A Natural Error.
 Mr. Gotham (angrily)—What do you mean, sir, by saying in your paper that while at Albany I spent my time among the salmon?
 Editor—My dear sir, that was a printer's mistake. What I wrote was that you spent your time among the salmon, meaning, of course, the members of the state legislature.

Mr. Gotham—Huh! That was a strange mistake for a printer to make.
 Editor—Well, you see, sir, the printer used the word in Albany, and—er—I suppose it comes sort of natural to him to get such words as salmon and salmon mixed up.—N. Y. Weekly.

NO WOMAN IS EXEMPT.

Regularity is a matter of importance in every woman's life. Much pain is, however, endured in the belief that it is necessary and not alarming, when in truth it is all wrong and indicates derangement that may cause serious trouble.

Excessive monthly pain itself will enfeeble the nerves and make women old before their time.

The foundation of woman's health is a perfectly normal and regular performance of nature's function. The statement we print from Miss GERTRUDE SIKES, of Eldred, Pa., is echoed in every city, town and hamlet in this country. Read what she says:

"DEAR MRS. PINKHAM—I feel like a new person since following your advice, and think it is my duty to let the public know the good your remedies have done me. My troubles were painful menstruation and leucorrhoea. I was nervous and had spells of being confused. Before using your remedies I never had any faith in patent medicines. I now wish to say that I never had anything do me so much good for painful menstruation as Lydia E. Pinkham's Vegetable Compound, also would say that your Sanative Wash has cured me of leucorrhoea. I hope these few words may help suffering women."

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year.

All suffering women are invited to write freely to Mrs. Pinkham, at Lynn, Mass., for advice about their health.

To Freeze Out Americans.
 The government measure recently enacted into law and aimed at the Americans in the Atlin district, provides for the amendment of the placer mining act, providing that no one who is not a British subject shall take out a free miner's license, and that no company shall have the same license unless incorporated or registered under the laws of the province. The act is not retrospective. Licenses taken out previously may be renewed, but under a renewed license no one is entitled to take up new claims. Section 5, which is the most far-reaching, provides that no free miner after the passage of this act shall hold any claim under the British Columbia placer mining act or an interest therein as trustee or otherwise for any person who is not a British subject, or for any corporation not authorized to take out a free miner's certificate.

A miner's license taken out by any person not authorized to do so by this section shall be null and void. This section shall not affect free miners' licenses issued before the coming into force of this section, and such licenses may be renewed from time to time. The only necessities for a person to become naturalized are that the applicant is a person of good character and has resided in the Dominion for three years.

Arm Chair of Solid Gold.
 The shah of Persia owns the most valuable arm-chair in the world. It is of solid gold, inlaid with precious stones. At one time some of the stones were stolen from one of the legs of the chair, and the shah ordered the arrest of a number of his servants and held the keeper of the furniture responsible for the loss, with the intimation that if the thief were not discovered the keeper would be beheaded. The culprit being eventually found, was forthwith beheaded and his head carried to a pole by the imperial body guard through the streets of Teheran.

After-Effects of the Grip

Grip is a treacherous disease. You think it is cured and the slightest cold brings on a relapse.

Its victims are always left in a weakened condition—blood impure and impoverished; nerves shattered. Pneumonia, heart disease and nervous prostration are often the result.

Dr. Williams' Pink Pills for Pale People will drive every trace of the poisonous germs from the system, build up and enrich the blood and strengthen the nerves. A trial will prove this. Read the evidence:

When the grip first visited this section Herman H. Epler, 671 W. Main St., Jefferson, Mo., a well-known contractor and builder was one of the victims. He has since been troubled with the after-effects of the disease. A year ago his health began to fail, and he was obliged to discontinue work. That he lives to-day is almost a miracle. He says:

"I was troubled with shortness of breath, palpitation of the heart and general debility. My back ached and my nerves were so sore that I could not sleep. I tried one doctor after another and numerous remedies suggested by my friends, but without apparent benefit, and I began to give up hope. Then I saw Dr. Williams' Pink Pills for Pale People in a newspaper. I bought a box and after investigation decided to give them a trial."

"After using the first box I felt wonderfully relieved and was satisfied that the pills were putting me on the road to recovery. I bought two more boxes and continued to use them, and having the will and energy of my former days returned, I am enabled to transact my business with increased alacrity."

"Dr. Williams' Pink Pills for Pale People are a wonderful medicine and any one suffering from the after-effects of the grip will find that these pills are the specific."
 Mr. Epler will gladly answer any inquiry regarding this if stamp is enclosed.—From Col. Co. Democrat, Jefferson City, Mo.
