Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Rush, clerk of Hotel Dorrance, K. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. F. Moore & Co., druggists.

Zack Davis the Dundee prune grower continues to pursue the course he adopted when he first commenced to plant his orchard, which was to do everything that he undertook in an up to date, first class manner. After running through one season with the evaporator built last year and finding that the capacity of the evaporator was insufficient and otherwise unsatisfactory, he began early this season to remodel it by adopting the Allen patent and largely increasing the capacity of the plant by building an addition 56x58 feet which now gives him a building 56x106 feet and an evaporating capacity of 1000 bushels of prunes a day. The best of material has been used in the construction of the plant throughout and as far as the workmanship goes it is only necessary to state that the carpenter work has been under the guiding hand of Jim Jones, of Newberg, who ranks as a first class mechanic and one who takes a special pride in his work. Besides taking care of his own prune crop which is heavy, Mr. Davis will buy from other growers and pay the market price in cash at his door.
