No healthy person need fear any dangerous consequences from an attack of the grippe if properly treated. It is much the same as a severe cold and requires precisely the same treatment. College has been closed during the week owing to the fact that little Jennie M'Gregor was taken down at the boarding hall with scarlet fever. She was held in high esteem by her schoolmates and others who knew her and all will join in wishing her a very happy voyage in her new sphere of life.

W. N. Sutton who went to Los Angeles a few weeks ago for rest and recreation and Hon. Calvin Stanley who went to the same place nearly a year ago arrived home last Saturday evening. A loss of some thirty-five pounds of flesh has a tendency to make Mr. Stanley's clothes hang rather loosely about his body but he appears to be in good health. To assure Californians who seem to be very scared about our Oregon rains, he says that when they asked him how many inches of rainfall we have in Oregon during the year he always told them that we figured it in feet up here and not in inches at all, and that anything short of half a foot of rainfall was never taken into account.

The following Manila mail schedule which has been announced for January will no doubt be of interest to a number of the readers of the Graphic: The first mail steamer for the Orient sails from Seattle, January 11; the next sails from San Francisco on January 17; one sails from San Francisco on the 25th, and one from Vancouver, B. C., on January 30. Letters to Manila require a 5-cent stamp for each half ounce, and must be marked via Hong Kong if intended to go by any of the steamers above named. Letters will be taken by United States transports for 2 cents, but there is no certainty when the transports will go out. It is surer to pay the extra 3 cents and catch the regular mail steamers.

Last Sunday's Oregonian says: The Willamette river steamer Elmore limped back to port last evening in a badly demoralized condition, the result of colliding with the rocks at Riskey's point, a short distance above Oswego. The accident happened when the steamer was bound up the river Friday morning. There is a very sharp bend in the river, and a treacherous eddy, which makes navigation difficult at all times. The Elmore got too close in and was carried against the rocks with a force that broke a hole in her hull, mostly above the water-line, and also smashed a portion of her house and wheel. She hung on the rocks until yesterday, when another one of the boats was sent to her assistance. The repairs will be quickly made, and the boat will be on the route again very soon.

S., and will speak on "The Transfer of the Flags." The address will be a very instructive and interesting one historically, and particularly appropriate in these days of expansion ideas. By ORDER OF THE DIRECTORS. How to Prevent Pneumonia. You are perhaps aware that pneumonia always results from a cold or from an attack of la grippe. During the epidemic of la grippe a few years ago when so many cases resulted in pneumonia, it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or la grippe to result in that dangerous disease. It is the best remedy in the world for bad colds or la grippe. Every bottle warranted. For sale by C. F. Moore & Co., druggists.

REPORTERS. One of our men started to measure a hole in the river here a few days ago, but the water was most too cold and he backed out with the help of a pike pole and rafting line. We think he would make a good "bubble cuffer" if he could keep his hands still and his feet was not so big.

We will be pleased to have any of our friends call up and see our "donkey" handle the big balm logs, three and four at a time. I tell you he is immense, but we are sorry to say he is stuck high and dry on the bank, and we do not hear him "bray" morning noon and night.

Sunday morning after the "Billy" Hoag had passed down the cry of "here comes a log," brought us all out of the house, when it was seen that the swell of the steamer had pulled the dogs out of a dozen big balm logs that we rafted above camp and they were scattered over the river headed down stream. Several of our brave boys hurried into their shoes and hats and overtook the runaway.

That Newberg girl had better look out for her Johnny boy, for there is a girl up in the foot hills who we think holds

C. C. Cady had his family out sleigh riding last week. It called to mind old times, the creaking of the sleigh runners over the frozen road, the merry

songs of boys and girls, and the musical jingle of sleigh bells.

The music given in favor of a select crowd last Saturday night by Mr. Blum and his musical guests was beyond description. Only talented enthusiasts can produce such harmonious strains. We do thoroughly appreciate the kind favor conferred upon a music hungry people, and sincerely hope the gentlemen will meet again in our midst, and we have the benefit of another musical evening.

Miss Crawford took Miss Emma Olds' place in the schoolroom last week, Miss Olds not being able to teach her room. The lodges in town all installed their new officers last week, some with dyspeptic suppers while others were less pretentious.

The L. O. O. F. and A. O. U. W. have each put in acetylene plants in their halls which appear to be giving good satisfaction. Several from here attended memorial services last Sunday in McMinnville held by the A. O. U. W. of that city in honor of Elmer Miller who died at Manila. The address was delivered by Judge Pipes of Portland and was an excellent one.

George Covert who got his foot so badly hurt at the locks last fall is now able to be on the street on crutches. POSEY. Spaulding's Camp.

Mr. Hammer visited at town, Salem, over Sunday. The boys are all back from their holiday lay off and business goes on as usual with a little variation for excitement.

John Dryer says he don't see what's the matter with the weather. "Rain and snow all do time an' river not raise Gosh!"

The majestic steamer "Valley Queen" Lon Hill's flagship passed up the river Sunday morning after a tow of logs, returning Monday.

We enjoy plenty of the luxuries of life here, such as good music, and excellent magazines to read, for which we are very thankful.

We have something we think no other camp on the river enjoys—a chaplain. Services begin every morning at 7 o'clock. Music extra.

C. C. Cady had his family out sleigh riding last week. It called to mind old times, the creaking of the sleigh runners over the frozen road, the merry

trump hand now. Sunday he wrote six letters and we will bet they were all to this country maiden, the 'tho' of course he won't admit it. We believe Miss Newberg could get a little help to her cause by calling at the head office and interviewing the typewriter. "Johnny's a nice young man."

Mr. Spaulding, B. C. Miles and Lon Hill were all visitors at camp last week. We are always glad to have these gentlemen call around and stop a few days with us. NEXT.

GENEROUS HELEN GOULD. It was she who Secretely Gave \$250,000 to New York University.

From the time of the laying of the cornerstone of the magnificent central building for the library of the University of the City of New York, the mystery as to who was the giver of the \$250,000 with which it is being erected has never been cleared up until now. When Chancellor McCracken announced the donation in May, 1898, he said that under the terms of the gift he was compelled to remain silent as to the donor. Since that time gifts of a silent donor have been announced of \$10,000 on April 3, 1898, and \$50,000 on June 17, 1898. These gifts have been attributed to Miss Helen Gould, and it is now stated by Miss Gould, but that the original \$250,000 came from her.

Chancellor McCracken was seen and asked if he would confirm the report that Miss Gould had furnished the money for the library. He replied: "I am not at liberty to say. When the gift was accepted it was with the pledge that no announcement of the donor should be made until the completion of the library. It is not completed yet, and I have not been released from the pledge. When the facts are made known it will be found that there is an interesting story in connection with the gift."

From other sources it was positively learned that the story alluded to by the chancellor was that it had been the intention of Jay Gould to leave an endowment for the university, but for some reason it was omitted from his will. His heirs, however, took the matter up, at the urgent request of Miss Helen, and the donation of \$250,000, was the result. Another gift by Miss Gould to the university of which little mention has been made was the erection of a residence for Charles H. Snow dean of the engineering department. Professor Snow married Miss Alice Northrup, a cousin of Miss Gould, in May, 1897. Miss Northrup had lived with Miss Gould from childhood and the two were more like sisters than cousins.

Beats the Klondike. Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from constipation, accompanied by hemorrhages, and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Trial bottles free at C. F. Moore & Co.'s drug store. Regular size 50c and \$1. Guaranteed to cure or price refunded.
