Cromer's Plain Words at Khartoum-Rhodes Plans a Cape Town-Cairo Railroad.

London, Jan. 10 .- All events seem to work together in European politics fever. to increase the tension between Great Britain and France. The past week has brought Madagascar and Egypt forward as irritants just when the mutual irritability was subsiding. Even the nost conservative observers begin to take a pessimistic view of the relations between the two powers. This in-France and to the unnecessary gruffinsisting on what she considers to be be barred. her rights.

The past 24 hours brought the pubwas followed by a leading editorial in guage so fiery for that conservative the two together and are construing them as parts of a deliberate policy inspired by one mind. That mind, in the theory of the man in the streets, is Joseph Chamberlain, the secretary of state for colonies. Other papers may storm and scold and not be noticed, but when the Times becomes abusive, foreigners interpret it as being the voice of the government. In the present instance, some Englishmen will place the same construction upon its utterances, recalling how the Times led the "no surrender" cry over the Fashoda incident, under evident inspiration.

One fact is certain, public opinion in Great Britain will not sanction the government to swerve an inch to avoid war with France, thinking that if it must come this is the best time to have

Many people give importance to the issuing of the Madagascar blue book almost simultaneously with the quiet but unmistakable announcement at Khartoum by the British agent there, Viscount Cromer, in his remarks to the shiekhs, that Great Britain has set her close the mortgage upon which she has government's mouthpiece carefully abstained from using that incendiary word. A more definite notice that Great Britain's tenure of Egypt is per-

manent could not be asked. In the meantime an enterprise of the utmost moment in the furtherance of Great Britain's domination in Africa is about to be consummated. Rhodes, the ex-premier and alleged instigator of the Jameson said, and the so-called "Napoleon of South Africa." is going to England to arrange for pushing forward the Cape Town-Cairo railroad, so long the dearest dream of imperialists. A definite proposition will be presented by Mr. Rhodes to London capitalists for an extension of the railroad from Buluwavo to Lake Tanganika. He does not pretend it will be a paying investment from the start. Its importance for some years will be political instead of commercial, and he hopes to persuade the British government to smooth the way by guaranteeing 31/2 per cent interest on the bonds to cover the cost of construction. But one barrier stands in the way, in the form of the Congo convention, guaranteeing neutrality of the part of the continent about Lake Tanganvika, which even the autocrat of Rhodesia will find hard to force. Here Germany has the veto on Great Britain's advance, which she cannot be expected to waive without an indem-

service reformers scored a victory in the house today. The executive legis-lative and judicial appropriation bill was taken up for consideration, and then, when the appropriation for the civil service commission was reached, Evans made a motion to strike it out. This motion has been made annually for a dozen years or more, but invariably failed. But today the opponents of the law laid great stress on the fact that they could not get a decisive vote upon the proposition, and were there fore compelled to seek its nullification in this manner. Even these appeals failed to bring out the full strength of the opposition, though the motion to Cairo to the Exchange Telegraph Comstrike out carried by a narrow margin, 67 to 61. This was in committee of the whole, where no record was made of the vote.
