There are a number of fond mothers and grandmothers who are beginning to inquire if there is to be a baby show at the fair. The Graphic is not authorized to speak, but seeing that this is Newberg's standard crop with no failures recorded it would certainly be a great mistake to fail to have it represented at the fair.

Harvey E. Lounsbury, traveling freight agent for the Southern Pacific was in town last Wednesday looking after the interests of the company. Mr. Lounsbury, who has until recently been connected with the passenger department is a very genial young man to do business with and his efforts in the freight department will no doubt be fruitful.

Women get pretty spunky sometimes when they are "riled up" over the depredations of "the old man thing" that watches around for an opportunity to open the front gate and step inside the yard. There was general rejoicing in Newberg recently when the owner of such a cow sent her to the butcher's block, but alas for fond hopes of a cessation of hostilities. There is another to take the place of the departed. To be more plain spoken there is a Jersey cow, "Anns horns, going about town watching for chances to get into mischief by butting gates open, and the owner is warned of the punishment that is in store for the old brute in this life, to say nothing of the future, unless the wicked ceases from troubling, for the women are up in arms, war has been declared, several kettles of water are already boiling and they stand ready to defend their homes, including the cabbage patches.

The premium list of the Newberg Fair Association is ready for distribution. Address J. L. Hoskins, president, or call at the Graphic office and get a copy. Farmers! Since the first of the month bicycle riders have been using the walks on First street very freely and some of them, women and girls as well as men ride at rather a rapid gait. Bicyclist should beware and not abuse this privilege lest it be taken from them. Fast riding is out of place on any walk but strange to say there are many riders who seem to forget that those who walk have any privileges that should be respected. The old man Moss who lives some three miles west of Newberg is laid up by an accident that occurred on Thursday of last week and which came very near being fatal. While pling and burning brush on his place he was suddenly attacked with a strange feeling and losing control of himself he fell into the fire and was unable to move. He called to his son who was some distance away and he hurried to him and pulled him from the flames and smothered the fire from his burning clothing. One leg and one arm and side was pretty badly burned and had it not been raining at the time so that his clothes were wet he probably would not have gotten out alive. Mr. Moss is said to have met with a series of misfortunes and this last one leaves him in rather a hard row.

Oscar Heister has been getting experience pretty fast this week. He took a sudden notion the first of the week that he wanted to kick up his heels for a time along with the cayuses of Eastern Oregon and off he went. On Monday at Portland he fell in with a couple of young fellows who offered to show him to the train late in the evening where he intended to take box car passage on the O. R. & N. road. On the way down and at a secluded spot the boys were held up at the point of a revolver and Oscar was relieved of hard earned cash to the amount of \$5. He reported to the police and as the two young fellows were at once suspected of being connected with the robbery the police sought and found them in a North End saloon where they were arrested. The two young bloods are now held awaiting the action of the grand jury and Oscar is at home waiting to appear as a witness against them.

Nice stock of underwear and hosiery at Vaughan's racket store.

Receipts for paid up subscriptions written at this office without extra charge. Some people go to Portland to trade. That's hard on Newberg merchants. Some trade with catalogue houses in the east. That's sending your earnings out of the country—but most people of Newberg have found out that Vaughan's racket store sells as cheap as anybody. Then its right at home.

T. B. McAdams took a lay off last week on account of an attack of the asthma and started for Astoria, hoping to get relief down by the sea. A stop over at Portland seemed to have the desired effect, for after a nights rest his whistle worked all right, so he turned about and came home and went to work again.

Discovered by a Woman. Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way of recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hamrick & Co. of Shelby N. C. Trial bottles free at C. F. Moore & Co.'s drug store. Regular size 50c and \$1. Guaranteed or price refunded.

How to Prevent Croup. We have two children who are subject to attacks of croup. Whenever an attack is coming on my wife gives them Chamberlain's Cough Remedy and it always prevents the attack. It is a household necessity in this country and no matter what else we run out of, it would not do to be without Chamberlain's Cough Remedy. More of it is sold here than of all other cough medicines combined.—J. M. Nickle, of Nickle Bros., merchants, Nickleville, Pa.—For sale by C. F. Moore & Co. druggists.

FROM THE COUNTY PRESS. Reporter. Dr. E. E. Goucher and Walter Miller got home from British Columbia Saturday evening, looking bronzed and hearty, and had a pleasant summer outing if they didn't find much gold. Dr. Goucher's hair is a good deal whiter than it was April 9th, when they left McMinnville, but he explains it by saying that birds in the arctic climates turn white and he is a kind of a bird, anyway.

The board of equalization is in session this week. The principal event of their sitting was the appearance before them of Attorney W. D. Fenton of Portland in the interest of the Southern Pacific's taxes. Assessor Wood has raised the valuation \$300 per mile, and the railroad objected to the increase on the main line but not on the Newberg road. Reduction was granted to the former valuation on the main line.

A fine Cotswold ram reached John Redmond's place last Friday, which had been on the road from England since July. The first cost of the sheep, added to the charges for his transportation, amounted to \$111. Mr. Redmond spares neither pains nor money to improve the wool and mutton of the Willamette valley.

Transcript. The Red Cross society of this city are preparing to fit up rooms in this city and have a "Red Cross Home." It is their plan to have a "curio corner" filled with curios from the Philippines, and other attractions and relics of the war, and books and reading matter of all kinds, and keep the doors open during the day, that those who wish to call are very welcome. This plan is sure to create a great deal of interest among outsiders as well as members of the society.

Mr. Sydney Dorris, of Lafayette, a relative of Dr. Watts' was in the city one day last week, and came in for a chat. He reported the doctor to be getting along as well as could be expected from the effect of the injuries received in the railroad accident, some weeks since, but says the doctor will never fully recover, and will probably never be able to walk without crutches.

Three Doctors in Consultation.

From Benjamin Franklin. "When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best, to be chosen in the second place; what reason (i. e., Theory) says is best to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. For sale by C. F. Moore & Co.

Spanish Sentiment Regarding the Philippines. It is tolerably clear, from our examination of a large number of Spanish papers, that—the colonies having become so serious a burden—the Spanish people have made up their minds to lose them all without much further display of opposition. Cuba has always been the outlying possession for which the Spaniards felt a strong attachment. Having lost Cuba, and knowing that in any case they are certain to lose Manila, they look upon the whole series of beyond-sea island possessions as virtually surrendered. The Spanish commissioners at Paris will doubtless make a great show of haggling about the Philippines; but it will only be for the sake of gaining certain other advantages of detail in the working out of the treaty. If possible, in compensation for the Philippines they will endeavor to devolve upon Cuba or this country a part of the so-called Cuban debt, and they will also try to make saving stipulations regarding the vast property holdings of the monastic orders in the Philippines. But there remains no considerable body of public sentiment in Spain that demands the retention of sovereign rights over any portion of the Philippine Islands. The inevitable has already been accepted.—From "The Progress of the World" in American Monthly Review of Reviews for October.
