N. E. Britt and family left here on Tuesday for a ten days outing on the Santiam. They were well provided with fishing rods, and considering Mr. Britt's knowledge of the trout streams of the Cascades, it is safe to predict that fish stories, rivaling those of the average Tillamooker, may be looked for on their return home.

One day last week Walter Kirk took a sack of flour home in the buggy and by chance he forgot to carry it in the house. Next morning when he went to put his hands on it, like the flea, it was not there. The word came in from Ocean Park last Saturday that the body of a young lady was seen by the aid of a glass, floating in the sea, about a quarter of a mile out from land. In some way the report was started here that it was the body of Miss Stella McDaniel of Newberg, which caused considerable of anxious inquiry to be made among her friends as she was known to be at Ocean Park, but there was no foundation for the rumor.

Since 1878 there have been nine epidemics of dysentery in different parts of the country in which Chamberlain's Colic, Cholera and Diarrhœa Remedy was used with perfect success. Dysentery, when epidemic, is almost as severe and dangeoous as Asiatic cholera. Heretofore the best efforts of the most skilled physicians, have failed to check its rages, this remedy, however, has cured the most malignant cases, both of children and adults, and under the most trying conditions, which proves it to be the best medicine in the world for bowel complaints. Chas. K. Spaulding wants 40 tons of timothy and 60 tons of cheat hay, baled and delivered in Newberg. 7-10tf

A Wealthy Visitor.

D. Ward, the Michigander who visited with N. E. Britt last week, is probably the wealthiest man that ever set foot in Newberg. His holdings, which are mostly in Michigan pine timber lands, will probably foot up $50,000,000. He owns 200,000 acres of this timber land, beside 10,000 acres of coal land in Virginia. Mr. Ward started out in life a poor man, but he got a start in the timber, and in buying land and cutting and selling the timber from it and then selling off the land, he has amassed a fortune. No timber has been cut from the land he now owns. On this land he has built 160 miles of railroad. The line for this road was surveyed by Mr. Britt several years ago when he was in the employ of Mr. Ward. The old man is now nearly eighty years old, but he walks with an elastic step and says he is a boy yet. Where he is known he is considered an eccentric character as he carries on his extensive business without the aid of a book keeper, and he keeps but few accounts on paper, as he does strictly a cash business. He was anxious to retain Mr. Britt in his employ and got mad when he found that he had decided to come west.

Annual Picnic of the W. C. T. U.

Notwithstanding the inclemency of the weather, quite a number of people gathered last Tuesday, Aug. 4th, to hold the annual picnic. After a splendid dinner which every one enjoyed, Mrs. Martin, one of the committee, announced that there would be a short program rendered. After scripture reading, Rev. Aaron Bray offered prayer. Miss Effie Bray recited "Shall I Drink It Now?" very nicely. Rev. Ware made some very appropiate remarks, speaking in the highest terms of the W. C. T. U., and touching on some of the lines of work taken up by the organization. The L. T. L. favored the audience with a song, after which Mrs. Cox gave one of her characteristic speeches. She thinks the W. C. T. U. should be mothered by the church, and told us that the yearly meeting of Friends church of Lawrence, Kansas does mother this organization, and asks in her reports how many of her members belong to the W. C. T. U. She also spoke of Lady Henry Somerset, and her fresh air mission for working girls, suggesting that hereafter the annual picnic be held on Aug. 3rd, Lady Henry's birthday anniversary, which suggestion was accepted by the members present, and in the future we shall know when the picnic will be held. Aaron Bray made an excellent speech, right to the point, and was followed by Mrs. Martin who wants people to come out and be what they are politically. Mrs. White of Middleton also made a spicy little speech, and altogether the picnic was voted about the best one we have ever held, though not so large in numbers.

Wedding Bells.

A quiet and pretty wedding took place in the parlor of the Sacramento Restaurant last Wednesday evening at 9 o'clock. The contracting parties were R. M. McKern of Newberg, Oregon and Miss Stella Lyon of Williams, daughter of Mr. and Mrs. W. A. Lyon.

The bride was attired in a neat fitting suit of deep cream silk trimmed with lace and ribbon with a boquet of lillies-of-the-valley. The groom appeared in a suit of black with buttonaire.

After a short discourse on the uncertainties of the matrimonial state, Justice Ashly tied the nuptial knot according to the rules and regulations of the state of California, after which the custom of congratulating the groom and kissing the bride was indulged in.

A beautiful repast was served after the ceremony in the dining room of the restaurant where everyone present enjoyed themselves and poured their "buen venir" on the heads of the happy couple.

The bride is well known in Williams, and the groom, who recently arrived in our midst from the state of Oregon, has been for a long time a close friend of the bride's parents, although a stranger to this section. Mr. and Mrs. McKern will make Williams their home for the present.—Williams (Cal.) Transcript.

At a very early hour on last Saturday morning, Miss Libbie Morris and Marion Cook were quietly married, at the residence of Rev. Marion George in the city of Portland on the east side, Rev. George officiating. They took the early boat for Newberg where they have been visiting among relatives and friends and receiving the congratulations bestowed, during the week. Both the bride and groom are held in high esteem by the people of this community, where they have lived for the past few years, and the hearty good wishes of all go with them. For the present they will make their home at Mount Tabor.

What Patriotism Means to Women.

When women feel and respond to the call of patriotism it means much. When men go forth to war they go with the song "It is glorious to die for our country." There is the inspiring music, the good comradeship in arms, the sense of continual action, that great flag before them; we women have our dead. We give ourselves in patriotic struggles for we know the bloody footpaths that must be traversed to reach the end. We give our hearts and souls, while the men give their bodies. There is no great movement or effort which is without the encouragement and sustaining support of women. The women are the fosterers of patriotism. The Cuban rebellion would not last a month if the Cuban women were not as great and selfsacrificing patriots as the men, and therefore, in the ultimate triumph of liberty in Cuba, the women should be honored as will be their husbands and brothers and fathers.

A little story will illustrate the place the flag occupies in the feminine mind. Just before the battle of Gettysburg when her big brothers were starting for the campaign, and she had heard a great deal of soldiers and patriotism and the flag, a little girl sat on her grandfather's lap at sunset and watched the stars come out. She was a very little girl, and the sights were unusual to her.

"Why, grandpa," she exclaimed, "what are those lights?"

"The stars, my dear," he answered.

"The stars? But where are the stripes?"

She was a fitting daughter of America, for the stars and stripes could not be separated in heart.—From "Women Who Foster Patriotism," in Demorest's Magazine for August.

A Chance to Make Money.

I have berries, grapes and peaches, a year old, fresh as when picked I use the California Cold process, do not heat or seal the fruit, just put it up cold, keeps perfectly fresh, and costs almost nothing; can put up a bushel in ten minutes. Last week I sold directions to over 120 families; anyone will pay a dollar for directions, when they see the beautiful samples of fruit. As there are many people poor like myself, I consider it my duty to give my experience to such, and feel confident any one can make one or two hundred dollars round home in a few days. I will mail sample of fruit and complete directions, to any of your readers, for eighteen two-cent stamps, which is only the actual cost of the samples, postage, etc., to me.

Consumption and bronchitis are not by any means the same, although it is hard to distinguish one from the other Bronchitis is an inflammation of the lining of the wind tubes or air vessels of the lungs, causing soreness of the same, cough, sore throat, hoarseness, difficulty of breathing, spitting of matter and sometimes blood. Thousands die annually with this dread disease. Wilbur's Cough Cure will cure. Price 50 cents. For sale by all Druggists.

Ice Cream Made by a New Process.

I have an Ice cream Freezer that will freeze cream instantly. The cream is put into the freezer and comes out instantly, smooth and perfectly frozen. This astonishes people and a crowd will gather to see the freezer in operation and they will all want to try the cream. You can sell cream as fast as it can be made and sell freezers to many of them who would not buy an old freezer. It is really a curiosity and you can sell from $5 to $8 worth of cream and six to twelve freezers every day This makes a good profit these hard times and is a pleasant employment. J. F. Casey & Co., 1143 St. Charles St., St. Louis, Mo., who will send full particulars and information in regard to this new invention on application and will employ good salesmen on salary. Katie M.

The New Hook Spoon Free to All.

I read in the Christian Standard that Miss A. M. Fritz, Station A., St. Louis, Mo., would give an elegant plated hook spoon to anyone sending her ten 2-cent stamps. I sent for one and found it so useful that I showed it to my friends, and made $13.00 in two hours, taking orders for the spoon. The hook spoon is a household necessity. It cannot slip into the dish or cooking vessel, being held in the place by a hook on the back. The spoon is something that housekeepers have needed ever since spoons were first invented. Anyone can get a sample spoon by sending ten 2-cent stamps to Miss Fritz. This is a splendid way to make money around home.
