Armory hall has been somewhat improved in appearance by putting in recently painted stage scenery and making some other changes. The next best thing the owners can do is to put in some better seats, and then they might follow this up by changing the name of the hall as there never has been, neither is there likely to be an "armory" in Newberg. Kruger's hall would sound a whole lot better than the name the hall has been known by.

The stockholders of the Bank of Newberg held their annual meeting last Monday. The cashier's report showing the condition of the business at the close of the year, which will be found in this issue of the Graphic, was very satisfactory to the stockholders, since it showed the business of the bank to be in keeping with the increased prosperity of the country. The officers and board of directors elected were the same as last year.

How to Prevent Pneumonia. You are perhaps aware that pneumonia always results from a cold or from an attack of the grippe. During the epidemic of the grippe a few years ago when so many cases resulted in pneumonia, it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or the grippe to result in that dangerous disease. It is the best remedy in the world for bad colds or the grippe. Every bottle warranted. For sale by C. F. Moore & Co., druggists.

A Fine Piece of Color Work. An experienced art critic gives it as his opinion that there will be no handsomer piece of color work issued this year than Hood's Sarsaparilla Calendar for 1899. It is not only useful, but artistic and beautiful, and up to date.

TO CHANGE LOCATIONS. Wolff & Zwicker Arrange to Buy Linnton Property.

The Wolff & Zwicker iron works, through its president, F. Wolff, and its secretary, F. L. Zimmerman, yesterday signed a contract with Wm. Selover for the purchase of a tract of land at Linnton having a frontage of about 1000 feet on the Willamette river, and extending back nearly to the line of the Northern Pacific railroad, comprising about 10 acres, to which Messrs. Wolff & Zwicker propose to move their shipbuilding plant as soon as practicable. The tract is admirably adapted for a site for shipbuilding works, being so high that it is never covered by floods, and having 69 feet of water in front, the railroad on one side and the river on the other, giving all required facilities for transportation that could be desired.

The negotiations for the purchase of "Schilling's Best" wouldn't it be surprising if Schilling's Best were all the very best there are? Your grocer pays you your money back if you don't like them. Schilling's Best will justify you in going to the trouble of asking your grocer for them and of getting your money back if you don't happen to like any of them. Schilling's Best lemon is 20 to 30 times as strong as common flavoring extracts. Try a drop in a tumbler of water. Money-back.

this property have been in progress for the past two months, and their consummation so early in the year is the most important transaction that has taken place here for some time, and is a forerunner of the great things to be accomplished here within the next 12 months. The filing of supplementary articles of incorporation of the Wolff & Zwicker iron works, a few days since, increasing the capital stock of the company from \$100,000 to \$500,000, and also providing for engaging in the business of construction, owning and operating dry-docks, floating docks, and ship and marine railways, in addition to the present enterprise of operating iron works and shipyards, was a preliminary to the purchase of this new site for the works.

The change was rendered necessary in order to secure room and deep-water frontage requisite in the construction of large vessels, the present site being too contracted, and the depth of water in front insufficient. The new location is one of the best in this vicinity for a drydock, or for the operation of floating docks, and if all goes well, it may be expected that works will be in operation at Linnton which in the near future will furnish employment to several hundred men.—Ex.
