The number of holiday presents that have been sent away from Newberg in the past few days would seem to indicate that people had some loose change to spare. However, it may be that most people who have been sending packages away have a hope that their friends will even things up by putting into practice the theory of reciprocity.

Horace M. Cox, formerly of Newberg writes from Oakesdale, Washington that "the largest crop that was ever harvested in this country is the blessing that has been showered on us." He says about one fourth of the grain is yet on the ranches on account of bad roads occasioned by rough weather. That country has about the same amount of moisture during the year as the Willamette valley though much of it is in the form of snow.

Sam, J. Lashier arrived home on Monday from San Jose, California where he had been at work in a job printing office for some time. Sam speaks well of San Jose, but he could not resist the temptation to come home in time to smile on the Newberg fair sex during the mistletoe season.
J. C. McCrea and O. C. Emery were in McMinnville last Saturday attending a conference of the democratic and populist parties preparatory to the spring campaign. The early bird seeking to devour the political bug appears to be very much in evidence in Yamhill at the present writing.
The annual supply of eastern florists' catalogues is beginning to arrive. The pictures all look very pretty but, sad to relate, plants ordered don't always come up to the pictures. Portland florists supply anyone with as fine roses and other shrubs as can be found in the East and there you can see what you are buying. It don't pay to send money out of Oregon when one can do even better by buying at home.
Landlord Hendershott was up at Salem two or three days last week holding a little political council on the side with the untitled of the capital city. Mr. Hendershott was chairman of the democratic central committee in Marion county two years ago and there is still such a tender chord in his breast that he is occasionally constrained to meet with the boys and give a little fatherly counsel in that Jeffersonian language of his, which is so easily understood that no foot notes of explanation are needed.
A Tennessee lady, Mrs. J. W. Towle, of Philadelphia, Tenn., has been using Chamberlain's Cough Remedy for her baby, who is subject to croup, and says of it: "I find it just as good as you claim it to be. Hundreds of mothers say the same. Sold by C. F. Moore & Co. druggists.
Any disease germs that may be lurking on the corners about town will soon meet a counteracting force that will knock them out in the first round. W. K. Allen and sons have a contract for furnishing a Portland firm with several thousand pounds of dried onions and potatoes for the Klondike trade and their evaporator on Meridian street will soon be set to work preparing to fill the order. The rose geranium smell that will fill the air when a roaring fire is set to work taking the moisture out of an evaporator full of onions will probably not reach the famishing miners on the Yukon to make them think of home and mother, but common every day smells may as well take a back seat for the present. There appears to be a good margin for Mr. Allen in the contract.

Mr. and Mrs. J. K. Blair arrived home from their trip to their old home at New Providence, Iowa on last Saturday. Mrs. Blair went to Indianapolis, Indiana where she attended the conference of Friends churches. They report a very pleasant and enjoyable trip.
Dave Lamb, who spent the summer and fall alone in the Cascade mountains, holding down the Red Rock Mining company's claim, came over from Scotts Mills a few days ago. Dave has had ample opportunity for reflection and he ought to be on pretty good terms with himself by this time.
Special meetings will begin at the Baptist church with the beginning of the new year. Mrs. M. A. Short a lady evangelist is expected to conduct the meetings. These meetings will be a union effort for the salvation of souls, and all believers of the town, regardless of denomination are invited to assist in the work.
Over at McMinnville there is a tall man who goes with a short girl. He is with her a good deal, and he has that leaning kind of affection. He has leaned down toward her until his neck is growing in a side curve and one shoulder is growing low and the other side high. The skin upon the outer curve of his neck is growing thin and slick and on the inside curve it is growing thick and wrinkled. His friends are fearful that he will grow into a horrible deformity. However, if the bones are not bent his neck will straighten up after they get married and he begins to lean the other way.

An Enjoyable Entertainment.
Something new in the way of literary entertainments was given in the college chapel on last Friday evening by the language department under the direction of Prof. Mabel Douglas instructor. Mrs. Douglas led with that commendable snap which is a characteristic of hers and the classes, although they were only a week in arranging the program did so well that their friends who were present were highly pleased with the evening's entertainment, although it was "all Dutch" to most of them. The program was as follows:

"You seem sad, my red brother," said the missionary. "Red brother's heart is heavy." "Red brother's heart is heavy," said the noble son of the prairie. "White man shoot better, fight better, and now Injun hear college yell he know Injun can't war-whoop for our apples. Waugh!"

Here's a pointer. If you are in trouble and seek sympathy and are at a loss where to go for it, turn your back on the cold world and look carefully among the S's in Webster and you will always find it.
