The man without a country is in about the same fix as the fellow who has lost most of his teeth. What the latter wants and must have to exist is nice juicy steaks and roasts, just such as are sold at Cooper & Clemmens' market.

President Newlin, on his arrival home may be addressed as "the gentleman from Cork" as he is now making a tour of old Ireland, where they grow "Blarney stones" and manufacture the only pure linen table cloths in the wide, wide world, bedad.

Rev. J. H. Douglas, who was down from McMinnville last Saturday and Sunday to attend Friends quarterly meeting, said that he intended to leave in a few days for Southern California with a view of looking after the property which he recently traded for at Pasadena and Whittier.

J. L. Hoskins who has taken pretty much everything in sight at home with his black minora chickens, is looking about for other worlds to conquer. B. F. Hevland of LaFayette, who is quite extensively engaged in the manufacture of handles for axes and other edged tools, was in town Monday and Tuesday visiting with J. W. Vaughan. He has partially arranged to move to Newberg with his business and will come as soon as he can clean up some contracts he has on hand.

The onion growers down about Tualatin appreciate the value of manure so much that they are shipping in stable manure from various points along the railroad. They cleaned up everything about Smith's livery barn this week. Farmers who are contemplating moving their barns to get away from the accumulation of waste matter, might profit by the example of the onion growers, who claim that a carload of stable manure will increase the productivity of the land on which it is placed to the mount of two hundred sacks of onions.

He was one of the founders of the bank and on the death of Benjamin Miles, the first president, he was elected president, a position which he has held continuously ever since. Through the long period of financial depression when banks were failing all over the country Mr. Edwards, assisted by B. C. Miles, the efficient cashier, watched every interest of the Bank of Newberg and steered the business safely over the crisis. He now retires from the bank, leaving the business in excellent condition, to devote his entire time and attention to the brick factory, the business of which has increased with the returning prosperity to such an extent that he has no time to devote to any other business. For the present, N. E. Britt, the vice-president, who is well known as a careful business man will act in the capacity of president of the bank.

"All is not gold that glitters," neither is gold the only big product of Alaska, judging from E. W. Weener's fish story which is published this week.

O. J. Hobson came down from McMinnville last Friday night to attend the oratorical contest. He was one of the judges on the papers and he wanted to be present to witness the final test.

The rapidity with which old Sol is shortening up the nights and stretching out the hours of daylight has quite a tendency to curtail the revenues of the Standard Oil Company, as well as to remind us that springtime is not far in the future.

Some young fellows who can scarcely earn enough to pay their "board and keep" stick to the tobacco habit as though their lives depended on it. Like the grip it is hard to shake off when it once gets its clutches on a young fellow and the wise course for every lad to pursue is to refuse to take the first chew.

F. H. Storey while making an examination of the fire hydrants in town one day this week found one on Wynoski street that had been battered up by some one, apparently with an ax, so that the wrench could not be applied. The law would not deal lightly with the guilty party could the act of vandalism be proven.

John Bristow is figuring on making some substantial improvements on his lots in town this spring and judging from the smile he is wearing of late it is likely that there is a woman in the case. John is thrifty and he will no doubt make a good provider when he settles down with a good helpmeet to battle with the stern realities of life.

Morris, foreman; Henry Clemmens, first assistant; Jay Heath, second assistant; F. H. Storey, chief of department. The company is arranging to give a public entertainment in the near future. Watch for announcements.

Fred McDonald left here on Thursday morning for San Francisco with the intention of joining the navy at Mare Island. If some Newberg school teacher had only larruped Fred while he was in school here it probably would not have done Fred good but the name of the teacher might have been heralded over the land in the future, all the same as the New England schoolmaster who has recently come to the front as the man who used a hazel on Admiral Dewey when the latter was an obstreperous youth.

Young Graves, of Springbrook, gave a free exhibition on First street one evening last week that was rather laughable when it was found that he was not hurt. He was riding up the street at a brisk trot and when opposite Moore's drug store his horse stumbled and fell, turning a complete somersault with the rider underneath. Both the horse and rider got up, neither being hurt in the least but young Graves' face, as he stood there taking an inventory of himself and his personal effects, would have been a good subject for an artist. He was covered with Yamhill soil of a dark rich color from head to foot but he dug the mud from his eyes and finished his errand in town before returning home.

J. T. Smith, who has been battling against a stubborn attack of the grip for the past four weeks is now able to step outside, when the sun shines, long enough to test the shadow he casts, which his friends regret to say is somewhat disappointing for he looks a good deal like a late calf that has been poorly wintered. He has pulled through the worst however and will soon be on deck again.

Dangers of the Grip.

The greatest dangers from la grippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe we have yet to learn of a single case having resulted in pneumonia which shows conclusively that this remedy is a certain preventative of that dangerous disease. It will cure la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by C. F. Moore & Co. druggists.

An Honest Remedy for La Grippe.

George W. Walt of South Gardiner, Me., says: "I have had the worst cough, cold, chills and grip and have taken lots of trash of no account but profit to the vendor. Chamberlain's Cough Remedy is the only thing that has done any good whatever. I have used one 50-cent bottle and the chills, cold and grip have all left me. I congratulate the manufacturers of an honest medicine." For sale by C. F. Moore & Co.
