A few days ago a lad in his teens made inquiry at this office for information which he hoped might put him in a way to reach a certain government position to which he aspires. The Graphic would be glad to assist him or any other young man who aspires to reach a worthy place, but any young man who is so addicted to the use of cigarettes that the smell of his clothes is offensive to everyone he meets on the street may as well make up his mind at once that there is no place for him, unless he can summon sufficient courage to drop the filthy habit at once. No offense is intended and the Graphic hopes its readers will not take what is here said in that spirit, but the fact is becoming more apparent every day that young men must have cleanly habits and clear heads or they are not wanted, and the cigarette fiend has neither. Call a halt boys before it is too late.

A Cannery and Evaporator Needed.
 Ed. GRAPHIC—Seeing you give space to others occasionally, I feel like discussing a question that I consider of vital importance to the people of Newberg and vicinity, and more especially to the small fruit growers of this community.

I think it is generally acknowledged that Newberg fruit is equal to any in the Willamette valley, and we are raising it in large quantities. There are those now owning fruit orchards who have not built dryers, and some of them I presume who would prefer to hire, or have their fruit dried on shares, rather than to go to the expense of building a dryer themselves.

There are also a large number of Royal Ann cherry trees now in bearing, and others coming into bearing each year, and the demand is upon us that a cannery be built.

Now the thought comes to me that it would be a very profitable investment to combine a good large commercial dryer, and a cannery of sufficient capacity to handle at least the cherry crop, and both under the same roof, and the same situated so as to be convenient to the largest number of fruit growers. It can be seen that such a combination would be profitable to the fruit grower as well as to every property holder in this community.

I advance this idea with a hope that others may take it up, and that in the near future it may be generally discussed by all who feel interested in the prosperity of this community, and with a thought that the fruit grown by small holders may receive as careful attention as is given by each individual grower, and that there may be no loss of fruit for lack of drying capacity. Such discussion I believe would finally put us on the right track, and also show our needs, and it may be the means of encouraging some thoroughly competent man with means to start such an enterprise. Household Gods.
 The ancient Greeks believed that the Penates were the gods who attended to the welfare and prosperity of the family. They were worshipped as household gods in every home. The household god of today is Dr. King's New Discovery. For consumption, coughs, colds and for all affections of Throat, Chest and Lungs it is invaluable. It has been tried for a quarter of a century and is guaranteed to cure, or money returned. No household should be without this good angel. It is pleasant to take and a safe and sure remedy for old and young. Free trial bottles at C. F. Moore & Co's Drug Store. Regular size 50c. and \$1.00.

A Century in the Postoffice.
 A Portsmouth (Ohio) correspondent of the Cincinnati Commercial Tribune says: "W. R. Beatty while splitting up a tree on his farm near Scotioville, Tuesday afternoon, found in the heart a buckskin bag containing a letter, discolored by age. The writing had faded away, only a word here and there being intelligible. The tree was evidently one hundred and fifty years old, and it is thought that the letter had been placed there a hundred years ago, when the "Little Scotio" trail from the Ohio River to Chillicothe was used by traders, and which passed close to where the old tree stood. The hole in which the letter had been hidden had been completely covered by the new growth of the tree. It was undoubtedly one of the "postoffices" of the pioneers.

Miss Alissa Hughes, Norfolk, Va., rightfully burned on the face and neck. Pain was instantly relieved by De Witt's Witch Hazel Salve, which healed the injury without leaving a scar. It is the famous pile remedy. C. F. Moore & Co.

FROM THE COUNTY PRESS.
 Dayton Herald.

C. Unruh of Webfoot will probably be in the procession soon, and commence drying vegetables with his evaporator.

How handy it would be to have a motor line between Dayton and McMinnville. One could hop on the car and be whirled to the county seat in a very short time, transact what business he might wish and return here without having lost any great amount of time.

The necessity of a first class bank in Dayton is seen and experienced daily by those doing business here. The laborer even realizes it when he has checks discounted, as we have been informed, has been done in one or two instances, and by those who profess to be working for the welfare of the town. The ghost of Czar! Such actions have a tendency to give the town a bad name. We have been told by one or two, not business men, or those who have property here, but who appear to be more interested in the upbuilding of neighboring towns, than Dayton, that we did not need a bank here. With all their financial ability—in one or two instances the parties alluded to have accumulated some money—we beg leave to differ with them and say that we do need a bank, and that one would pay in Dayton, and stranger things than the establishment of a bank here has happened.

Dr. C. A. Stuart, who is now one of the students in the medical department of Willamette University, was in Portland last week, and successfully passed the examination by the state board of medical examiners.

George W. Branson, one of the pioneer fathers of 1851 and a highly respected citizen, died at his home near Wheatland, Tuesday, 11th inst., of paralysis. Deceased was born in Illinois in 1833, and was therefore 65 years of age.

Talk about a man smiling! D. B. Kingery was on our streets last Thursday with a grin that could be observed a block away. With his usual hearty handshake, he informed a reporter that Mrs. Kingery had just returned from California and that he was the happiest man in all Oregon.

I. N. Martin and Tighman Derr take a band of their cattle up on Deer Creek every year. This year several of them were missing. After several unsuccessful searches, they were found last Friday over on the head of Baker Creek, and, strange to say, were in a good condition when found.

The Combest boys, who were arrested for the murder of George Sager underwent preliminary examination before Justice McPhillips, last Wednesday afternoon, were acquitted and went home the next morning. Six or eight witnesses were examined, but the evidence was purely circumstantial and the justice and all who heard it, considered it too flimsy upon which to hold the young men. Hence their discharge.

Wisdom Millspaugh, a resident of this city since 1894, with the exception of the past three or four years that he was in East Portland, was a caller the last of the week. He now lives in Newberg.

Hon. J. B. David of Newberg was in the city Saturday. He is a prospective bidder for the work of constructing the Yamhill locks, and was making inquiry for stones suitable for the purpose. He was the guest of A. J. Apperson over Sunday.

A McMinnville lady removed her false teeth to eat an apple recently, placing the teeth in her lap with the apple parings. After eating the apple she absent-mindedly threw the contents of her lap into the fire. It was an ill wind that blew good to the dentist.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five contents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged by the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopaedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.
