J. R. N. Sellwood, of Portland, who owns a half interest in a large farm down the river opposite Champoeg, was in town a few days ago and called at this office. Mr. Sellwood is another lifelong democrat who says there is no politics in the coming national election, but it is anything to save the country, and he is outspoken for McKinley and sound money.

The Darlington, Wis., Journal says editorically of a popular patent medicine: "We know from experience that Chamberlain's Colic, Cholera and Diarrhoea Remedy is all that is claimed for it, as on two occasions it stopped excruciating pains and possibly saved us from an untimely grave. We would not rest easy over night without it in the house." This remedy undoubtedly saves more pain and suffering than any other medicine in the world. Every family should keep it in the house, for it is sure to be needed sooner or later. For sale by A. T. Hill, druggist.

A bale of hay jumped through a plate glass window in the Hoskins building on Wednesday afternoon, much to the chagrin of the boys who were unloading it. This particular sash seems to play to hard luck. Two or three years ago a boy threw a rock and broke the glass in it, at a cost of something like $25 to his father.

One day last week the six year old son of a German named Myers who lives near Middleton, touched a lighted match to some hay at one corner of the barn, and the old German was soon minus barn, hay, a wagon and other articles of value. A few days ago Joseph Wilson recieved a letter from A. J. Clark who is sojourning for the present in Ohio, which don't tally very well with the statements Lee Smith has been giving out. Instead of Ohio being for Bryan, as Lee has been saying Mr. Clark had written him, this letter says Ohio is four to one for McKinley. A. J. seems to be whoopin'er up for McKinley after his well known style and writes to find how the ball is rolling in Oregon.

Edwards of Newberg and who was a schoolmate with the writer in the Seventies, has issued a book entitled, "An outline of method in history." J. L. Hoskins has some Kaffir corn that was planted for trial that stands six feet high and is well headed out. With a coupie of weeks of good weather the seed will ripen. The writer also has some in about the same stage. It seems to make a good growth and cows eat it well, but ordinary corn will doubtless be a more profitable crop to raise in Oregon.

Wm. Hendershot is now busy with a force of hands giving the Newberg House a thorough overhauling and cleaning up, and in a few days will be ready to accommodate the traveling public. The house will be thoroughly furnished as fast as the business will justify. Mr. Hendershot is someting of a traveling man himself and consequently he knows what this class of men want.

Jo Woods returned from the Lincoln hop yards the first of the week. He says politics ran high in that locality among the pickers and they were pretty evenly divided between the two parties. Hofer of Salem and Ivey of Portland were there one night and had a big discussion, in which Jo says Ivey came off best. Our fellow townsman Jim Hunt became exceedingly enthusiastic and led in the applause for the sound money argument.

Jim Ramsey, who has been suffering for some time with what is supposed to be rheumatism in one hand, returned from the hot springs above Eugene a few days ago, where he went hoping to get relief, but he came away with the hand in about the same condition as when he went. He says there are many crutches at the springs that have been thrown away by persons who have found relief, but he was not so fortunate, and he is now inclined to doubt his ailment being rheumatism. Jim is a hard worker and don't enjoy a lay off a little bit.

New Passenger Line.

J. C. Oliphant, of Portland writes to Wm. Hendershot in which he says: "I am figuring on putting in a nice little passenger boat on the route between Newberg and Portland, making round trips daily, giving the people of Newberg and Butteville a chance to go to Portland and return the same day at a cheap rate, and would like to find out if the people in Newberg would favor and patronize a daily boat. If they will give me any assurance I will see that they get the best of service by furnishing a nice boat for the route."

If Mr. Oliphant will put on a light draft, fast boat, and give our people three or four hours in Portland they will patronize him, provided the fare is low.

To Rent.

My residence property on corner of Third and Center streets in Newberg. Two story house of 9 rooms, good barn and well. O. F. WINSLOW, Springbrook, Or.

Teachers Institute.

On Saturday last, a goodly number of the teachers of our county met at McMinnville in the Columbus school building.

The meeting was called to order by Supt. Prentiss. The opening exercises consisted of singing and prayer.

Mrs. Cook of McMinnville then gave an interesting class exercise in primary number work.

S. S. Duncan of Dayton handled the subject of common fractions with his usual energy.

Mr. Reynolds of the McMinnville schools, spoke of the best method of teaching percentage. He favors the one hundred per cent method and has but little use for formulas.

During the noon hour, the teachers were entertained at White's restaurant. In the afternoon the institute was favored with recitations and songs by the McMinnville school.

Mr. McCann of North Yamhill presented the subject The Governing Power of the Teacher, which was discussed by a number of those present.

The discussions were of interest and profit to those present.

Sheridan was named as the place of the next meeting. After a vote of thanks to whom it was due, the meeting adjourned.

At the meeting of the union held last week it was decided to have Mrs. Clara Hoffman, national lecturer and president of Missouri state union, lecture in Newberg some time in Nov. The subject of peace was discussed. Mrs. Elizabeth B. Miles gave an interesting account of the work being done in this line both on this and the other side of the Atlantic. Mr. N. A. Baker, a prohibition lecturer from Kansas, was present and spoke on the subject under discussion. On adjournment of the union the L. T. L. marched into the church and were highly entertained by a chalk talk by Rev. Ware. These girls and boys are wide awake and ready to answer questions. REPORTER.

Elder Alson W. Steers writes from Portland, Or.: "There is no medicine for the throat and lungs that I can recommend to ministers, public speakers and singers, with the confidence that I can the S. B Cough Cure." 50 cents per bottle. For sale by all druggists.

Many political speakers, clergymen, singers and others who use the voice excessively, rely upon One Minute Cough Cure to prevent huskiness and laryngitis. Its value as a preventive is only equaled by its power to afford instantaneous relief. A. T. Hill.

How a Woman Paid Her Debts.

A lady in Lexington says: "I am out of debt and thanks to the Diswasher business. In the past six weeks I have made $350.00. Every housekeeper wants a Dishwasher, and any intelligent person can sell them with big profit to himself. The Dishwasher is lovely, you can wash and dry the family dishes in two minutes, and without wetting your hands. You can get particulars by addressing, The Mound City Dishwasher Co., St. Louis, Mo. There is big money in the business for an agent. I expect to clear $4,000 the coming year. I need the money, why not make it? Miss C. E.

Ice Cream Made by a New Process.

I have an Ice cream Freezer that will freeze cream instantly. The cream is put into the freezer and comes out instantly, smooth and perfectly frozen. This astonishes people and a crowd will gather to see the freezer in operation and they will all want to try the cream. You can sell cream as fast as it can be made and sell freezers to many of them who would not buy an old freezer. It is really a curiosity and you can sell from $5 to $8 worth of cream and six to twelve freezers every day. This makes a good profit these hard times and is a pleasant employment. J. F. Casey & Co., 1143 St. Charles St., St. Louis, Mo., who will send full particulars and information in regard to this new invention on application and will employ good salesmen on salary. Robt C.
