William Sims writes to his family from Northern Indiana that he has been making himself as comfortable as the weather will permit with the mercury at twenty-five degrees below zero. He finds the people much interested in hearing about Oregon and the great Northwest.

Joel P. Geer had ill luck with a scow of wood at Rock Island the first of the week in which he sustained some loss as well as end of annoyance. The scow was partially sunk and a number of cords of wood lost. The passengers on the steamer Eugene were transferred to the steamer Ramona.

The preliminary oratorical contest, held for the purpose of determining who shall represent the college in the state contest ought to be attended by a large audience. The expense of the state contest must be met by the students of Pacific College and they must be assisted by the people. Remember the contest comes off this evening.

Ralph Rittenhouse who became weary of the hum drum inactive soldier life at Vancouver barracks and departed for other fields, is supposed by his friends and relatives in Newberg to have gone to Cuba to get a touch of the real. The last seen of him he was in company with some Spaniards in Portland.

The little daughter of Mr. Fred Weber, Holland, Mass., had a very bad cold and cough which he had not been able to cure with any thing. I gave him a 25 cent bottle of Chamberlain's Cough Remedy, says W. P. Holden, merchant and post master at West Brimfield, and at the next time I saw him he said it worked like a charm. This remedy is intended especially for acute throat and lung diseases such as colds, croup and whooping cough, and it is famous for its cures. There is no danger in giving it to children for it contains nothing injurious. For sale by A. T. Hill, druggist.

Orville Smith has gone to live with an old gentleman up in Polk county, near Perrydale, who has a large farm. Orville is a good boy and deserves a good home. This is said to be a very desirable place for him.

The old lady was right when she said, the child might die if they waited for the doctor. She saved the little one's life with a few doses of One Minute Cough Cure. She had used it for croup before. A. T. Hill.

J. A. Jones has been delivering some fine clover hay in town this week which makes a town cow smile to look at, but the roads are so heavy that it requires four horses to pull a good load into town from his mountain home.

Smith the photographer finds that it always pays to satisfy his customers by doing first class work at prices to suit the times. Photos 3x4 inches for 35 cents per dozen. All other work as cheap as any gallery in town.

Harrison Crater, from above Dayton, was in town last Monday greeting his friends with his accustomed smile. Harrison walks with a very firm tread for a man who carries so white a head of hair as his.

Absolutely pure, perfectly harmless, and invariably reliable are the qualities of One Minute Cough Cure. It never fails in colds, croup and lung troubles. Children like it because it is pleasant to take and it helps them. A. T. Hill.

The big trade Wm. Townsend was making with some Multnomah county Germans, in which he was disposing of his large farm out west of Newberg and getting considerable Multnomah property, has fallen through with, as the Germans failed to come to the scratch as they had agreed to do.

The Women's Foreign Missionary Society of Friends church will meet at the home of Mrs. Townsend Saturday at 3 o'clock. Superintendents will please be prepared with quarterly reports. Members of the executive will please meet promptly at half past 2 o'clock.

Many farmers failed to get their wheat sowed last fall, owing to the fact that the rains held off very late, and when it did soak the ground up so that plowing could be done it kept too wet for sowing, and as the amount of spring wheat suitable for seed is quite limited throughout the Willamette valley, it is necessary to ship in considerable for seed. An early spring is hoped for so that seeding can be done early.

If something could be done to induce the transportation companies to call places by their right names it would be more agreeable to Newberg. It sounds rather ancient to hear Newberg, a town of twelve hundred inhabitants, spoken of as "Rogers Landing." Somebody ought to tell the companies at Portland that Rogers has been dead a good many years and that there is something here beside a "landing" now.

Commercial travelers and physicians, who are compelled to go more or less through sunshine and shade, complain of very bad roads, the county over. A physician don't specially enjoy a call from a distance of ten or fifteen miles away under the present conditions.

Dr. McConnell made a trip over Parrott mountain and down near Wilsonville on Wednesday which he is not likely to forget very soon. Such is the life of a physician.

The Pressed Brick company will begin work at once on the switch running from the railroad down to the factory. This will be a great convenience to the company, as clay is to be shipped from above Willamina where they have recently bought a tract of land on which is found a clay which makes a white brick of the very best quality. This clay mixed with the red clay here makes a beautiful chocolate colored brick which is very much in demand at present.

At the council meeting on Monday night Dr. H. J. Littlefield took his seat as mayor, after delivering an inaugural address that was highly spoken of by those who heard it. The resignation of A. For sale at 50 cents per bottle by A. T. Hill, druggist.

Public reading room will be open Monday, Thursday and Friday from 4 to 8:30 p. m., Saturday from 2 to 8:30 p. m., Sunday from 2 to 4 p. m.

Mrs. Mariana Rees and children went down to Portland the first of the week to visit her sister, Mrs. Butler, at the Good Samaritan hospital.

The free reading room has been opened according to announcement. The notice of dates on which it will be accessible to the public will be found in this issue.

Hon. H. S. Stone, one of the county commissioners of Multnomah county who was in town on business last Monday called in at this office for a pleasant chat in the evening.

Mrs. Hoffman has been for years the president of the Missouri state W.C.T.U. and is now National recording secretary. She is thought by some to be equal to Miss Willard as a platform speaker.

At the time of going to press Mrs. Abigail Stanbrough was hardly expected to live twenty-four hours. Other members of the family are also down with the grip.

John Kirkley, of Portland, who was up last Tuesday looking after the renting of his farm out east of town came in and renewed his subscription for another year. Mr. Kirkley has been a regular subscriber since 1890.

George Christensen, who has been delivering goods for Morris & Miles during the past year has sold out to Bert Weesner. George has not fully decided what he will do but he is too active to remain idle very long.

Andrew Pickett don't fill up his coat as well as he did before he went to California but he says his health has been pretty good. He has moved to his farm north of town with his family and will look after it this season.

As strange as it may appear in this day and age of the world a man walked into this office the other day and tendered the proprietor the loan of three or four hundred dollars. It was not accepted either. This of course is the strangest part of the whole thing, unless it be the unheard of proposal of a loan to a newspaper man. But then of course if the thoughts of pay day could have been eliminated the gentleman would have been relieved of his embarrassment instantly. He ought to be careful how he puts temptation before his neighbor.

J. F. Seely of Wilsonville passed through town on Wednesday, on his way to Sheridan to look at a horse. Mr. Seely has been on the lookout for a first class, large farm horse and he says he finds it no easy task to locate such an animal. Plugs are cheap and the country is full of them, but real first class horses are hard to find. The experience of Mr. Seely serves to emphasize what the Graphic has stated at different times relative to the future of the horse market. Farmers have lost interest on account of the low prices and no good colts are being raised, consequently it is only a question of a year or two until big heavy prices will be offered for good heavy horses. The man who has a good colt will do well to take good care of it.

Goodhue of the Oregon Poultry Journal in speaking of the exhibits at the state show recently held in Portland, drops the following crumbs for the Newberg exhibitors: Our Yamhill county fanciers had something to say this time at the show that spoke in the highest praise of their birds. Their winnings were huge, and it is reported that J. L. Hoskins has not had a good night's sleep since the show, all from rejoicing over the victory on his Minorcas. W. S. Kirk can beat the world on fine colored Bronze, and A. T. Ware has an eagle eye out for Down's another season on Light Brahmas. We can see the fire fly almost now. Luther Newlin is proud of his Buffs, also the Supt. is proud of Luther Newlin; he was the Superintendent's assistant and performed his duty faithfully and well. C. E. Newhouse has some White Rocks that he has occasion to feel proud of. Another year will make Mr. Newhouse a dangerous competitor in the best of company. C. F. Moore will show some of the boys Wyandottes this fall that will open their eyes.

A Gentle Hint.

The Inter-Collegiate Oratorical Contest will be held in Newberg Feb. 26, and in consequence of this event the Graphic wants to urge the citizens of the town to make an extra effort to put everything in shape as far as possible, to make a favorable impression on the minds of those who will visit us on that occasion. Delegations will be here from Portland, Salem, Albany, Eugene, Corvallis, Monmouth, McMinnville and Forest Grove, and these active young students will carry away with them an impression of the town, either favorable or otherwise. Some of these will come by the river steamers and there ought to be a walk put in from the top of the hill to the dock if possible. This is an improvement that has long been needed anyway. A 2 x 12 plank put down end to end, in a solid way, with cleats nailed on for a foot hold would answer the purpose quite well, as it would keep people out of the mud, and this would not be very expensive. The river men no doubt would contribute toward such an improvement if they were asked to do so.

It is not a very favorable time for street cleaning but a good deal can be done even in this way to make the town look more presentable. If every one in town will make of himself a committee of one to do his part it will help matters quite a good deal.

The reputation of Newberg is worth looking after.

A teacher was taking a class in the infant Sunday school room and was making her scholars finish each sentence to show that they understood her. "The idol had eyes," the teacher said but it couldn't "see" cried the children.

"It had ears but he couldn't—" "Hear," was the answer.

"It had lips," she said, but it couldn't "speak," once more replied the children.

"It had a nose, but it couldn't—" "Wipe it," shouted the children. And the lesson had to stop a moment.—Tit-Bits.

Free Reading Room.

The ladies of the W. C. T. U. are about to open a free reading room in the Chehalam Valley Bank building and will gladly receive donations of books, papers, chairs, rugs, lamps or money—anything in fact that will add to the comfort or appearance of a reading room will be most gratefully received.

The rooms would have been open to the public ere this but for the prevalence of the "grip" in the community.

Mr. Footnet—"Won't you have some ice cream, Miss Swallowell?" Miss Swallowell—"Well, just a mouthful."

Mr. Footnet—"Waiter, bring this young lady two portions of strawberry."

"I see," said the lady who wishes to wear bloomers. "That another woman has been burned to death by her skirts catching on fire."

"Which simply goes to show," said the husband of the lady who wishes to wear bloomers, "how mysterious are the ways of Providence."

Avoid Consumption.

By stopping that cough. We know of no better remedy for coughs and colds than the S. B. Cough Cure. 50 cents per bottle. For sale by all druggists.

A. T. Hill.

Robert—"But why are you certain you will live happily with Miss Brown? You have not been much in her company, notwithstanding your engagement to her. Richard—"No; I've been studying the temperament and the peculiarities of her mother."

"I am confident," said the cheerful idiot, that the breakfast must have been out late last night."

"Why? kindly asked the shoe clerk boarder."

"The milk is looking blue; the beef-steak feels tough; the coffee is weak; the jelly is shaky; the hash is all out up; and about the only thing on the bill of fair that seems to have any sand is the stewed prunes, and even they are rather seedy."

Here Mrs. Hashcroft entered the discussion, which became so warm that the butter assumed a run down appearance.

Eggers, 120 Florida St., San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured.
