Newberg is in good repute with most people but there is a class that seems to be afflicted with an all-gone feeling when they come this way. Six young women who were passing through town last Tuesday on their way to the coast appeared to be quite put out because they were unable to find better for sale. They hurried on toward McMinnville and of course their wants have been met ere this.

 A letter came to W. P. Thomas a few days ago from the pension office at Washington which brought glad news to him as well as to his many friends. Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Kush, clerk of Hotel Dorrance, K. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. F. Moore & Co., druggists.

The Reporter says: The question is often asked, what provisions the government has made for getting a soldier home after he has been discharged in some distant part of the country. The government provides for the expense of such soldier through rather a novel method. The soldier is allowed in cash the amount of his wages, ration, etc. for the period of time he would occupy in walking home at the rate of 25 miles a day. This law was first adopted in 1812, when walking or horseback riding was about the only means of transportation, and it has stood until this day with only a change in the number of miles a soldier is supposed to walk. Up to 1864 it was thirty miles a day, but at that date it was changed to twenty-five miles a day. It may be interesting to consider what money would thus be paid to an Oregon soldier who receives his discharge at Manila. Estimating the distance from McMinnville to Manila at 6,000 miles, it would take a soldier at 25 miles a day 240 days to reach McMinnville. For this period his pay would amount \$104, his rations to \$108, and his clothing to \$40, or a grand total of \$252. It is apparent that he would receive considerable more than enough to pay a first-class passage home. However, the government reserves the right to transport soldiers to the place of enlistment before discharging them, and this would probably be done in the Manila case.

Dr. Minthorn, of Scotts Mills, who was in town this week, spent three months at Fort Wrangle, Alaska, this spring. He says he feels confident from what he saw of collector J. W.  Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Law, Keokuk, Iowa. For sale by C. F. Moore & Co.

The glorious 4th can be celebrated on a roomy and well fitted excursion steamer just as appropriately as on terra firma. There will be plenty of good music and a good program generally on the Undine, Monday. It wouldn't be a celebration without rousing, patriotic speeches, and such speeches will be in evidence. Rev. Bennett whom we all know, and M. Z. Kirk of Iowa who has been in attendance at the yearly meeting will be present on the excursion and have kindly consented to give the addresses. Those who heard Mr. Kirk's enthusiastic educational address at the Friends church Monday afternoon will have no doubt as to the excellence of his 4th of July address, while Rev. Bennett's ability in this line is too well recognized for comment.
