Mr. A. says I paid $12.50 for this worsted suit in Portland, we sell same for $8.50. Our money has same value with Eastern factories, as has Portland money, and sensible ones buy from Barrie & Barrie.

Charley Cavil, of Middleton, was in town last Monday and from the run of his talk it was quite evident that he had been exposed to the Clondyde fever. He will winter through in Oregon though and await the coming of spring.

"I crave but One Minute," said the public speaker in a husky voice; and then he took a dose of One Minute Cough Cure, and proceeded with his oratory. One Minute Cough Cure is unequalled for throat and lung troubles. A. T. Hill.

The quarterly meeting of Friends church held here last Saturday and Sunday was very well attended, considering that it came in a very busy time. Miss Green, of London, finished up a course of three weeks of very acceptable work in the limits of the quarterly meeting, with a very interesting sermon on Sunday night.

C. B. Frissell, our Southern Pacific station agent, turned his back on the tropical quarters at station Tuesday morning and joined the innumerable throng at Newport, where he will breath salt sea air for a couple of weeks. Later—He did nothing of the kind. No one came to take his place and he is compelled to stay with the work for the present.

Lewis Hanson, who has been janitor at Friends church for the past three or four years has given up the place as he is intending to go back to Minnesota in a short time. When it comes to janitor work Lewis is at home. He keeps everything neat and clean and his taste in decorations is excellent. Marion Cook has been given the place and he will no doubt fill it in a satisfactory manner.

Andy Winters reports his hop crop to be clear of lice and in fine condition. He engaged several tons of his crop some time ago at nine cents and he feels pretty sure the buyer will take them this time, provided the price keeps up to twelve of fifteen cents. In the eyes of the buyer, the price a product is selling for when delivered has a good deal to do with his opinion (?) of the condition of the article he has contracted to take at a certain figure.

It is always gratifying to receive testimonials for Chamberlain's Colic, Cholera and Diarrhœa Remedy, and when the endorsement is from a physician it is especially so. "There is no more satisfactory or effective remedy than Chamberlain's Colic, Cholera and Diarrhœa Remedy," writes Dr. R. E. Robey physician and pharmacist, of Olney, Mo.; and as he has used the Remedy in his own family and sold it in his drug store for six years, he should certainly know. For sale by A. T. Hill.

A correspondent to the Transcript tells the following fish story in which our friend J. W. Hobbs is connected. A genuine sensation was caused in camp this forenoon when C. E. Dansfield of Portland, M. E. Best of Gaston and J. W. Hobbs returned from fishing bringing a large devil fish with them, which Mr. Dansfield had caught. It measured across from tip to tip of the arms nearly seven feet, and I assure you that it is a sight worth looking at; and no one who has had a look at this fishes' majesty has the least desire to fall into the embrace of one of the ugly monsters. By actual count there were on two arms each 216 cups or suckers used to draw the blood from the victim that should fall into their embrace Multiply this by eight and you have the number of suckers this monster possessed, and could put into use the moment it fastened its fangs into a human body. The parties who captured this devil say it took two of them to get it out of the water. I must confess that after looking at this chap I have decided to go home in my dirt rather than to go in bathing.

Mitchell & Moore traded tile to one farmer last week for three cows. It is safe to say the sign is not right when a tile man refuses to trade his wares for a farmers live stock.

The finest line of Oxfords, regular beauties, in Black, Tan and Ox Blood is now being opened. See our window for a few samples. The new price catches every pair. Morris & Miles.

"They don't make much fuss about it." We are speaking of De Witt's Little Early Risers, the famous little pills for constipation, biliousness, and all stomach and liver troubles. They never gripe. A. T. Hill.

A representative of the Portland firm handling the Remington typewriter was in town last week with one of the machines, which he left with attorney Clarence Butt. The click of the typewriter is likely to be heard in two or three more places of business in town at no very distant day.

Mrs. A. S. Craven, of Middleton, received a dispatch last week announcing the death of her only brother, Rev. J. M. Cook, at his home near Moorsville, Indiana. The deceased was well known to many people about Newberg. He was a useful and highly respected minister in Friends church.

Lewis Jones, who has been laying brick at Eugene, is at home with his family this week. He has the contract for plastering the Jacobson building at McMinnville and will begin work on it as soon as it is ready. Lewis is a hustler for business and he usually has work at his trade when anybody does.

On calling at Seth Mills' place a few days ago a half dozen hands were found rushing things along to a finish as rapidly as possible on his fruit evaporator. The warm weather is hurrying fruit along and growers are keeping a lively step during the closing days in order to be prepared for the big crop. The prospect they now have of receiving good prices for dried fruit helps to add elasticity to the step.

Dave Lamb came over from Scotts Mills last Friday and reported a very serious fire which swept away a good deal of property at Scotts Mills the previous night. The fire was discovered about midnight and before it was checked it burned the Atkins store with all its contents, the Miles & White building and about half the stock and two or three smaller buildings. The Atkins stock was well insured but Miles & White carried no insurance.

M. M. Edwards, of North Yamhill, who was in town last Saturday said the team of white mules which he used to to drive about Newberg had been taken to Alaska, bound for the new gold fields. Mr. Edwards drove this team across the plains to Oregon the summer and fall of 1880, so the hardships they will encounter in the search for gold will not be altogether a new experience to them, and then in case their owners decide to butcher them and prepare the meat for "table use" it will be tough enough to keep in any climate.

A warehouse full of merry girls were busy at the station the first of the week for a couple of days packing a car of green fruit to be shipped east. The fruit was largely egg plums and was brought in by various growers. It is to be hoped that satisfactory returns will be received from the shipment but this seems to be quite doubtful as reports received say that fruit of red color or of a bluish tint brings good prices, while light colored fruit is not so ready sale. House keepers who like sour fruit ought to be fully satisfied with egg plums, provided they own stock in a sugar factory.

A. C. Churchill will have a large Allen dryer ready in a few days to take care of the immense crop of prunes he has on his hands this season, and it will be ready none to soon for fruit is ripening early and he estimates that he will have in his own big orchard and others he has in his care a quarter of a million pounds of green prunes. He has had a number of very flattering letters regarding the price of dried prunes, the latest being an offer of six and a quarter cents for sizes running from forties to fifties and corresponding prices for the smaller sizes. Mr. Churchill has spent a pile of money and a great deal of time in building up his fruit business and it looks now like he was going to reap such rewards this season for his labor and outlay of hard cash as he richly deserves. It is to be hoped that his expectations in this particular will be fully realized.

When a young fellow saunters through a hardware store, carefully eying cook-stoves and other kitchen furniture it is but reasonable to suppose that a pretty good local item is to be furnished at no distant day. Now don't come around to ask any delicate questions.

A Strange Freak.

Jim Everest, who lives just east of town went through an unpleasant experience and one which he will not soon forget, last Tuesday night. At about half past nine o'clock he jumped from his bed while asleep and plunged through the bedroom window head first, then ran directly through a picket fence, smashing the pickets, and on into the garden, calling for his wife to come and help him over the fence. He was taken into the house covered with blood which came from cuts sustained, and physicians called to attend to his injuries. A piece of glass was taken from his body which had penetrated to a depth of four inches in the region of one kidney and which made a painful and dangerous wound. He seems to be getting along fairly well but he is in a pretty bad condition. Just what made him take this strange freak is a mystery.

They have in the state an organization known as the "Mystic Brotherhood," with 200,000 members, some of whom are located in every town and hamlet, and their workings are as mysterious as those of some other organizations that might be mentioned.

A Remarkable Cure Of Chronic Diarrhœa.

In 1861, when I served my country as a private in Company A, 167 Pennsylvania Volunteers, I contracted chronic diarrhœa It has given me a great deal of troble ever since. I have tried a dozen different medicines and several prominent doctors without any permanent relief. Not long ago a friend sent me a sample bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy, and after that I bought and took a 50 cent bottle; and now I can say that I am entirely cured I cannot be thankful enough to you for this great Remedy, and recommend it to all suffering veterans. If in doubt write me. Yours gratefully Henry Steinberger, Allentown, Pa. Sold by A. T. Hill.
