One of our citizens, in speaking rather disparagingly of Newberg a few days ago as a show town, remarked that the people here never go to anything except to church. The efforts of J. C. Kirk and others who have been laboring with the county court for the past year, trying to get an allowance of lumber for a bridge across the stream near Mr. Kirk's place out southeast of town, are about to be rewarded. A bridge has been needed at this place for a long time and the community which is most interested is to be congratulated.

This is a good time to work the roads where holes are to be filled up and grading done but the farmers must be allowed to look after their farming interests while the ground is in order. Jesse Edwards is on the limp this week as a result of a sudden and unexpected landing from the hurricane deck of an obstreperous mule, as the said mule came suddenly to the end of a log chain that was fastened to a car, the rider continuing to pass on through space until the attraction of gravitation caused him to come down with a dull thud on the soft side of a pile of brickbats. This was a head end wreck and the first to occur on the new railroad. It was caused by the mule going at a rate of speed beyond the limit laid down by the city fathers for railroading in the city, the animule propeller being at one end of an eighteen foot chain, while a standing car was at the other end. The wrecking crew cleared the track in short order and all trains are now running on time.
