G. W. Simpson, of Portland, has been in and about Newberg for the past week buying up dried apples, paying six cents per pound, clear. This is a very fair figure and those who own fruit dryers are now wishing they had run them on apples as long as they sold at a low figure. The Klondike excitement has already had a marked effect on the demand for our products and this of course raises the price. Should the gold fields prove to be as rich as reports seem to indicate, the benefits that will come to Oregon and Washington will amount to little short of a boom.

Towle, of Philadelphia, Tenn., has been using Chamberlain's Cough Remedy for her baby, who is subject to croup, and says of it: "I find it just as good as you claim it to be. Tom Jones, who works in the C. K. Spaulding logging camp over beyond North Yamhill in the Coast range mountains, met with an accident one day last week that came very near being fatal. While out on a dam that had been recently built the structure gave way and the volume of water carried him with the floating logs down the rocky bed of the stream with a mighty rush for a distance of half a mile before he could be rescued by the other hands. Beside being nearly drowned he was badly bruised up but the attending physician thinks he will pull through. Mrs. Jones went over on Friday to help take care of him.

 J. B. David has been out in Southern Oregon for several weeks looking after some mining interests he has in that region. Jackson and Josephine counties are rich in minerals and the average man probably stands a better show for making money there in mining than he will in going into the Klondike, and without being compelled to undergo any severe hardships. The future for Oregon's mining interests were never more favorable than at the present time.
 At a recent meeting of the executive committee having in charge the arrangement of the meeting of the Northwest Pacific Fruit Growers Association which will be held in the city of Portland, Jan. 11, 12, 13, J. H. Rees was appointed a special committee on exhibits for this district. No better selection could have been made. Mr. Rees is a practical fruit grower and one who takes a great pride in the vocation and consequently it will be no fault of his if there is not a good exhibit made of the fruits of Chehalum valley. He makes a call in another place in this issue of the Graphic and if a hearty response is made by those who have nice fruit a fine exhibit can easily be made at this meeting.

Notice to Members.

Oregon W. C. T. U. will then be fifteen years old, and it is expected that Miss Willard will be in attendance at her state convention in '98.
