Numerous correspondents are trying to convince the readers of the Oregonian that our own state has gold mines rich enough to keep our people from fleeing to outside mining camps, if proper effort was made to develop them. Dock Mills of Danlee was in town last Monday and gave an account of his recent loss by fire. He had paid out \$100 in cash and spent a great deal of time and labor in putting up a brooder house for chickens, some 14x30 feet, and had every thing arranged in tip top shape for hatching and raising poultry for the early markets. He was not exactly counting chickens before they were hatched, but he was figuring on selling several dozen at an early day that were almost ready for the market, but his plans are knocked out now since the fire. He was awakened one night last week by unusual sounds and on looking out found his poultry house in flames. Along with brooders and chick-ens, Mrs. Mills' gold watch which had been left hanging in the building went also. Dock has not lost his grip but has already ordered two outside brooders and will spit on his hands and try it again.

The un-fortunate woman was carried in and medical aid summoned and everything done that was possible to do to bring her back to life. It was first thought that she could not possibly recover but she seems to be improving under careful treatment.

Mrs. Rees left home on the previous evening and her husband thought that she was at G. W. Mitchell's, but it seems that she left there with the intention of returning home, and when she got within a short distance of the house she dropped down in a sinking spell and there she lay all night on the cold ground entirely unconscious. It was a cold chilly night and her hands and face were frost bitten quite severely. It is really a wonder that she was alive when found.

Charles F. Smith Deceased

It was a shock to the citizens of New-berg when the news of the death of Charles F. Smith was brought to town on last Monday evening, as his sickness was not known here.

It seems that he took a severe cold a few days previous to the date of his death which settled on his lungs and finally resulted in lung fever. The fam-ily was not aware that he was in a crit-ical condition until a short time before his death and the blow to the relatives was sudden and severe.

The funeral was conducted at Friends church on Wednesday afternoon by the pastor. The attendance was large al-though the weather was stormy.

The deceased was well known in the community and he was held in high esteem by those who knew him. It is safe to say that if he ever did an injury to a neighbor while living in this com-munity it was not an intentional act on his part. He was an earnest christian, an active member of Friends church, and he died with a bright hope for the future.

From Cripple Creek.

After the big fire in Cripple Cree I took a severe cold and tried many remedies without help. The cold only becoming more settled. After using three small bottles of Chamberlain's Cough Remedy, both the cough and cold left me, and in this high altitude it takes a meritorious cough remedy to do any good.—G. B. Henderson, editor Daily Advertiser. For sale by A. T. Hill, druggist.

Poultry Meeting.

The Chehalis Valley Poultry Asso-ciation held a very enthusiastic meeting last Saturday afternoon, quite a num-ber of the members being present. For president J. L. Hoskins, for vice president C. E. Newhouse, for sec., W. S. Kirk, for treasurer Earnest Heater.

The old officers retired with the de-termination of assisting the new ones in building up the poultry interest in New-berg and vicinity, and to hold a rousing big show next season. The show held recently was a success with all expenses paid and a small nucleus left in the treasury for a starter at the coming show. The officers and members unanimously thanked the business men and citizens for so generously responding in the way of donating premiums when called upon by the committee.

A Lie Told.

Consumption and bronchitis are not by any means the same, although it is hard to distinguish one from the other. Bronchitis is an inflammation of the lining of the wind tubes or air vessels of the lungs, causing soreness of the same, cough, sore throat, hoarseness, difficulty of breathing, spitting of mat-ter and sometimes blood. Thousands die annually with this dread disease. Wilbur's Cough Cure will cure. Price 50 cents. For sale by all Druggists.

"I am confident," said the cheerful idiot, that the breakfast must have been out late last night.

"Why?" kindly asked the shoe clerk boarder.

"The milk is looking blue; the beef-stew feels tough; the coffee is weak; the jelly is shaky; the hash is all cut up; and about the only thing on the bill of fare that seems to have any sand is the stewed prunes, and even they are rather seedy."

Here Mrs. Hashcroft entered the dis-cussion, which became so warm that the butter assumed a run-down appear-ance.—Indianapolis Journal.
