that the fall season is fast approaching.

A rubber stamp for a letter head or

The very appearance of the work it does
is as cheap as could well be imagined.

Zel Sears received word last week that

ning and narrowly escaped instant
death.

A glance at the big thirteen inch pipe
now being put out at Storey's tin shop
will give one some idea of the size of the

The rush of work on the fruit evap-
orators that are being built in this com-
munity is such that carpenters can
scarcely be found to do the work as fast
as it is wanted.

A. B. Cornell was sent to Eugene last
week by the S. P. company but he re-
turned on Monday owing to temporary
illness. He is now as good as new and
is again off at work.

B. C. Miles' uncle, Samuel Miles in

and visited with the Miles family until
the first of the week when they returned

The last rose of summer has a no more
forlorn appearance than a wagon load of
dusty, sun browned coasters on their
way home from an outing trip but it is
all fun and no complaint is made of
course.

A Klondike stake is all right if you
can reach one, but how much easier and
more palatable it is to step into Cooper

nice juicy beef steak or a leg-o'-mutton
for a Sunday roast.

The wheat yield don't seem to be up
to what was expected. There is an
abundance of straw but the grain is lack-
ing. The shortage is laid to the work of
the aphid, the weather being specially
favorable for this pest for several weeks.

The fire bell which the town hos-
company have been working so faithfully
to procure has been purchased, and was
raised last evening. The bell is a
fine one, with a deep, mellow and full
tone, and was one of the best to be had
in Portland. It was purchased at a cost
of one hundred and thirty-five dollars.

E. L. Carly, who traded for a ranch
over in the Nestucca country last season
and moved over to it has sold out and
moved back to Newberg. He arrived in
town Wednesday and says that although
he likes the Nestucca country he has
come back to Newberg to remain. Mr.
Carly is an enterprising citizen and his
old neighbors are glad to see him back
again.

Two dirt trains are busily engaged
hauling dirt from down near Oswego for
the fill at the long trestle near town.
The reason given for going so far for the
dirt is that the company has a bank
down there that is easily worked, while
in the gap of the mountain near by is
much rock is found in the hills that it is
much more difficult to handle with the
steam shovel. The hourly tooting of
the whistle as the trains pass back and
forth has something of a Pennsylvania
Central air about it.

Mrs. Mary E. Myers and son Levi ar-
rived home from their visit at George
Grayson's over on the Trask last week.
They report that they had an excellent
time in the mountains and that they
found fine fishing on the Trask. Mrs.
Myers has the thanks of this office for a
couple of fine salmon trout from a lot
they brought out to distribute among
their friends. They were beauties and
the smell of the frying pan was enough
to make a fellow feel like calling it a
half day and going fishing.

J. H. Bowerman is of the opinion that
if there was more attention paid to bee
raising in this community it would be
decidedly to the interest of the fruit
growers, and cites an article in a recent
number of the Farm and Fireside in
which a correspondent claims that bees,
while working on the fruit bloom, assist
very greatly in pollinating the bloom,
and that without the work of the busy
bee a great loss would be sustained by
the grower. Honey is not hard to take,
along with a hot biscuit and a liberal
allowance of Jersey butter, and taken
all together Mr. Bowerman's suggestion
is worthy of consideration at the hands
of our fruit growers.

A. Amerman and family arrived home
from Woods on Wednesday where they
went in the spring hoping the change
would prove beneficial to Mrs. Amer-
man's health. In this they have been
disappointed and she returns much
worse than when they went away.

Mrs. Frank Taylor and the Misses
Mellie Douglas and Effie Jackson re-
turned home from Newport on Tuesday
after a pleasant week's sojourn at the
seaside. They report that Dr. Littlefield
was so taken with sea bathing that he
concluded to remain until Saturday.

The boys want to know what must be
thought of the state of a professor's
mind who on starting home from church
with his young lady, leads off another
fellow's bicycle totally different from
his own, and owns up to that he hadn't
noticed it. Notice is at least given that
cyclists should keep an eye on their
wheels after services are over.

Rodney Jones had rather a narrow
escape one day last week when coming
home from Portland with a pair of his
binder in the wagon. When near Nate
Wiley's place the railroad train sud-
denly appeared around the curve which
scared the horses causing them to run
away. After running a short distance
the binder and Mr. Jones were thrown
out against an embankment and the
wagon was considerably broken up. Mr.
Jones considers that under all the cir-
cumstances he was very fortunate in be-
ing able to escape without a scratch.

About one month ago my child, which
is fifteen months old, had an attack of
diarrhoea accompanied by vomiting. I
gave it such remedies as are usually given
in such cases, but as nothing gave re-
lief, we sent for a physician and it was
under his care for a week. At this time
the child had been sick for about ten
days and was having about twenty-five
operations of the bowels every twelve
hours, and we were convinced that un-
less it soon obtained relief it would not
live. Chamberlain's Colic, Cholera and
Diarrhoea Remedy was recommended,
and I decided to try it. I soon noticed
a change for the better; by its continued
use a complete cure was brought about
and is now perfectly healthy.—C. L.

On what was thought to be good au-
thority the Graphic made the statement
last week that the open season for bird
shooting would begin August 15. This
appears to be a mistake. It is the
date for Washington but in Oregon the
date is September 1.

A good force of workmen are engaged
on the new dryer of Emmo Hall's a mile
west of town. With a daily capacity of
100 bushels he will be able to care for
more than his own crop. His brother-in-

California, is assisting him and persons
wishing to market their fruit crop or
have it dried would do well to see them.

The report comes from our old friend

extolling to the dear people up and down
the coast for several years. The Graphic
extends hearty congratulations.

The soliciting committee for the fair
fund has met with such success that the
holding of the fair seems to be an assured
fact and dates will no doubt be an-
nounced in a few days. Now if the peo-
ple will only make up their minds to
hustle we can have a fair that will be a
credit to the community. The success
of the fair depends on the display of
products and the display depends en-
tirely on the enthusiasm and public
spirit of the people.

REPORTER.

Oil of Glandine.
Is a pleasant, palatable preparation, en-
tirely free from all oily taste, and may
be administered internally or applied
externally. It will remove all pain
that "human flesh is heir to," if prop-
erly applied, and might be rightly
termed "a panacea for all ills." Price
50 cents. For sale by all Druggists.

An Explanation.
The following communication is published
at the request of the committee named in
the communication.

By request of W. C. Kruger a com-
mittee of six business men have made
as thorough an investigation as they
could of his family trouble which oc-
curred about three weeks ago, and
which has been so much talked about
by the people and which has placed
him before the public as a brutal wife
beater, and find no evidence to sub-
stantiate the much enlarged story, as
it has passed from mouth to mouth.

The people of this community gen-
erally know that Mrs. Kruger has been
in very poor health for many years
and he has not been able to control her
and her temper which has caused much
worry and trouble for many years and
has been getting worse all the time.
Mr. Kruger has provided for his fam-
ily as nice a home as any in Newberg,
and as many know, he has only gone
to the house for his meals, sleeping in
the store so as to avoid as much trou-
ble as possible. Mr. Kruger very much
regrets that he had to use so much force
to control his wife who was trying to
get at him with a butcher knife and
he had to slap her with his open hand,
which left marks on her face and caused
her much pain for several days.

The testimony of all the different
members of the family agrees, and Mrs.
Kruger does not blame Mr. Kruger but
acknowledges that she has no control
of her temper, and seems anxious to
continue to live together hoping that
her health may so improve that they
will get along better in the future. Mr.
Kruger has made arrangements with
his brother Jake Grauer, of Sheridan,
to keep her and furnish her with a good
home, and he knows of the trial she has
put up with, and if there is anyone
that is not satisfied Mr. Kruger invites
them to talk with Mr. Grauer or any
of Mrs. Kruger's relatives. Mr. Kruger
has been successful in his business, is a
good public-spirited citizen and has
many friends whose duty it is at this
time to help him to overcome the
thoughtless and hard things that have
been said.

Mr. Kruger has two children to which
he is very much attached and which
will be well cared for by him. The
committee decided that as so much
had been said against Mr. Kruger that
it was due to him as well as to his
friends and the public that this report
be published that all may know the
true condition and that he may be
placed in the proper light before this
community.

Clem Scott has made a record in cut-
ting wheat—65 acres in 15 hours with

average pace in Oregon, and we have
eagerly awaited Mr. Scott that the weather
is warm, and such work is not con-
ducive to long life.

Transcript.
Hon. Jos. D. Lee of Portland, repre-

sented the Oregon Industrial Exposi-
tion, was in this city Wednesday last
in quest of material from Yanhill to
make up the show. If Yanhill chooses
to (and she should) she can furnish as
fine products, "pretty women and big
red apples as any of them." Mr. Lee
will be here a portion of the week to
look over the ground again.

One thousand five and a third yards
of crushed rock has gone onto the
streets of our city this season, and it
is probable that before winter sets in,
half as much more will be put on.
Commendable move.

Under date of August 5th A. J. Hun-
saker sends us this item from Dolph:
"Carl Shortridge and myself slew a black
bear last evening; we did not have
watches last night and are ready for
another hunt. All well in camp."

Mrs. F. W. Redmond last week re-
ceived a letter from her sister, Mrs. C.
W. Holman, who is at Watsonville,
Calif. Among other items she men-
tions the fact that they are using flour
from the Atlas mills of this city, and
that it costs them delivered \$1.25 per
sack. At the same time the same flour
was retailing here at \$1.00 per sack.
That sets us to thinking of "how great
is the flour trust." Watsonville is 1200
miles from here. We are proud to
know that they are using our flour,
but it puzzles us to know how they can
do it at an advance of only 12 cents
per sack.

2 Beats the Klondike.
Mr. A. C. Thomas, of Marysville, Tex.,
has found a more valuable discovery than
has yet been made in the Klondike. For
years he suffered untold agony from con-
stipation, accompanied by hemorrhages;
and was absolutely cured by Dr. King's
New Discovery for Consumption, Coughs
and Colds. He declares that gold is of
little value in comparison with this mar-
velous cure; would have it, even if it cost
a hundred dollars a bottle. Asthma,
Bronchitis and all throat and lung affec-
tions are positively cured by Dr. King's
New Discovery for Consumption. Trial
bottles free at C. F. Moore & Co.'s drug
store. Regular size 50c and \$1. Guar-
anteed to cure or price refunded.

Dead bodies, when taken as cargo on

statuary or natural history specimens,
owing chiefly to the superstition of
sailors.

It is said that herrings are so prolific
that if a pair of them could be left to

Commencing Monday, July 25,
Every article in our Dry Goods Department will be placed
on Sale.

We have decided to close out our entire Stock of Dry
Goods, Boots and Shoes, Hats, Caps, Furnishing
Goods and Notions. Heroic measures are necessary
in order to close out the entire stock in a short time.
We know there is only one way to do this. Slaughter
of prices is necessary, hence this utter disregard
of original cost. We mean to Slaughter prices be-
yond your wildest imagination.

You Should not Miss This Sale. Perhaps once in a life-
time you will have an opportunity to buy goods at
such prices from a well selected stock of strictly first
class goods.

Remember, every article in the house, nothing reserved
or limited, everything must go.

We have a large and well selected stock of Groceries that
were bought in large quantities for Spot Cash before
the advance in prices which we will sell at bedrock
prices during the time we are closing out our dry
goods.

During this Sale goods will be sold only for cash or the
equivalent. Produce will be taken in exchange for
goods and you will get the benefit of our Closing
Out Prices.
