Among the bills recommended for has been one making it unlawful to play football in the state. The bill went to the committee on rights, which

purchase the Quijatoa well and machinery, in Pima county, and the commissioner of Indian affairs is authorized to appoint a farmer to assist and to pump water for their use.

The steamer City of Topeka arrived at Port Townsend, from Alaska, upon McKinney, of Douglass county weather at Juneau and Sitka is at present quite as mild as that of Puget sound.

Great preparations are being made for the spring rush of miners to Alaska, which it is expected will be greater this year than ever before. Few prospectors are planning to go to Cook's inlet this season, the excitement in that section having about died out.

Port Townsend has had another landslide. Tons of dirt fell from the hill on the west side of Taylor street, at the second flight of terrace steps, carrying with it the high cribbing and completely obstructing the passage on that side of the street.

James McCoy, one of the founders of the town of Oakesdale, Wash., died at his home in that town at the age of 66 years. Mr. McCoy came to Oregon in 1853, and resided in Benton county till 1887. He then removed to Whit-M. man county, Wash., where he has since resided.

A Madrid dispatch says snow and rain storms threaten serious floods in Spain. Harrowing distress prevails in Andalusia. At Jaon, the people are plundering the bread shops, and thousands are begging in the streets. Similar scenes, accompanied by fights with the police, have occurred in many other towns. The authorities are powerless to cope with the destitution.

Joseph Meehan, 16 years old, of San Francisco, met his death in a strange and shocking manner. He was attempting to close a window in a room occupied by himself and parents on the third floor of a lodging house, when he slipped and plunged headlong through the opening to the street below. He struck on his head and his neck was

A London dispatch from Odessa, describing the military preparations going forward there, says that the activity has only been equaled during the period which immediately preceded the two last great wars. The Turkish government is unable to make its usual annual purchase of horses in Russia, all of the stud farms being closed by the Russian government.

Congressman Sturtevant, of Penn-President-elect McKinley, quotes him as saying: "I will call a special session of congress on March 15, and unless I change my mind you may be in Washington by that time. I desire to have my protective system inaugurated immediately upon my inauguration, and I want a measure passed that will immediately stimulate business and give idle men work." Congressman Sturtevant said further that no Pennsylvania man would be in the cabinet.

The quick response of the citizens of Chicago to Mayor Swift's appeal for assistance has resulted in the relief of suffering in Chicago with rapidity and to an extent far beyond expectations. Through the systematic canvas of the police and the prompt attention to the cases reported by the officers, it is safe to say that but few persons suffer from cold or hunger. Within forty-eight hours not less than 1,200 families were supplied through the police with food and fuel. Many cases were found of

actual starvation.

### ENOUGH VOTES TO PASS.

The Tariff Bill's Chances in the Senate

Washington, Feb. 2 .- It is now absolutely certain that a majority can now be counted on in the senate to pass a tariff bill. It is not certain just where the votes are coming from, but TERSE TICKS FROM THE WIRES the Republicans say that votes will be secured. It is certain that some of the Democrats may vote for a tariff bill, or, at least, refrain from voting when the bill comes up. There seems also a probability that the silver faction will either vote for the bill or allow it to

Serious Accident to the Brooklyn in the Delaware River.

Philadelphia, Feb. 2.-The United States steamship Brooklyn, the latest pride of a peerless navy, calculated to withstand the fiercest onslaughts of shot and shell, today lies almost entirely helpless because of a narrow ledge of sunken rock in the Delaware river, above Marcus hook, Pa., on which she struck heavily vesterday afternoon. Her lower double compartments forward were stove in, and it was only by the merest good fortune that the big vessel did not sink. This would undoubtedly have been the result had not her inner compartments fully withstood the shock. As it was, she was pulled clear of the rocks and is now tied to the big stone icebreakers at Marcus hook, protected from the heavy

ice gorges in midriver. The vessel is seriously damaged, and it is impossible to say when she will be able to go into service. At present, she is in no danger, of further damage, being protected in the safe anchorage afforded by the icebreakers. How the accident occurred can only be established by a court of inquiry, and this, Captain Cook, of the Brooklyn, has

already asked for. The exact place where the vessel struck was on Schooner ledge rock. between Chester and Marcus hook, and the time about 1:45 o'clock.

What makes the accident even more deplorable is the fact that it was the first time the ship had been handled by the present officers and crew since going into commission in December. Since then she had been lying at League island navy yard, and certain small repairs had delayed her sailing.

Burned to a Crisp. New York, Feb. 2.-John Connors, 50 years old, met a shocking death on Ynclan. the steamship Eastern Prince, lying at the East Central Pier at Atlantic dock, Brooklyn. Connors was sent with others to make repairs to the interior of one of the boilers. Before beginning operations the men lowered into the boiler a charcoal furnace with sylvania, who has recently called on which the iron work was to be heated. Connors climbed through the manhole, and when at 12 o'clock one of the workmen called to Connors and recieved no answer a workman was lowered into the boiler and Connors was found dead. The upper part of the man's body was burned to a crisp. He had evidently been overcome by the fumes and had fallen on the furnace.

FIVE PEOPLE WERE KILLED

Deadly Work in Pipar del Rio and Santa Clara-Rivera Crosses Into Havana Province.

Havana, Feb. 2 .- Despite rumors lately circulated to the effect that the insurgents were completely demoralzed, and that the Cutans had broken into scattered bands of fifty or so in the province of Pinar del Rio, news has been received that the insurgents have blown a passenger Fair up, causing much damage and considerable loss of life. Although the censor prohibited the publication of the news in Havana, it soon leaked out, creating a sensation, and the liveliest discussion in places where groups gathered. At 6 military train, with engine No. 17, carrying Captain Dupla and a force of engineers, left Artemisa, and while passing a culvert, at a place called Ocemura, between Candelaria and Mangas stations, a dynamite bomb exploded, destroying the engine and the armored tender, as well as the culvert, also wrecking several cars. Engineer Genaro Roderiguez, an American; Ciraco Carreras, the fireman, and three soldiers were killed. Military Dr. Ganzales, Aedo, the conductor, the brakeman and twelve private soldiers were wounded. Captain Dupla and the sergeant escaped injury. The bodies of the engineer and fireman were sent to Havana for burial. A repair train has been sent from Candelaria to repair injuries to the line. All the wounded were sent to Candelaria. Being late at night. the horizon seemed one continuous line of fire. Nothing was published about the matter the next day, but investigation disclosed the fact that Aranguere had made another daring raid in the vicinity of Havana, burning and looting the town of Barrera, near

Guanabacoa.

Another Train Dynamited. Cincinnati, Feb. 2.—The Commercial Tribune's special from Key West says: On Friday one of Weyler's supply trains was dynamited on the railad near Cieze, north of Cienfuegos. Two bombs were exploded under the fired by electricity as the train was crossing a trestle. The engine was a tour of the West. In the course of blown apart, and all the cars were his address he said: splintered. They rolled over the trestle into the ditch, the fall completing what the dynamite had left undone. Out of the guard of 100 soldiers on it, forty-five were instantly killed or terribly injured. The others bodily surrendered, as a force of 200 Cubans appeared. The train was looted, the nsurgents securing a small fieldpiece that General Weyler had just ordered from Havana. After securing all the provisions and ammunition, the cars were burned. The prisoners were re-leased, and the Cuban captain sent Weyler a box of sweetbread with a polite note. The captain of this Cuban band was an American named Burke, from Indiana.

The famished condition of the people in Pinar del Rio, Artemisa and San Cristobal is well known. Hundreds of people have flocked to these cities in obedience to the cruel orders of Colonels Hernandez, San Martin and

### CORN AND CHEMICALS.

Said to Have Supplanted Barley and Malt in Beer-Making. St. Louis, Feb. 2 .- A dispatch from Milwaukee says: The tremendous drop in the barley malt product has stirred up the maltsters, and they evince a disposition to make some interesting disclosures. They freely declare that in many breweries a barrel of beer is being made with the use of but a half bushel of barley malt, while the German standard for pure beer is three bushels. The claim is as freely made that corn and chemicals have practically supplanted barley in the production of the beverage of the world.

When the attention of Mr. Aug. A. Busch, vice-president of the Anheuser-Busch Brewing Association, was called to the above article, he expressed no surprise in seeing the dispatch from Milwaukee, calling attention to the tremendous drop in the barley malt product, but wondered why more had not been said in public print with refit is claimed he is in charge of insur- said: "We do not now, nor have we gent forces in this province. "The province of the theater as an institution is to do good, but greed on one side and vicious tastes on the other have somewhat corrupted the theater. The theater is a factor of society just as much as is the church, and, in spite of all the stigma that is attached to it, and all the vice and pernicious power it is charged with, it is still an educaor, and its influence is for good, and not for evil. The church and the theater should work together. I claim they have stood too long apart; that for the good of the race they should join hands at once and aid each other to free mankind."

Henry Heitfeld is a man of limited consolidating, under the laws of the education. He was born in St. Louis state, and making them all one grand in January, 1859. His father, Henry corporation. The older breweries were Heitfeld, was a German by birth. The future senator of Idaho attended the common schools of St. Louis until 1870, when, with his mother, he moved to Seneca, Kan. He lived there until Clock on the morning of January 29 a local brokers several months. One of anilitary train, with engine No. 17, these brokers was in London during learning the trade of stone mason. In 1882 Mr. Heifteld moved to the Northwest, locating at Pomeroy, Wash. For a time he worked in the shops of the Northern Pacific at Sprague, Wash., remaining there until the fall of 1883, when he became a resident of Nez Perce county, Idaho. Since that time he has been engaged as a farmer, fruitgrower and cattleman. In politics Mr. Heitfeld was a Democrat until he joined the Populist party. He is a member of the Farmers' Alliance, and it was through his connection with that organization that he was influenced to ally himself with the Populist party. He was elected to the state senate as a Populist in 1894 and again in 1896.

### DOORS WERE CLOSED.

The Open Session o the Senate Was

Very Brief. Washington, Jan. 30.-The open session of the senate was comparatively brief today, as more than half the day was spent behind closed doors. During the open session, the bill for an international monetary conference was debated, Chandler speaking in favor of it, and Stewart against. Chandler's speech was carefully prepared, and was in the nature of a statement of the attitude of the Republican side of the chamber on the bill. Stewart, although criticising erence to the matter. Continuing he the commission as futile, stated that he would not oppose the measure. It is expected a vote will be reached Monday although Pettigrew anounced a all the Democrats and all of the silver

The resolution went over for a speech by Thurston Monday.

Washington, Jan. 30.-The house passed the Indan appropriation bill today, and steered upon consideration of the agricultural appropriation bill, but all interest in these measures was overshadowed by two very remarkable speeches-one by Grosvenor, attacking ex-Governor Altgeld, of Illinois, and the other by DeArmond, heaping ridicule upon Secretary Morton, for the recent issue of a pamphlet, entitled, "The Farmers' Interest in Finance."

Run Down by a Train.

South Norwalk, Conn., Jan. 30 .-Five men were killed this afternoon by a freight train near East Norwalk staion. It is supposed that while walking upon the track they stepped from in front of the express train directly in front of the freight. All were instantly killed except Shea, who survived five min-The men were engaged under the direction of Foreman Powers in work upon the road bed, and stepped from one track to avoid the approaching express, to another upon which the freight was bearing down.

Washington, Feb. 1 .- One of the greatest obstacles to the ratification by the senate of the general arbitration treaty has been removed in the arrangement by negotiation of a plan of settlement of the Alaska boundary question. In a day or two a treaty on the subject will be laid before the senate for action. It provides for the appointment of a commission to visit the country and fix definitely the 141st meridian, which, under the treaty of cession of Alaska to the United States, forms the boundary between that territory and British Northwest territory.

March of the Unemployed. St. Louis, Feb. 1.-It is expected that Coxey's call for a parade of the unemployed on Washington's birthday will be answered by the 20,000 idle men in St. Louis and the Federation of Labor claims 15,000 in the unions affiliated with it. Out of the total of 20 .-000 men belonging to the unions, it is estimated that 2,000 are unemployed. Besides these, it is estimated, there are over 15,000 unemployed clerks and unskilled laborers, not connected with any organization.

He Received Sixty-Eight of Eighty. Seven Fusionists' Votes-Nineteen

Refused to Vote for Him Olympia, Wash., Feb. 1.-Judge George Turner, of Spokane, was at noon Friday elected by the legislature succeed Watson C. Squire in the United States senate. He was chosen on the twenty-fifth joint ballot of the session, and on the first ballot of the day, as a direct result of the caucus of fusionists which made him its nominee last night, and one of the most interesting and stubbornly contested of the senatorial battles of this state is

brought to an end. The election was of an exceedingly formal nature, although those who refused to abide by the caucus nomination continued their opposition to the last moment, in the hope of causing delay and of the possibility of the defeat

of the choice of the majority. Turner recived 68 of the 87 votes of fusionists, or 11 more than a majority of the entire legislature. Nineteen fusionists refused to vote for him, all of whom were Populists, except Williams, silver Republican. Fourteen

Conton, O., Feb. 1 .- "I have been tendered and have accepted the war portfolio." Thus spoke General Russell A. Alger, of Michigan, to a press reporter today. The general had just emerged from the south parlor, which is the conference room while Mrs. Mc-Kinley is out of the city. He and Major McKinley had just completed the interview in which the formal tender and acceptance were passed. Without saying anything more the general reentered the parlor, where he remained until traintime. At 4:15 he returned to Cleveland to renew his conference with the national chairman, and will go thence to his home in Detroit.

Ivory Sails for Home

Queenstown, Feb. 1.—Edward J. Ivory, of New York, who was acquitted in London of the charge of conspiracy to cause dynamite explosions; John F. McIntyre, Ivory's counsel, and the three American witnesses in the case, Patrick Wynne, Patrick Rourke, and Thomas Smythe, sailed for New York today on the Majestic.
