G. B. Hayden of Everett, Washington, is in the city looking after his business interests here. He makes a business of loaning money, and since the enactment of the Washington legislature last winter, he prefers to loan his money in Oregon even at a lower rate of interest than he could get at home, because of the stay law, which keeps the borrower out of his funds for two years after a debt is due. Mr. Hayden thinks the borrowing element is already regretting the action of the legislature.

Transcript.
The council held a special meeting last Wednesday afternoon and evening for the purpose of considering the proposition of exchanging the dynamo now in use for one with a third more capacity, the one now in use being inadequate to the demand. After considerable discussion, Mr. Manning was authorized to make an exchange for one, and pay not to exceed \$125 difference between the machines. The city tax levy was also fixed as follows: Street fund, 1 1/2 mills; water and light fund, 3 mills; general fund, 1 1/2 mills; making a total of six mills \$338,829 within the corporate limits of the city.
Jake Nowak, the Baker and skin dresser, intends going to Portland today to make preparations for leaving for the Klondike country on the next trip of the Eider. He has made a sleeping bag of fine sheep skins and says it works to perfection, having tried it by sleeping out in his yard one night this week. Jake says he will not prospect, but will seek employment as a cook and at the same time ply his trade of tanning and dressing skins. He ought to do well in that land of furs and ice.

Upon motion of Sawyer it was ordered that where water rent was not paid on or before the 10th of each month that water be turned off. Also that water consumers be permitted to wash crossings without extra charge.
On account of the failure of Adney Fogz, councilman-elect from First ward to qualify, D. Tallman was elected to fill the vacancy.
