

NEWBERG GRAPHIC.

ISSUED EVERY FRIDAY MORNING.

E. H. WOODWARD, Editor & Publisher.

FRIDAY, MAY 8, 1906.

Entered as second class matter at the post office at Newberg, Oregon.

Coxey, of "Coxey Army" fame will campaign in Oregon for the populists. "Keep off the grass."

If the populists want another organ in Yamhill why didn't they bid for the Capital Journal of Salem?

Talk about the moon and the weather! Are we sure we have a moon any more? Who has seen the moon lately?

The "only" shows signs of great un-casiness lest some of the boys get their eyes open and drop out of the populist ranks.

Potatoes are being shipped into Tillamook and the Headlight advises the natives to talk less politics and plant more potatoes.

Mark Twain is reported as smoking three hundred cigars a month. No wonder Mark's jokes are getting to be old and musty.

What has become of that feller so much talked of in the campaign two years ago—let's see, his name was Initiative and Referendum.

Judging from the tone of the "only" this week it appears that McCamant's shots into the young pigion camp must have made the feathers fly.

Coxey and three big circus shows are said to be headed for Oregon. What has Oregon done we would like to know that justifies such a dose as this?

Lots of politics on the streets lately. Mostlly good humored, but the argument procted is usually about 10 to 1—that is 16 points poorly made to 1 good one.

Dr. Harry Lane ex-superintendent of the insane asylum is making some very serious charges against the official acts of ex-governor Penneyer. If the charges are true Sylvester is a very much over rated official.

One "favorite son," Cullom of Illinois is out of the race for the nomination for the presidency. The Illinois state republican convention instructed the delegates to the St. Louis convention to vote for McKinley. The "favorite son" scheme is no go this campaign.

An effort is being made to pull off Myers the democratic nominee and Vanderburg the populist nominee for congress in the first district and put up Judge Waldo as an independent candidate to run against Tongue, but the successful carrying out of the scheme looks doubtful.

The war department is advertising for 75,000 yards of red tape. People who have had anything to do with government affairs at Washington have long known that the stock of red tape always seemed to be almost inexhaustible but it has not generally been known before that the different departments bought it by the thousand yards.

The fact that G. A. Prentiss is asserting that he will get as much support at Newberg as Prof. J. C. Hodson for school superintendent, is good evidence that he don't know how to figure "from cause to effect." It is the votes deposited in the ballot box on election day that count. Better take an advanced course in mathematics, Mr. Prentiss.

John Bash, an Indiana man, 80 years of age has an Easter egg that he colored for his sweetheart in 1851. On the shell is carved with a penknife his wife's maiden name, a vine and a bird. In a good many instances out west a divorce would have been called for before time for the egg to hatch, if it had been placed under a hen the day of the wedding.

A new paper, the McMinnville Bee is to be launched at the county seat this week under the leadership of W. C. Clow. The Bee will preach populist doctrine. This new venture, along with the Sheridan Sun, the North Yamhill Record and "the only independent paper in Yamhill county," ought to be able to cover the populist field in Yamhill pretty thoroughly.

Gen. Weaver has located again in the 6th district. We would like to see him go back to congress just to shake things up once more, but are afraid his chances are slim this year.—Brighton (La.) Enterprise.

Better put a string on the General brother Heacock, for the last heard of him he was out in the wilds of Southern Oregon and there are lots of bears and "painters" out in that country.

The weather has been too wet, even for good fish stories, for the past few weeks and as items are rather scarce, Moorhead of the Junction City Times dishes up the following:

In 1860 Mr. Lawrence, father of the Lawrence boys, just over the line in Benton county, caught a turtle and cut his initials and date on the back of the turtle. This was the last seen of the turtle until 1893 when it was found in the same neighborhood. That year was promptly dated and the turtle again turned loose. Last week the turtle again showed up and all the space on its back being taken, its belly was used as a bulletin board and the year 1895 engraved thereon. If its belly and back hold out the date will be inscribed whenever found. As turtles frequently reach the age of 100, the probabilities are the turtle will show up at irregular intervals for years to come.

About the Germ Theory. The boast of a savant during an investigation of cholera, not so very long ago, that he could swallow "a mouthful of the germs without taking the disease itself," may serve to indicate the advance which has since then been made in the knowledge of germ diseases.

Today such a boast would be deprived of all its glory by the simple explanation that under certain conditions no harm whatever need be feared as a result of swallowing cholera germs.

The idea that germs are parasitical creatures, which roam about through the body, seeking to devour and destroy, is entirely false.

In the first place, germs are not "animals," but vegetable bodies, starting at a minute point and by degrees branching out over a larger area.

Of course it is possible that eventually, by occupying the place of healthy substance in a certain organ, such germs may obstruct and even prevent the natural working of the organ; but it is not from this fact alone that we are in danger.

Nor is it because these minute particles of vegetable matter necessarily poisonous when taken into the system through the air or with food. Were this true, the great numbers which continually find entrance into the body would soon prove overwhelming, no matter how great the power of resistance of the system might be.

In their growth, however, certain germs manufacture and excrete a substance which is a direct poison to living animal matter. It is possible to extract and isolate this substance as effectually as we extract morphine from opium, and by injecting it into the veins of an animal, to cause the peculiar form of disturbance known as diphtheria or scarlet fever.

The same process takes place if the original habitation of the germ is in a human body. A suitable thriving place having been found, this point becomes at once not only a breeding place for the germs themselves, but a manufactory which is continually sending out into the system a greater or smaller supply of deadly poison.

It will be apparent now what an advantage has been afforded us in combating affections which arise from such sources.

The successful manner in which diphtheria has lately been treated is due not so much to the fact that the germ of this disease has been found capable of isolation, as to the fact that we have learned the true nature of the disturbance in all its disorders of this kind, and have been fortunate in coming upon the particular substance which will neutralize the poison which has been secreted.—Youth's Companion.

For the Mines.

In every section of Oregon are people who have periodical attacks of gold fever, and take themselves away to the established gold fields of the mountain regions, to gather the shining particles. There are many of this class of prospectors in Clackamas county, who have heretofore gone to Southern Oregon and other sections to do their work. Now they are turning their attention to the discoveries nearer home, and gold is being found in paying quantities right at our very threshold.

On last Saturday L. Freeman, of this city, and Mr. Stevens, of Columbia county, left for the Ogle creek country, where they expect to locate some claims. Many others will be prospecting in that section as soon as the snow melts sufficiently to make traveling through the mountains practicable. A. G. Malsten, the insurance man, returned last week from the newly discovered mines near McMinnville, where he has taken up a claim. He has unlimited faith in these mines and expresses the belief that mill will be in operation and a branch railroad running to the mines from McMinnville by next fall. The gold-bearing rock appears to be confined to one township, and is so fine that it is not visible to the naked eye. However, it assays from \$15 to \$80 per ton, and a working test alone will determine whether or not it can be profitably mined.

There will be a rush of hardy prospectors to the Ogle creek country in the Eastern part of Clackamas county, and more rich strikes may be expected. It is the prospectors who find and develop the mineral resources of a section. It was thought a few years ago that the paying mines of Southern Oregon were worked out, but the enterprising prospectors found deposits of gold, where people that god did not exist in paying quantities. In consequence the discoveries are constantly being made, and the output of gold is greater from this section than ever before in its history. Southern Oregon does not feel the stress of hard times, on account of steady output of gold from its mines.

The mineral resources of Clackamas county have never been developed. There is evidently a world of wealth in the mountain regions of Clackamas county, yet to be opened, that was never dreamed of by the first inhabitants.—Oregon City Enterprise.

Vassar Girls and Athletics. All Vassar girls are fond of the well equipped gymnasium, but for out-of-door amusements perhaps their first choice is for a fine long tramp over the hills, rowing or skating on the neat lake close by, or a game on the tennis court. We like to see country girls and wear cotton dresses and go "with-out our hats," said one fresh-faced, healthy student; and the statistics of the woman physician in the infirmary on the top floor, which is a complete little gem of infirmary, bear witness to the Vassar girl's wise choice of recreative amusements. Increasing interest in athletics has been manifested the past year. Basket and bottle ball teams have been formed, and the tennis and ball grounds are in the shelter of the Plaisance, the students are encouraged to this sort of exercise and allowed to count it as time spent in the gymnasium.—From "A Day at Vassar" in Demorest's Magazine for May.

We might tell you more about One Minute Cough Cure, but you probably know that it cures a cough. Ever one does who has used it. It is a perfect remedy for coughs, colds, hoarseness. It is an especial favorite for children, being pleasant to take and quick in curing. A. T. Hill.

FROM OUR EXCHANGES. Telephone-Register. W. M. Ramsey left Tuesday for Columbus, Ohio.

Two years ago the democrats elected a justice of the peace. That is all they ask this year. Vote for McPhillips.

Chas. Baker and Dan Thurber returned from Alaska, Wednesday. They do not speak well of the prospects in the cold North.

The public school library received twenty-six bound volumes of geological surveys, 107 bulletins and four large atlases from Washington, through the agency of Eugene Hermann. Oregon is entitled to eight of these complete sets and McMinnville is fortunate in being one of the favored places.

What has been said of the populist party can now be said of the democratic party. The organization which has stood the storms of forty years; passed through them without flinching from its appointed task, was consigned to its grave by its leader, on Tuesday. It is dead and the principles it has enunciated may never be taken upon the grave and left to rot. No longer will its banner of liberty and its motto of "The greatest good for the greatest number" be seen or heard in Yamhill. The organization is dead. Principle no longer holds democrats together. They have been cast to the four winds of the earth and are seeking a new home. The bars have been put down and the democrats of Yamhill county are now free to reconcile themselves with the principles of the union party or the republican, one or the other. There is no hope that it will ever be organized again for its leaders have been consigned to lack in energy and principle and instead of keeping in the middle of the road have concluded to fight for office.

This action was taken in preference to choose between men and to vote for men able to further the people's interests. Honest men are needed in office. Men who will administer affairs according to law and be elected. Two tickets are in the field and democrats should choose men, not parties.

Valley Transcript. Tommy Faulconer, now of New Mexico, but formerly of Sheridan, Wednesday, may get home on a short visit. Victor Cross and he drove down to McMinnville.

The case of state vs. Al and Alex McKinley, wherein they were charged with assaulting Frank Stevens, came up before Justice Rhodes, Wednesday, and both cases were dismissed. It is fun (?) to be a freeman, you bet you. About half of the boys who were out last Saturday night had "sleeked up" for Sunday and they were besmeared with mud from head to foot and in numerous cases totally ruined their clothes. Mr. Jos. Todd ran a shoe and sock in the mud; but this he dug out of his pants. Everybody ought to join a fire company to get out of working the roads. It pays to ruin a \$20 suit of clothes every now and then and be subject to strict discipline in order to escape a jail term. Young man, brace up, join a fire company and "get there."

Just as we expected: Here comes Charley Baker and Dan Thurber on their return from Alaska. They got as far as Juneau and concluded to go no further. Juneau, Charley says, is a place of about 1200 souls; the town is built very compact. The streets are also built very compact, the buildings all being one story. At intervals narrow alleys lead off the main streets and upon these alleys all kinds of business is transacted. Board and lodging \$7 per week. At present Juneau is crowded with outsiders, there being 600 in one camp. It costs \$21 to make the trip from here to Juneau or \$11 for the round trip. The boys are glad to get back, and Charley says the next time Dan goes, he will take his rubbers to wear when he walks the icy streets of Juneau.

At 10:30 o'clock last Saturday evening Miss Josie Gardner came running up town and gave the alarm of fire in their residence on north B street. The young lady had started up stairs to bed with a Rochester lamp in her hand, and tripping on the top step of the stairs she fell and the lamp was thrown against the east wall, where the paper was quickly ignited and a lively blaze started. Mr. Gardner was away from home, but Mrs. Gardner and Josie gave immediate alarm, several neighbors quickly arrived and kept the fire under control, by aid of buckets, until the big bell called out the department who drenched the building in quick order and saved the building for the present at least. Aside from this and the soiling of furniture by being wet, there was no damage. The house belongs to Mr. Disbro, of Newberg, and was insured. Mr. Gardner seems to be unfortunate in the line of fire, as he was burned out once at Dayton, and later everything was wiped out about a mile and a half south of town. Friends sympathize with Mr. Gardner and family in their time of misfortune.

Yamhill County Reporter. E. J. Eason and B. F. Hartman are putting up a house for Jarret Todd on his Dayton prairie farm.

Judge Ramsey left on a trip to Ohio on Tuesday. People seem to be left guessing the object of the trip, although it's nobody's business. Scott Wright has bought the interest of his partner in the Standard soda works and will run the establishment alone, for the present at least.

The McMinnville soap factory turned out two tons of saponaceous bars last week. A skull and cross bones on the front door says "only fat people need apply."

Mr. and Mrs. F. H. Hoberg of Green Bay, Wis., surprised their uncle, Joseph Hoberg, of this city with a brief visit last week. It was the first time they had ever met. Mr. Hoberg is the son of an extensive paper manufacturer of Green Bay.

J. B. Long of Anity will go to Woods soon to engage in the real estate business with Weatherly, the druggist of that place. Rapid settlement is anticipated the coming summer in the Big Nestuck valley, as well as a rush of coasters at Ocean Park.

A difficulty between J. H. Jordan and E. H. Barker, occurring at the Hotel Yamhill Tuesday evening, is to be adjusted in Justice's court next Monday. Barker is charged with assault and battery, having struck Jordan, as he claims, without provocation. Farmer Pearson is authority for the statement that a new movement is on foot among the farmers of his neighborhood. They propose establishing money weights for farm products, as follows:

get more out of them in the market. Instead of sixty pounds thirty will constitute a bushel of wheat, and the same with other articles commonly sold by the bushel. All that is necessary is an act of the legislature, and that can easily be obtained, making thirty pound a legal bushel of what in Oregon. No fault ought to be found with this proposition by parties who believe that counting fifty cents worth of silver into a lump and labeling it a dollar will make it worth as much in the markets of the world as a gold dollar.

Dayton Herald. R. O. Durban of McMinnville, Mr. Winters of Newberg and Mr. Judah of Anity were here on Monday, viewing the new road through the Fletcher addition.

The measles are going the rounds in this vicinity. In one family six members of the family have all included the mother, and the measles within the past week.

J. S. Hannett of Newberg, was in Dayton on business Friday. He informed us while here that he had a large kiln of brick already burned, and another one nearly completed and ready to be burned. He is selling brick at bed rock prices.

Dr. Leroy Lewis, of McMinnville, and Miss Olive McCann, of Dayton were married in the Evangelical church at Lafayette, Wednesday, April 29; Rev. C. C. Poling officiating. They took the afternoon train at St. Joe for Portland on a wedding tour.

A dead-beat successfully played his "little game" one day last week. He hired a team and a driver at a livery stable in McMinnville, representing that he was dealing in bicycles and wished to go to Dayton. On arriving here he took dinner at Mrs. Logan's boarding house. After dinner he informed the driver what hour to call for him, and he would return after transacting some business here. When the time arrived the driver could not find his man, and had to return to the county seat minus man and money to pay for team. We are informed that the chap has lately been employed on the Denny place near Lafayette. He was pretty well "ginned up" when here. He took in the proprietor of the Dayton hotel for lodging and breakfast.

Real Estate Transfers. These transfers are for land in the Yamhill County Abstract Company at McMinnville, Oregon. They have the only set of abstract books in Yamhill county and do general title transfer business, and solicit your correspondence and orders. Frank Ferguson, Manager.

Horticultural. To the Editor of the Graphic: I send you herewith a copy of resolution adopted at the semi-annual meeting of the Oregon State Board of Horticulture recently held.

The proposition underlying the resolution is one which ought to secure the serious consideration of every citizen. It is as follows: To the Hon. Board of Public Instruction: Herewith we beg to hand you, for your kind consideration, the following resolution: Whereas, For some time during the past year there has been several members of the State Board of Horticulture of the State of Oregon that there is a great necessity for more rudimentary knowledge among our people on the subject of horticulture; and Whereas, This occupation is fast becoming our greatest industry, and one in which the general public is and should be interested; and Whereas, It would be a life long benefit to the recipients whether the life's labor was spent in country or city occupation; and Resolved, That it is the judgment of this board that the State Board of Public Instruction should take measures to introduce into the Public Schools of this State a rudimentary line of instruction in horticulture, as the essential elements of our education to fit men and women for intelligent labor on the farm and in the orchard.

NEW FIRM

PARKER & HODSON, AT THE Newberg Clothing House Are "In It" for Trade.

Gold, Silver, Greenbacks, Bank notes, or M. & M. due bills taken at par in exchange for goods.

Resident Fifty Years.

Wednesday's Oregonian of last week contained a list of sixty-six persons who have resided in Oregon fifty years or more. These are names that have been sent to George H. Hines, secretary of the Oregon Pioneer association, since April 8th. There are others to hear from. Of the sixty-six reported, Yamhill furnishes twenty-one, as follows, with place of nativity and date of arrival given: Louisian C. Kirkwood, Ind., 1842. N. K. Sinton, Mo., 1843. Mrs. E. B. Snelling, Mo., 1846. Mrs. Anna B. Martin, Mo., 1846. James Johnson, Mass., 1844. Mrs. Juliette Johnson, N. Y., 1844. Mrs. Elisha Johnson, N. Y., 1844. T. B. Nelson, Mo., 1844. Mrs. C. B. Cary, Va., 1843. Mrs. L. A. Dixon, Mo., 1843. J. J. Carey, Oregon, 1845. Henry Hewitt, Pa., 1843. Elizabeth Hewitt, Ind., 1843. Charlotte Kirkwood, Ill., 1843. Lucy Ann Kirkwood, Ill., 1843. Wm. Gray, Ill., 1845. Mrs. H. B. Buffman, Mo., 1844. John Millican, Oregon, 1846. John Johnson, Oregon, 1846. Mrs. Sydney A. Burnett, Ky., 1846. Lucretia A. B. Nelson, Mo., 1846.

United Sunday School Work.

A union or federation of all the Protestant churches in America has often been proposed, but no such union exists, or is likely to be formed, at least for years to come. The Sunday schools however, representing all the churches and over one-sixth of the entire population of the country, have been organized for nearly forty years, and the organization is increasing in strength every year. Sixty states, territories and Canadian provinces are organized, with an annual convention, a board of officers, and auxiliary associations in the counties and townships. An International Convention is held every three years, to which each of the sixty states and provinces sends a delegation. The International Executive Committee, with headquarters in Chicago, keeps a force of secretaries in the field, attending conventions and working for the extension and improvement of the Sunday schools.

The Leason Committee chooses the so-called International Lessons, which are studied in nearly all the 10,000 Sunday schools of the United States and Canada. The Eighth International Sunday School Convention is to meet in Boston this year, June 22nd to 29th, and a World's Convention will be called to meet next July in London.

How to Treat a Wife.

(From Pacific Health Journal.) First, get a wife; second, be patient. You may have great trials and perplexities in your business, but do not therefore, carry to your home a cloudy or contracted brow. Your wife may have trials which, though of less magnitude, may be hard for her to bear. A kind word, a tender look, will do wonders in chasing from her brow all clouds of gloom.--To this we would add, keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by A. T. Hill.

Horticultural Meeting.

On account of the very bad weather prevailing but few persons attended the meeting at Lafayette last Saturday to organize the Yamhill County Fruit Exchange, consequently the meeting adjourned to Saturday, May 16th, 2 o'clock p. m., when it is hoped the fruit growers generally will turn out. There is no other intelligent course for us and we must try to help ourselves to better market facilities if we would make a success of our business. J. H. Rees, Secretary Yam. Hort. Society.

Hon. J. H. St. John, the blind populist orator, who hails from some point in Washington, spoke at this place last evening on the political issues. There appeared to be sort of a "discombobulation" in this, the opening campaign number. First, the announcement was given to the public by posters that it was to be "Populist" speaking; then "Bimetallist" was substituted, and the place at Science Hall. This caused another jar and opera house was substituted for Science hall, and it went. And the morning and the evening were the first day. But there was a full hour to listen to a very good talk from a populist standpoint.—Transcript.

Notice.

Our price for washing Carpets is three cents per yard instead of four cents. After April 18, 1898, our price for Laundry Ladies Shirt Waists will be 15c. instead of 10c.

NEWBERG STEAM LAUNDRY.

For sale. A 40 acre farm, six miles from Newberg. Half in cultivation, fine water. Price \$600. For particulars inquire at Graphic office. 11-11f

Burns are absolutely painless when DeWitt's Witch Hazel Salve is promptly applied. This statement is true. A perfect remedy for skin diseases, chapped hands and lips, and never fails to cure Eczema. A. T. Hill.

PREPARATIONS FOR THE GREAT BATTLE

Of November 3 are already well under way. A new PRESIDENT OF THE UNITED STATES is to be elected and the NEW YORK WEEKLY TRIBUNE will, as always, be found in the thickest of the fight, battling vigorously for Sound Business Principles, which will bring Prosperity to the Nation. The New York Weekly Tribune is not only the leading Republican paper of the country, but is pre-eminently a National Family Newspaper. Its campaign news and discussions will interest every American citizen. All news of the day, foreign correspondence, agricultural department, market reports, short stories complete in each number, comic pictures, fashion plates with elaborate descriptions, and a variety of items, make up an ideal Family Paper.

We furnish THE GRAPHIC and the NEW YORK WEEKLY TRIBUNE, both One Year for Only \$1.50, CASH IN ADVANCE. Address all orders to THE GRAPHIC, Newberg, Or.

Write your name and address on a postal card, send it to Geo. W. Best, Tribune Building, New York City, and a simple copy of THE NEW YORK WEEKLY TRIBUNE will be mailed to you.

W. P. HEACOCK, LUMBER YARD, NEWBERG, OREGON.

DOORS, LATH, GLASS, SINKS, TILES, SAWS, WEIGHTS, SHINGLES, HAIR, COILS, CEDAR, FLOORING, BRICK, YELLOW PINE, ETC., ETC. Builders Hardware.

FANCY CASINGS IN

JOHN A. BECK, Your Face

WATCHMAKER AND JEWELER, 270 Morrison St., PORTLAND, OR.

Solicits the patronage of his old Indiana Friends who need watch repairing done.

DENTISTRY. I. L. SCOFIELD.

Newberg, Oregon. Seamless gold crowns, bridge work, gold silver and bone fillings, aluminum or rubber plates; teeth extracted without pain. Prices reasonable.

White Sewing Machine

EQUIPPED WITH ITS NEW PINCH TENSION, TENSION INDICATOR AND AUTOMATIC TENSION RELEASER. The most complete and useful device ever added to any sewing machine.

THE WHITE IS Durably and Handsomely Built, Of Fine Finish and Perfect Adjustment, Sews ALL Sewable Articles, And will serve and please you up to the full limit of your expectations.

ACTIVE DEALERS WANTED in unoccupied territory. Liberal terms. Address, WHITE SEWING MACHINE CO., CLEVELAND, O.

E. F. MANNING, Agent, McMinnville, Or.

Busy people have no time, and sensible people have no inclination to use a slow remedy. One Minute Cough Cure acts promptly and gives permanent results. A. T. Hill.

The Duke of Marlborough said that he owed his success as much to his elegant deportment as to his talents.

It is not a miracle. It won't cure everything, but it will cure piles. That's what DeWitt's Witch Hazel Salve will do, because it has done it in hundreds of cases. A. T. Hill.

A Portland spool buyer was in town Wednesday. He was offering thirty-five cents per sack.

It's just as easy to try One Minute Cough Cure as anything else. It's easier to cure a severe cough or cold with it. Let your next purchase for a cough be One Minute Cough Cure. Better medicine; better result; better try it. A. T. Hill.

THE NEW ESOMOND HOTEL

PORTLAND, OREGON. Front and Morrison Streets.

EUROPEAN PLAN, 50c. to \$1.50 per day. AMERICAN PLAN, \$1.50 to \$2.50 per day. ELMER E. LAWRENCE, Manager.
