Alfred Moore is making his home in the country this winter with his son A. E. Moore and is not in town very often, but when he is seen on the streets he has more the appearance of a man of sixty than one seventy-seven years of age.

Not a few who read what Mr. Robert Rowls, of Holland, Va., has to say below, will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." For sale at 25 and 50 cents per bottle by A. T. Hill, druggist.

Dr. G. W. Gue, the presiding elder of the M. E, church for this district, delivered a very interesting and instructive lecture at the M. E. church on last Saturday evening, his subject being "Reminiscences of the war." Dr. Gue was a chaplain in the army with an Illinois regiment and saw much of the service, and consequently he, being a very pleasant speaker is well able to entertain an audience on this subject. He spoke for an hour and a half and held the closest attention of the audience. The lecture was well worthy a much larger audience than was present on this occasion.

Cliff Terrell arrived home from Los Angeles, California last Friday, whither he went about a year ago in company with Wilbur Round. The boys have spent most of their time at that city and Pasadena during the year selling aluminum goods and very good success is reported. Cliff says the much desired tourist from beyond the Rockies did not show up this winter to any great extent and consequently the harvest has been depressingly short on this account. Cliff carries his age well and looks like he was good for several years more of campaigning.

Frank M. Hadley of Moorsville, Indiana, in company with his sister, Mrs. T. S. Townsend of Portland have been visiting with old acquaintances in and about Newberg during the week. Mr. Hadley, who is in the grocery business, is taking his first look at the great West Coast country. In a few days he will leave for Southern California in company with Mr. and Mrs. Townsend, where he will visit his grandmother, Mrs. Lindley, who is past ninety years of age. The writer had the pleasure of firing questions at Mr. Hadley for half a day, and learning of the latter day doings of many people well known in days long gone by.

For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is especially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale by A. T. Hill.

Those who reside on Chehalem mountain often twit the valley people about living in the fog, and it is quite often the case that when it is foggy here in the valley the sun is shining brightly on the mountain, but occasionally the conditions are changed. A few days ago Wm. Hendershott made a trip on the mountain and when he left home there was no fog visible, but when he reached the top of the mountain the fog was almost thick enough to carve with a knife.

A gentleman who has not been a resident of Oregon very long, in speaking of graveling roads, suggests that rock should be put down first and gravel on top of the rock. This expense is all unnecessary for our ordinary roads. With a moderate grade and good ditches so that the water can get away as it falls, there are few roads in the Willamette Valley that can't be put in first class condition for travel at all times of the year by a liberal coating of gravel, without the use of rock. Gravel has been thoroughly tested and it does the work, so there is no use in talking about anything else where gravel can be had. Gravel the roads.

Judging from the number of letters of inquiry W. K. Allen is receiving from fruit growers all over the country relative to his patent fruit evaporator, it is evident that growers realize that if the fruit crop is taken care of, a very large number of evaporators must be built the coming season. Horticultural commissioner Daley estimates that no less than a hundred evaporators will be built in his district alone. If all the districts do as well, there will probably be from three hundred to four hundred evaporators put up in Oregon alone the coming season. With a reasonably fair crop Oregon is likely to be "full of prunes" sure enough next fall.

Wm. Townsend has consummated the trade of his large farm west of town for property in and about the city of Portland, and has been hauling his effects to the river during the week for shipment. While the farm Mr. Townsend is leaving is large and fine in appearance, it is a rather remarkable fact that in the knowledge of the writer which extends back sixteen years, those who have been on the place have not prospered very materially. Mr. Sink made more money than any who have followed him, but the big indebtedness he incurred when he bought the place was too a great load for any farmer to undertake to carry and he was compelled to give it up. It is a German who gets the farm now and if after a fair trial he dont come out on top no one else need make a trial of it.

Al Clark has traded his town property on Meridian street to E. H. Disbrow for the Ed Fendal place of forty-three acres, laying just north of the Sam Woodward farm. It is understood that Al will move to the farm and become a horny fisted granger. The new real estate firm of Stater & Butt consummated the trade.

Some prowler of the night on mischief bent, appeared at the door of A. M. Mauritzen's residence at two o'clock Tuesday morning but he disappeared instanter when Mr. Mauritzen appeared on the scene with a six shooter in hand. Out at Stella Falls last summer Mrs. Mauritzen put the contents of a shotgun through an intruders hat, so it may be advisable for house breakers to keep clear of the Mauritzen residence.

The stockholders of the Newberg Fair Association held a meeting on last Saturday and elected for directors J.L. Hoskins, L. M. Parker, N. C. Christenson, Seth Mills, and E. H. Woodward. At a meeting of the board of directors held immediately afterward, officers were elected as follows: J. L. Hoskins, president; N. C. Christenson vice president; Clarence Butt, secretary; E. H. Woodward, treasurer. The question of holding a fair the coming season was pretty thoroughly discussed and while the stockholders are all anxious that a fair shall be held, the matter was left open for consideration later on. If people in the community show their interest by their works, the stockholders are willing to make further sacrifices in order to keep the fair going, but it will take something more than sympathy expressed in words. Some have said that they would rather take stock in the fair than see it go to the wall but that is as far as they get. One of these days it will be too late and then anybody can see the mistake made in not giving the fair proper support. Of course Newberg ought to have a fair. Everybody says so. What are the people going to do about it?

Attempt To Break Jail.

Drayton, the dark complected one of the two fellows who were sent to the county jail from Newberg a short time ago, on a charge of breaking into numerous buildings here and at Dundee, made an attempt to gain his liberty a few days ago and was almost successful.

In some way he secured a piece of iron and with this and a stick of wood he was making good headway on the brick wall when discovered. He had already removed several brick, and the sheriff thinks with a half hour's more time he would have been at large.

Drayton has all the indications of being a desperate character and he says he will do all in his power to escape, as he anticipates a sentence of at least five years. He is now quartered in a cell all to himself and there is little probability of escape. His pal who was arrested with him, says that Drayton indicated to him that he killed a man in Montana at one time while attempting to rob a store.

Jury List.

The following list of Jurors were appointed by the county commissioners at the January term to serve in Justice J. K. Wright's court the ensuing year.

In Trouble.

Charley Parrott, of Reedville, Washington county who was in town the first of the week and whose wife is a sister to the Atkinson boys north of town, is in trouble. Mr. Green whose wife is also a sister to Mrs. Parrott was over at Hillsboro last week and from him the statement was obtained. Mr. Parrott, with his wife and children, lives in a house which is owned by an old fellow who lives alone in a house a mile and a half away. The old man has been spending a good deal of time at Parrotts, and Mrs. Parrott occasionally goes over and assists in righting things about his home. A short time ago the old man stayed over night at Parrotts and next morning he charged Mrs. Parrott with going over to the other house during the night and stealing $400 which he claims to have left in the house. Parrott and his wife were arrested and placed in jail to await the meeting of the grand jury. Mr. Green went over last week, and learning that the people in the community did not believe that the old fellow ever had any money stolen, and and that the Parrotts were innocent of the charge, he secured the release of Mr. Parrott by putting up bonds for $200. and did what he could to secure the release of Mrs. Parrott whose bonds were placed at $400 but failed. She has been taken to Portland on account of the jail at Hillsboro being in no condition to receive women.

People in this community who knew Mrs. Parrott in her younger days will be very slow to believe that she is guilty of this crime.

Mr. and Mrs. Charles Hadley of Dayton was in town Wednesday visiting relatives.

It is so dry out in Western Kansas, says an exchange, that the moon raises a dust as it passes through the sky. The moisture has all evaporated out of the milky way until it looks like a long trail of pulverized chalk, and farmers throw pebbles on the stables to make the cows think it is rain falling so not to be discouraged.

"My dear," said the bull tenderly, "you have not been yourself lately. Your health has been growing precarious ever since the summer. Tell me, what is weighing on your mind?"

"It is nothing much, Hector," sobbed the cow, "only—since I saw those summer girls up at the house chewing tutti-frutti, I can never hold up my head again!"
