

WORSE THAN REPORTED.

A Cuban's Story of Fonderella's Terrible Atrocities in Guanabacoa.

New York, Jan. 11.—Antonio Aguiro, a member of the Havana produce exchange, arrived here on the steamer Orizaba, from Havana. He is a resident of Guanabacoa, where, according to recent reports from Havana, atrocities were committed by the Spanish troops under Colonel Fonderella. Senior Aguiro when seen last night said:

"The reports which reach the United States of the state of affairs in Guanabacoa are far from telling the whole truth. Colonel Fonderella has instituted a reign of terror at the place. His name is well known to the American press as that of the most bloodthirsty officer of General Weyler's command. He is a favorite of the captain-general and has been appointed military commander of Guanabacoa, just across the bay from Havana.

"Fully 500 families have left the town and moved into Havana since his taking charge. People are taken from their homes and killed with machetes in the outskirts of the town. The world is then made to believe that such people were leaving their homes to join the rebels, who swarm in the neighborhood. I know of thirty-nine persons who have thus been done away with.

"Even honest Spaniards are shocked at Fonderella's acts. One of the honest Spaniards warned me that my name was on the list with more than 200 more kept by Fonderella as men marked by him for secret execution as rebel sympathizers. Being a thoroughly neutral man and having good friends among the Cubans and Spaniards alike, I managed to obtain my passport for the United States. I love my escape from Fonderella's clutches to my Spanish friends, toward whom I feel the greatest gratitude.

THE FUNDING BILL.

Debate Opened by Representative Powers—Features of the Measure.

Washington, Jan. 11.—The Pacific railroad funding bill, which is considered the most important piece of legislation which will come before congress at this session, came up today in the house, under a special order, which allows two days for general debate and one day for amendments and debate under the five-minute rule, with provision for a final vote within four days. There was a great deal of interest in the measure, and the members gave all the speakers close attention. A huge map of the roads, with their feeders, was hung on a frame erected in the area in front of the speaker's rostrum, and served to illustrate many of the points made. There were only four speakers today—Powers of Vermont the chairman of the Pacific railroads commission, who opened with an extensive two hours' argument in support of the bill; Hubbard of Missouri, the minority member of the committee, who has charge of the opposition, and Grow and Bell, who spoke respectively for and against the measure.

The Senate's Action.

Washington, Jan. 11.—The Republican and Democratic steering committees today decided to make the Pacific railroads funding bill the order of business in the senate after the free-homestead bill. The Republican committee, with Senator Allison, its chairman, present, was in session for an hour, when Senators Gorman and Cockrell were called in as representatives of the Democratic committee. There was no opposition in either committee to the proposition to give the bill consideration, and to place the time for hearing at as early a date as practicable. The agreement was made only conditional upon the passage of the bill through the house. If it fails there, it will not be considered in the senate. No attempt will be made to provide for the consideration of any other bill.

The Moar Claims.

Washington, Jan. 11.—The senate in executive session, has adopted a resolution instructing the committee on foreign relations to investigate the payment of the Moar claims. The resolution was introduced by Senator Chandler, and instructs the committee to ascertain, among other things, whether the settlement, providing for the payment of \$1,500,000 on account of the claim, was a fair one. It also directs the committee to ascertain whether the payment of the claim involves any assurance from this government as to the attitude this country would maintain in the Cuban insurrection.

Airship Invented in Pittsburgh.

Pittsburgh, Jan. 11.—Charles D. Dore, a Pittsburgh inventor, who has been interested in the stories about the alleged California airship, says he has a flying machine that will fly. Yesterday he exhibited a model which flew across a field. He believed the airship should be built on the principle of a bird's flight, and his model looks like a large hawk or eagle. He was careful to arrange it so that the body of the bird would hold sufficient gas to make the machine buoyant enough to elevate and sustain itself in the air. After filling the model with gas he attached a rope to it. As soon as he released the model it started skyward until the end of the rope was reached. Dore has made a number of public tests of his model and all were successful.

Natural Gas a Mineral.

New York, Jan. 11.—Judges Lacombe and Wallace, of the United States circuit court of appeals, in a decision filed today, classify natural gas as a mineral for all the purposes of the statutes and customs laws.

George Washington's Wedding. New York, Jan. 8.—The annual celebration of the wedding of George Washington was held at Sherry's this afternoon by the New York chapter, Daughters of the American Revolution.

Death of Life Paid.

Portland, Or., Jan. 8.—W. S. James, formerly proprietor of the Columbia business college of this city, and an old and well-known resident, was found dead in his room in the G. A. R. building yesterday morning. A pistol lay close to his breast, and his heart was pierced by a bullet. From the condition of the body, it was apparent that James had been dead several days. The case was clearly one of suicide.

There is a clerk in Marne, France, who has made seventeen unsuccessful attempts to commit suicide.

WEEKLY MARKET LETTER.

Downing, Hopkins & Co.'s Review of Trade.

Wheat on Friday last week had lost 5c from the highest point, though a portion of the loss was recovered before the close on Saturday, and the total loss for the week was 4c. Taking the news of the week as a whole there was nothing to suggest a reason for the decline unless it be the further bank troubles reported from the Northwest. That, however, is not a good reason to assign, as banks at Chicago are anxious to lend money on wheat securities and have plenty of it for all applicants having a 10 per cent margin. The true reason was the taking of profits, which to some big traders were sufficiently enticing at the opening advance on Monday—35 1/2c for May delivery. The decline throughout the week was steady, until on Friday, when the tide was turned by the bringing into line of large buying orders for export. Corn and oats suffered losses of 7-8c and 5-6c respectively in sympathy with wheat.

The trade has generally become convinced that the Argentine surplus will be lighter than heretofore figured on, and those who estimated it at 20,000,000 bushels ten days ago, have reduced their figures to 12,000,000 bushels. This is the result of bad weather, there being too much rain at harvest, the same as the winter wheat crop here suffered last year, taking off probably 20,000,000 bushels from the yield.

This makes the second year that the Argentine crop has been damaged by unreasonable weather at harvest time, but this year it has been somewhat damaged by locusts. The latest estimates make a reduction of 8,000,000 bushels from what the bulls figured on. To make the situation more bullish is the prospect of a scarce crop, snow and cold weather following two days of rain over the winter wheat country, which is not a good thing for the crop. This may start buying by the country, and when they get in there is no telling where the price will go. The much talked of \$1 would be realized within a short time.

"PICK UP" FOR UNCLE SAM.

Millions of Dollars of Unclaimed Money in the Treasury.

There are millions upon millions of dollars in the treasury paid in from different sources which belong to citizens of the United States. To this wealth the postoffice department, through the money order office, contributes largely. A few years back the postmaster general deposited with the treasurer nearly \$3,000,000, the money from uncashed orders which had accumulated since the office was started in 1863. At first no effort was made to restore this unpaid money to its rightful owners, but the letters of advice, turned in as unpaid by the postmasters from all over the country were kept, in case a demand should be made for their payment. This money remained to the credit of the money order office, showing a large profit for the service. This policy was subsequently changed, and now the office endeavors to refund the money to the remitters by a draft drawn on the treasury. To this wealth the postmasters from all over the country were kept, in case a demand should be made for their payment.
