessable property, and \$1 on each poll, between the ages of 20 and 50 years for the ensuing year, using the following table of estimated receipts and expenditures as a basis:

Table with columns for EXPENSES and RECEIPTS. Includes items like Balance indebtedness, Grand repairs, Recorder and Marshal, Health Officer, Incidental, 1st semi annual payments of tax, A 10 mill levy, Poll tax, Licenses and fines.

Balance in favor of city \$125.35. An ordinance was passed ordering a sidewalk put down on the south side of Eighth, between River and Pacific streets.

The question was sprung whether or not the city would go to the expense of having the deeds recorded for property bought in at the delinquent tax sale of 1893, and also whether or not they would stand by private parties who bid in property at that sale. It has been stated, upon good authority, that the levy for that year was not legal, consequently the sale was not legal. The matter was left with the judiciary committee to report at the next meeting.

A railing was ordered erected on the raised portion of sidewalk at the east end of First street, near the old dryer.

The New Steamer Ruth.

The O. R. & N. Co.'s new steamer "Ruth" made her first trip up the Willamette on Thursday last week. The "Ruth" is a "sister" boat to the Elmore there being but little difference between the two. She is 161 feet in length, thirty-four feet beam, has a 5-foot depth of hold. Her motive power is two-high pressure engines, each of fourteen inch bore and a 7-foot piston. Her boiler is steel and is allowed to stand a pressure of 170 pounds of steam. She draws, unloaded, fifteen inches of water. The officers are: Master, Capt. Geo. Raabe; pilot, Miles Bell; purser, Frank Gilbert, once of Salem; chief engineer, Wm. Mahler; steward, Mr. Tony; 1st officer, Henry Senns; watchman, Clyde Raabe.
