We are in receipt of a circular by Wm. K. Allen, of Newberg, Oregon, setting forth the merits of his fruit evaporator. We confess our incompetency to pass a scientific opinion upon this invention but wish the inventor success. The man who succeeds in inventing a superior evaporator for drying fruits will find large sale for it as prune orchards are extensive and very fine in many parts of Oregon as well as adjoining states.—Recorder.
Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents, or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oakton, Ky., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for several years, and find it to be the best medicine I ever used for cramps in the stomach and bowels." Last week it was extremely hot for the season of the year and everybody was scared lest it should turn off dry suddenly and stop successful farm work, but on Sunday night it began to rain and then in a day or two people grew anxious about the welfare of the fruit crop, but all is lovely again since the clouds have rolled away. Last season's experience makes the fruit growers feel shaky when rains come with orchards loaded with bloom.
Mr. Petersons cow has a serious grievance against some of the college boys. Feed being rather scarce at home the cow had been creeping through the fence at odd spells helping herself to the nice grass on the college campus, and it was such a surprise to her the other morning on looking back, like the wife of Lot, and seeing a five gallon can attached to her fly brush that she sought other pastures with great haste, and much to the amusement of the lookers on.
Bert Hoover, who was formerly known in Newberg as a very quiet, unassuming lad, seems to be getting to the front as a mining expert if there is anything in rumors. One is that he is being sent to Mexico by the American agent of the Rothschilds in San Francisco, at a salary of \$10,000 a year, and the other is that instead of going to Mexico, the objective point is Sydney, Australia, and the salary is \$6,000. The question of salary no doubt needs to be taken with a degree of salt in either case.
Mrs. A. Inveen, residing at 730 Henry St., Alton Ill., suffered with sciatic rheumatism for eight months. E. H. Skinner is not known among his neighbors as one who is unusually green and tender, but one of his horses took a thumb nail off for him along with a mouthful of hay he was holding out for the horse, a few days ago. Mrs. Skinner suggests that the faithful family horse was mindful of that ancient saying that "all flesh is as grass" and was simply acting in that orthodox belief.
Two years ago R. J. Warren a druggist at Pleasant Brook, N. Y., bought a small bottle of Chamberlain's Cough Remedy. He sums up the result as follows: "At that time the goods were unknown in this section; today Chamberlain's Cough Remedy is a household word." It is the same to hundreds of communities. Where ever the good qualities of Chamberlain's Cough Remedy become known the people will have nothing else. For sale by A. T. Hill, druggist.

The inter collegiate athletic meeting will be held at Salem on June 5. First, second and third prizes will be given to winners in each of the fourteen events, consisting of gold, silver and bronze medals respectively.
Frank P. Baum, who was editor of the Graphic when it was a young and tender plant, came in the first of the week after an absence of seven years from Newberg. Since leaving here he has been engaged in the newspaper business at different points in Washington, up to a year ago. He has always liked Newberg and says he is back to stay. His family is at Seattle at present. Frank is a splendid fellow and an all round good citizen.
There are a good many people in the country who apparently are not aware of the fact that a person riding a bicycle has the same rights on the public roads under the law that the man has who drives a team. Out of common courtesy a man driving a team ought to divide the well beaten track with a bicycle rider, and on the other hand the rider should carefully avoid as far as possible, riding past in a way to scare teams. The public roads are wide enough for all to ride on without any unnecessary friction, if the golden rule is properly observed on all occasions.
