file in his office.

Local Events.

Armory hall, Monday night.
W. P. Heacock for Machine Oils.
The Graphic and the Oregonian for \$2.00.

Miss Mabel Edwards is visiting friends in Portland this week.

New Columbia bicycles for rent at Johnson's bicycle shop.

A reproduction of the Dewey battle Monday night.

E. C. Ward & Co. carries a complete stock of poultry supplies.

Born—To Mr. and Mrs. George Rogers, on Thursday July 21, 1898, a son.

Leave orders at Wilson's Grocery for expressing or light hauling.

Isaac N. Miles was over from Scott's Mills the first of the week.

For grass seeds, flower seeds, garden seeds and all kinds of seeds, call on E. C. Ward & Co.

A gentleman was here from Forest Grove on Tuesday looking for a location for a photograph gallery.

Mrs. Miriam Douglas who has been in poor health for some time is in Portland taking special treatment.

If you are real anxious for a fair at Newberg just tell it to the committee when they are soliciting.

D. C. Atkins, of Laurel, who was in town last Saturday called in and renewed his subscription to the Graphic.

The Edison show to be given at Armory hall on Monday night promises to be one of the best ever given in Newberg.

Rev. E. S. Craven has been putting in new furnaces in his fruit evaporator and getting everything in readiness for the prune crop.

Dr. Reese and wife of Portland came up on their wheels Monday evening and visited with the Hendershot family, returning on Tuesday morning.

Samuel Gause and family moved out to the T. J. Moore place east of town this week to remain for a few weeks caring for the fruit on the place.

Newberg did not furnish as many visitors at Chautauqua this season as usual but those who attended report a very pleasant and enjoyable time.

Charley Hoskins left on Wednesday for Goble, down on the Columbia where he will stop for a while with his brother Eugene who is working in a saw mill at that place.

A Klondike stake is all right if you can reach one, but how much easier and more palatable it is to step into Cooper & Clemmens' meat market and get a nice juicy beef steak or a leg-of-mutton for a Sunday roast.

James and Semon Madison finished cutting their winter wheat last Monday. They report a very good crop but say it is not up to what they hoped for some time ago. They have a fine prospect of a good crop for their spring sown grain.

Horses are evidently very cheap or else the price of oats is up in the pictures. J. M. Rittenhouse traded a horse to Canby Heston the other day for forty bushels of oats and both interested parties are well pleased with the trade.

J. L. Hoskins and L. M. Parker with their families will go to Meadow Lake today, expecting to return next Monday. They are advised to add a few pounds of bacon to the commissary supplies to be drawn on in case the fish refuse to take the angle worm.

J. O. Parks, who has been a resident of Santa Clara, California, for the past five years arrived here the first of the week on a prospecting tour and is so well pleased with Newberg that he is arranging to send for his family with a view of locating. Mr. Parks is a carpenter by trade.

J. W. Vaughan, who came here recently from Hopper, Morrow county, has bought A. M. Mauritzson's grocery and will increase the stock as soon as the room can be enlarged. He has the whole building rented and the family will occupy the rear and the upper story as living rooms. Their two daughters who are visiting with an aunt at present will come home in time for school in the fall.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Rush, clerk of Hotel Dorrance, K. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I could forthwith myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. F. Moore & Co., druggists.

The Edison projecting machine.
If you want a fat hen for Sunday, see C. B. Wilson.

Internal revenue stamp agency at Bank of Newberg.

W. P. Heacock sells as good a screen door as is in the market for 60 cents.

Charley Mackey and family, of Dayton, were down on Thursday.

If you want whole corn, cracked corn, wheat, oats, bran or flour, see E. C. Ward & Co.

Fred Clemmens, of Portland, was in town Thursday visiting his brother Henry.

Mrs. O. C. Davis and little daughter, of Portland, are visiting with Mrs. M. C. Rutan.

For running facilities, grace, beauty and perfection of workmanship, the Columbia beats them all. Sold by C. F. Johnson.

J. D. Wilson, formerly of Newberg, was over from North Yamhill last week looking for a farm to rent for next season.

Harry C. King, a prominent lawyer, of Toledo, Ohio, with his wife have been visiting Mrs. Williams on Fifth street during the week.

Farmers! You are losing money by not seeing C. B. Wilson before selling your produce. I am paying highest market price in cash for poultry of all kinds and eggs and veal.

Rev. G. L. Sheperdson of the Wesleyan Methodist church will preach next Sabbath at 11 a. m., 3 p. m. and 8 p. m. in the Evangelical church. A cordial invitation is extended to all.

Please remember that we furnish Photos on Platino Paper (black and white) as well as any other kind of paper. We give you an opportunity to get good work at close prices.

C. C. SMITH.
The small boy and the colling moth are getting in their work on the summer apple crop. Our druggists handle both soothing syrup and Paris green and it is immaterial to them which they sell the most of.

"I have used Chamberlain's Cough Remedy in my family for years and always with good results," says W. B. Cooper of El Rio, Cal. "For small children we find it especially effective." For sale by C. F. Moore & Co. druggists.

Complaint is being made that undressed kids are in the habit of making themselves rather conspicuous near the dock at the foot of River street. Some of them wear abbreviated bathing suits while others dress entirely in tan. The boys should hunt for places less public for bathing.

Jim Barrie talks some of going to Wisconsin to engage in farming. Jim is not very large in stature and at the outset the neighboring farmers are liable to labor under the misapprehension that he is only a small boy that has been brought along to ride the horses to water.

It appears to worry the editor of the Telephone-Register a good deal whenever the fact is made known that the citizens of Newberg won't allow a saloon man to set up shop here. Since the said editor is harping about possible damage suits he might look up the law relating to theft, as he seems free to lift local news items from the columns of the Graphic without giving the proper credit.

A letter received a few days ago from Frank Elliott by Clarence Butt stating that there were at the time of writing 30,000 people at Dawson and as many more on the way who were expected to arrive soon. Frank stated that he had made a deal for a grub stake sufficient to last him a year and he expected to remain. Lon Hill's friends will not be surprised to see him return at any time now.

Rev. Ralph E. Storey, of McMinnville, who has been taking a theological course in Brown University, at Providence, Rhode Island, for the past three years was in town Saturday and Sunday visiting his brother Frank and on Sunday preached a sermon at the Baptist church which is well spoken of. Mr. Storey evidently believes in making a thorough preparation for life work for after completing his course next year at Brown he contemplates taking some extra work, either at Chicago University, or some other similar institution.

J. W. Cook, of Woodburn was in town last Tuesday making arrangements for a show here on next Monday night with Edison's latest invention "The Amet" or projecting machine. Mr. Cook has a new outfit recently purchased at a cost of \$1500 and those who have seen his show speak of it in the highest terms. This is no magic lantern show but something entirely new. The pictures are moving, lifelike scenes thrown on a canvas fifteen feet square. He shows one hundred scenes and his charges are only 15¢ and 25¢. This affords Newberg people an opportunity to see something new and novel at a low price.

The Friends church was well filled on last Saturday evening by the neighbors and friends of President Newlin and family who gathered there to spend the evening in a social way, on account of their expected departure for Indiana with a view of remaining away for three or four months. Jesse Edwards, president of the college board presided. Beautiful solos, appropriate to the occasion were sung by Mrs. O. K. Edwards and Mrs. W. L. Robertson and a male quartet composed of Messrs. Jackson, Woodward, Stanley and Allen also furnished excellent music. Reminiscences were made by Rev. G. H. Benson of the M. E. church and Rev. S. S. Lewis of the Friends church and a response given by President Newlin, followed by the benediction given by Rev. Joseph Hall of the M. E. church.

Old papers for sale at this office.
Buy your harvesting machines and machine oil of Christenson & Sawyer.

O. C. Wright left for La Grande last Wednesday morning after a visit of a week at home.

Edison's latest and greatest invention "The Amet," at Armory hall on next Monday night.

Miss Mary Smith, daughter of J. R. Smith, was down from Dayton on a visit last Saturday.

Miss Etta Pittman, of Portland, is visiting with her sister, Mrs. Wm. McCollum north of town.

Next Sunday evening is the regular C. E. consecration meeting. All Endeavorers please remember.

A. R. Cobb who has been over on the Sound for some time is at home with his family this week.

Mrs. D. R. Jackson who returned to Minnesota on business a short time ago arrived home on last Monday.

A. M. Mauritzen left for Salem on Tuesday. He said he was arranging to start a store at Little Nestucca.

Mrs. B. S. Cook and children were down from Salem the first of the week visiting with relatives about town.

Lewis Jones has been up about Dundee and Dayton for several days building furnaces for fruit evaporators, all of which are after the Allen patent.

Complaint is still made that boys about town wantonly break windows in vacant buildings. A good application of mother's slipper is recommended.

Miss Hattie Gamble, of Minnesota, who visited here last week with her aunt, Mrs. L. M. Metcalf, is now visiting with relatives at Ballston, Polk county.

The steamer Elmore was five hours late getting into Portland last Monday on account of running into a big tree that projected out into the river. In the jam the smoke stack was knocked off.

You will want to see the battle-ship Maine, Dewey's battle at Manila and a hundred other moving and lifelike scenes as shown by the Edison projecting machine at Armory hall on next Monday night.

John Bradley, of Dayton, who was the prime mover in getting the Willamette Valley telephone line started was in town on business last Saturday. He is urging the company to build the line on to Salem.

Mrs. Lon Hill received a letter last week from Lon in which he stated that he intended to come home next month, but that Frank Elliott would remain in the Yukon country until some time next fall or winter with a hope of striking it rich before that time.

As noted last week Barrie & Hobson have sold out to the Morris, Mercantile Co. and the store is now under the supervision of F. A. Morris, one of the oldest and best known merchants in the valley. It is understood that the stock is to be largely increased.

The Spaulding company now have their big log drive all housed in the log mill opposite Newberg and the job of towing the logs to Oregon City by the steamer Grey Eagle will begin at once. It will take about two weeks time to deliver them at the pulp mills at the falls.

W. R. Everest brought to this office on last Monday some samples of timothy that indicated rather a vigorous growth on his farm. The tallest stem measures seven feet four inches in height and there are fifty-five stems cut from one root. Oregon is a rich country and there is no mistake about it.

F. H. Storey was in Portland Tuesday laying in a big stock of heavy sheet steel in order to keep up with his rapidly increasing trade. He has contracts on hand for making piping for fruit evaporators which will keep him busy for some time and which when finished will represent about a mile of thirteen inch pipe.

The toot of the engine hauling the dirt train is now heard at all hours of the day. Work has been commenced on the trestle at the canyon northeast of town near Charley Mitchell's place. When the force gets through dumping dirt the long trestle will be very much shortened.

Hiek Baldwin, the wanderer, who has been doing California for the past year or two arrived in town last Monday with a good, healthy, Mexican color on his face. He came in on a wheel and says he has been nearly all over California. He came overland with a gang of harvesters who were looking for greener fields than are to be found in California.

Mr. and Mrs. T. G. Hollister arrived home from Tillamook last Tuesday. Mr. Hollister says that while he was fishing in Nehalem Bay he discovered the body of a man in the water but while he was gone for help the tide carried it out and they were unable to find it. He says the body had apparently been in the water for some time and he supposed it was some lost Columbia river fisherman.

In order to be able to increase his speed as well as to make it easier on the rolling stock, Jim Jones made a bicycle path between Newberg and Dundee that has been quite satisfactory to him while passing to and from his work on the fruit evaporator at the Davis fruit ranch at Dundee. Jim don't lay claim to the road bed and of course others have had free access to the path.

One of the best evidences of returning prosperity is the fact that A. L. Stevens, a rank populist, was, on account of his growing competency, obliged to send to Portland this week in order to get a pair of overalls large enough for him. The gold standard and a good cook are doing wonders for Mr. Stevens and his cup ought to be full to overflowing although the election did not go just to his liking.

Benjamin Coppack, formerly of Ohio, but recently from California, arrived here with his family the first of the week. He has a prune orchard a mile west of town and he and his brother-in-law, Emmor Hall contemplate building an evaporator yet this season and will operate it jointly.

J. H. Bowerman is putting up a fruit evaporator on a big scale. The building which is being built by Professor Morrison and Jones is 40x60 feet and aside from the building the evaporator, which is the Beck patent, is to cost \$2500. Mr. Bowerman has a large crop of prunes and he will be able to give the new evaporator a good test when he gets to running.

A. R. Cumpston writes from Seaside that they are enjoying their camping down by the sounding sea to their hearts content, feasting on crabs and clams. Whether he wrote this to tantalize the editor who is compelled to stay at home and work, he did not say, but the Graphic is glad to hear of the pleasant times they are having anyway.

Thomas Hester, who was one of the college graduates here last year left for his home at Vermillion Grove, Illinois, last Monday, with a view of entering Earlham college in the fall. Before going he sealed the heights of Mt. Hood and wheeled over to the seaside, took a look at the big waters and did the best he could to determine what the will waves were saying. Tom's young friends think there is enough attraction here to cause him to return and they will be glad to see him back as he is a jolly, good fellow.

The Graphic dislikes very much to dun subscribers through its columns but there are cases where a simple reminder don't seem to have any effect, and at times there comes a strong temptation to place the names of long time delinquents in print at top of column next to pure reading matter, as patent medicine advertisers would put it, where they can be read of all men. Forbearance is a great virtue and the average newspaper man has a large stock of it booked to his credit but there is a limit to human endurance. There are a large number of people who would have clearer consciences if they would pay what they owe at this office. No charge for writing receipts.

The Chemawa Indian school baseball team was not as successful at Chautauqua this season as formerly. The Oregon City Enterprise speaking of their playing says: "Once more the Indian boys suffer defeat at the hands of the Y. M. C. A. team of Portland. A week ago these two teams met each other in a fiercely contested game resulting in a victory for Portland and again they engaged in a spirited game on Monday afternoon in the presence of a throng of admiring Chautauquans. This was one of the best games of ball that has ever been played by amateurs in the state. Every man in both teams filled his position ably and played with an earnestness seldom seen. At the close of the 3rd inning the game stood 5 to 3 in favor of the boys from the metropolis and from then on the best endeavors of both teams failed to increase the respective scores. Wrangling and quarreling, which so often manifest themselves on occasions of this kind did not arise to mar the beauty of the game. Each team realized the strength of its opponent and wasted no energy in controversy. The Portland team is composed of good players all around, Downs and French having played with the best players in the state. The Indian boys have several men in their team who with a little more experience can play a much better game. The game closed with the score standing five to three in favor of Portland."

Shall Newberg Have a Fair?
The stockholders of the Newberg Fair Association have not been entertaining any idea of holding a fair this season as the difficulties met with in the past have been so discouraging that they have thought best to let the thing go by default, but since there seems to be a desire on the part of the people that a fair shall be held this season it has been decided to put the matter to a test. On last Monday afternoon at a meeting held in attorney Butt's office the matter was freely discussed in its various phases and the sentiment of the stockholders present was that they were in deep enough financially already, and that it was not advisable to undertake to hold a fair this season unless those on the outside would raise a fund sufficient to guarantee the association against any loss that might accrue from holding a fair. In accordance with this sentiment a committee composed of W. J. Stater, J. M. Atkinson, C. E. Newhouse, F. A. Morris and Clarence Butt was appointed to wait on the people and ask them to subscribe to a fund for the above named purpose. The amount named was \$150 of which \$100 should go to meet expenses and \$50 to assist in paying premiums.

Now here is a proposition that can be easily understood by the people and it will give them an opportunity to say just how anxious they are for a fair.

The Graphic has always taken the ground that a fair, properly conducted is well worth to the community in which it is held all that it costs, provided the work, worry and money expended can be properly distributed among the people, and this view is still adhered to. The fair held here in the past has been a great benefit to the community and what it has done in the past it will do in the future if properly supported by the people. The amount asked for will come right all around if properly distributed, but the time is short and the conditions must be met in the next few days if we have a fair.

The Graphic has been asked to make this statement in order to cause the people to think. When you are called on by the committee for your part as a loyal citizen and you will have no reason to regret it.

W. C. T. U.
There were 19 members of the union assembled at the home of Mrs. Jane H. Blair on Wednesday afternoon. The devotional exercises were conducted by Docta Macy.

A call was read from the national officers asking that every state union raise funds to send to the troops in the various camps. The corresponding secretary is instructed to correspond with the state superintendent of soldiers and sailors work concerning the matter of raising funds, making comforts, bags etc. An item was read from the Union Signal telling of Mrs. Harford's work in Kansas, saying that she had gained more new members than any other organizer in the field. A nominating committee was appointed to bring forward names for superintendents of departments for the annual meeting to be held the 10th of August at the reading room. The president informed the union that money for the temple is being sent in at the rate of \$500 \$1000 and \$1300 per day. The local treasurer is instructed to send \$5 from Newberg union to the temple. REPORTER.

A thorough-bred English Setter; 2 years old, well trained. Call on or address Irvin Scott, Newberg Oregon.

Feeding the Land.
Flourin' down a clover lot
Nigh make city people wonder
Why you take the crop you've got
An' forthwith go an' plow it under.
"Feed the land," my father'd say.
"Feed it in fat an' keep it smilin';
Then she'll kick forth corn an' hay,
Oats, an' the hull kit an' bilin'."
I have heard him say, moreover,
"Nothing feeds the land like clover."

Wheat deploils the virgin land.
Oats and barley both exhaust it.
Corn, unless its raised by hand,
Pays the soil 'bout half it cost it.
But a mocha' clover crop—
Ain't no way of gettin' round it—
Makes the land all rich on top;
Clover as a crop or dressin'
Is an everlasting blessin'.

Bill McKnight, of Martinavon, Farms it on the river bottom.
If they's any snaps aroun'
Bill he swears he shorly got 'em.
Never have to feed his farm!
Bill, he says the river feeds it.
Fertilizer'd do it harm;
Says he don't believe it needs it,
Lands so full of fat, that clover
'D simply spill and slop it over!

Farmin' on the river flat
Is a feast or it's a famine.
Frost an' flood an' such as that
Keeps Bill broggin' er a dammit.
Jest gimme the upland soil
An' a proper crop rotation
That'll pay it for its toll.
And leave it rich as all creation!
This 'ere flood of erimson clover
Beats the river flowin' over.

Smell that breezes now! Ain't that sweet?
Hear the bumblebees a bumm'n!
Don't no grass grow 'round their feet
When the erimson clover's bloomin'.
Flourin' under this fine yield,
Bill 'ud call it foolish notion.
But I know 't'll make this field
Richer than the land o' Goshen.
Nothing under heaven er over
Feeds the land like erimson clover!
—Milton O. Nelson in Farm Implement News.

Remarkable Rescue.
Mrs. Michael Curtin, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles, found herself sound and well, now does her own housework, and is as well as she ever was. Free trial bottles of this Great Discovery at C. F. Moore & Co.'s drug store. Large bottles 50 cents and \$1.

COLOSSAL CLOSING OUT SALE

Commencing Monday, July 25,
Every article in our Dry Goods Department will be placed on Sale.

We have decided to close out our entire Stock of Dry Goods, Boots and Shoes, Hats, Caps, Furnishing Goods and Notions. Heroic measures are necessary in order to close out the entire stock in a short time. We know there is only one way to do this. Slaughter of prices is necessary, hence this utter disregard of original cost. We mean to Slaughter prices beyond your wildest imagination.

You Should not Miss This Sale. Perhaps once in a lifetime you will have an opportunity to buy goods at such prices from a well selected stock of strictly first class goods.

Remember, every article in the house, nothing reserved or limited, everything must go.

We have a large and well selected stock of Groceries that were bought in large quantities for Spot Cash before the advance in prices which we will sell at bedrock prices during the time we are closing out our dry goods.

During this Sale goods will be sold only for cash or the equivalent. Produce will be taken in exchange for goods and you will get the benefit of our Closing Out Prices.
