Word was received here a few days ago announcing the marriage of Harvey White at his home in Indiana. Harvey was one of Newberg's boys a few years ago and he has a large number of friends here who still hold him in the highest esteem. Prosperity and long life to you Harvey.

The United Artisan excursion by steamer that was to have been run from Portland to Newberg on last Sunday did not make the run, owing to the cool cloudy weather. This has been rather an unpropitious springtime for excursions and out door picnics up to the present time and just when a change for the better is to come Pague, the weather man sayeth not.

W. N. Sutton left here on Wednesday on a business trip to his former home at Lakeview in the southeastern part of the state. He had intended to make the trip across the country on his wheel but owing to the snow in the Cascades he shipped his wheel to a point in northern California where he will get off and mount his silent steed. He will probably be gone about three weeks.

Mrs. Vannie Martin arrived home from the east the first of the week after an absence of several months, working as financial agent for Pacific College. She has been quite successful in the work but she thought best to come home for the summer, as it seemed difficult to continue the work at present, owing to the absence from home during the heated term of many she desired to call on and the political agitation during presidential year which makes it difficult to get the attention of the people. Mrs. Martin's many warm friends are glad to see her at home again.

It is with regret that the Graphic announces that Prof. J. J. Jessup will leave us at the close of this school year to take the principalship of the Academy at Whittier, California. He has been a member of the faculty of Pacific College for four years, a position which he has filled to the entire satisfaction of all who have been connected with the college and the board would have been more than willing to retain him but a good offer was made him in California and this, in addition to a view he has of giving his younger brothers a chance to attend college, induced him to decide to make the change. Prof. Jessup is an all round college man whose place will be hard to fill, both in the class room and on the campus with the students, and in his departure Newberg will loose a most estimable family. May success attend thir efforts in their newly chosen field of labor and let them remember that the latch string at Newberg will always hang outside the door.

We have sold it for several years and it has never failed to give the most perfect satisfaction. G. W. Richards, Duquesne Pa. Sold by A. T. Hill, druggist.

Alex Nichols and J. C. McCrea, who had a contract for furnishing a lot of piling for the Astoria railroad, received a telegram from head quarters a few days ago countermanding the order. They had aleady commenced to get the timber out and of course it is quite a disappointment. It seems that Mr. Hammond is doubtful about being able to float his bonds since the election has indicated that Oregon is somewhat populistic in sentiment.

Loren Nelson who lives at the foot of the mountain north of town came into town last Tuesday morning with his butter and eggs as his custom is, and after he had finished making his exchanges at Morris & Miles' store he was accosted by a stranger whom he did not recognize, but who turned out to be a brother of his who had arrived here the day before from North Dakota. The two old men walked off together talking in their native language as intently as two small boys would under the same circumstances.

The citizens of Newberg are probably not aware that we came very nearly having a circus here last Sunday night, but we did. On Sunday morning at 4 o'clock the old O. R. & N. Co's steamer Salem left Portland with a circus outfit, including a barge loaded with horses, big elephants and general circus trappings, and some two hundred men and women actors and roustabouts on board the steamer, headed for Albany, where they hoped to arrive in time for a show on Monday afternoon. After laboriously puffing and tugging away all day the old steamer passed Newberg and managed to reach Ray's Landing at dark where they tied up for the night. The elephant bones imbeded in the earth about the mouth of Chehalem creek go to show that at some remote period these monsters spurted the waters of the Willamette but it has been quite a breakfast spell since real live specimens have navigated the waters of our rivers.

Saturday's Excursion.

The excursion by steamer Grey Eagle to Salem on last Saturday was quite well patronized, considering the uncertainty of the weather, there being something like a hundred passengers aboard. The steamer left the wharf at a little past five o'clock and made the run to Salem by noon. Pacific Band was on board and furnished excellent music for the trip.

Some of the party visited the state buildings and looked the capital city over but the larger number went directly to the fair grounds, after they had satisfied the demands of stomachs made empty by an unusually early breakfast.

At the gate a general kick was made by the public at the charge of fifty cents gate fee and many Salem people refused to go, saying they did not care so much for the particular fifty cents but they did not want to encourage the management in such extravagant charges. The college boys so far as heard from all made the same complaint so that it appeared to be unsatisfactory all round. Just where the responsibility laid no one seemed to know to a certainty but all seemed to want the other fellow to carry the burden of it.

No charge was made this year for seats in the grand stand but not a single program could be had short of ten cents. The management from beginning to end seemed to be one series of blunders, and unless a change is made it will not be long before the Oregon Inter-collegiate field day which has been looked forward to with a great deal of pleasure by college people and lovers of athletics generally, will be a thing of the past, owing to a lack of patronage.

A competitive military drill which was to have taken place at 1:30, between the cadets of the Oregon Agricultural College and a company of Salem State militia did not begin until after 2 o'clock and this took up an hour's time much to the dissatisfaction of those who cared more for the athletic sports.

The O. A. C. cadets made a fine showing, scoring 31 points out of a possible 40, while the militia only scored 15 points.

The delay in beginning the program and the dilatory management made it necessary for a large part of the crowd to leave the grounds before the exercises were over.

The University of Oregon led in the events from the start and it was soon seen that the state school would take the cup.

The Oregon Agricultural college and Willamette University were close contestants for second place while Pacific College, Pacific University and Monmouth Normal stood but little show. The Pacific College boys did some fine work and showed that they had good staying qualities, but in a contest against colleges that have teams of twenty-five or more it was impossible to win first place.

The captain of the Grey Eagle got nervous and pulled out before the time announced for leaving Salem and left something more than thirty of the excursionists in the city. Most of the crowd went to the Armory where they were well provided with militia blankets for the night and the boys had a jolly time. They came down on the Ramona Sunday morning.

Cures Croup.

"My three children are all subject to croup; I telegraphed to San Francisco, got a half dozen bottles of S. B. Cough Cure. It is a perfect remedy. God bless you for it. Yours, etc., J. H. Crozier, Grants Pass, Or. 50 cents per bottle. For sale by all druggists.

There were a large number of bidders both for furnishing the public school with wood and doing the janitor work next year. Dr. Esther Barnard takes the contract for furnishing old fir wood corded up in the basement of the building at $1.00 per cord, and Luther Charles will do the janitor work for $12.95 per month.

John Larson arrived here from Minnesota last Monday and spent the day looking over the town with J. C. Clemenson before going out on the mountain where he has a brother living. Mr. Larson saw Oregon a few years ago but did not like it well enough to remain at that time.

The statement made many years ago that "man cannot live by bread alone" is as true as it ever was—he must have a nice juicy steak or a roast of meat to go with it. Stanley & Cooper are always ready to furnish their customers with the best of fresh and smoked meats.

Dr. Littlefield made a flying trip to LaFayette Wednesday. He says the LaFayette people are highly elated over the prospect of work beginning on the locks in the Yamhill river at an early day.

The Oregon Pioneer Association meets in Portland next Tuesday when Oregons golden anniversary will be celebrated by the old settlers. Hon. George H. Williams will deliver the address.

The Childrens Day exercises at Friends church on last Sunday night were attended by a large gathering and the little folks were at their best.

Prof. Thomas and a half dozen of the Pacific University students came over from Forest Grove last Friday and went to Salem on the excursion.

E. C. Beck, a prepossessing appearing young man from Boise, Idaho, was here the first of the week calling on a young friend of his in town.

Charley Butler and family returned from Scotts Mills Wednesday where they had been for several days visiting with relatives.

Although we did not win much at Salem last Saturday, our boys made a very creditable showing for the chance they have had in training.

Miss Mabel Cutts did not remain in school until its close, but stopped work, and has gone to Ashland where she will remain for the summer.

The athletic exercises to be held today will be the most interesting that have yet been held. The Juniors fight the whole school for the most points.
