A. L. Stevens is taking anti-fat and gaining about six pounds a month on the diet. If this sort of expansion continues very long in his case his reputation as a populist will be materially injured. Better try a change of pasture Mr. Stevens.

I don't claim to be the only photographer in the country but I claim to give satisfaction and this claim I desire to make good in each and every instance. C. W. Wheeler, general lecturer for the Woodmen of the World, will deliver a fraternal lecture on the evening of the 30th of March at Armory hall. Neighbor Wheeler is the most eloquent lecturer on the fraternal platform in the west, and those who fail to hear him will miss a rare treat.

Charley Baker, formerly of Newberg, commenced at the bottom of the ladder with an electric railway company in Missouri and by sticking close to business he has ascended to the top. He has been promoted from time to time until he now occupies the responsible position of superintendent of the whole line. The main line which runs from Carthage, Missouri, to Galena, Kansas, is thirty miles in length and there are numerous branch lines. Charley's Newberg friends are glad to know that he is on top.

The Hevland brothers moved down from Lafayette last week and are getting ready for business. They have rented the building on Center street back of the crematory for their shop where they will begin the manufacture of handles for all kinds of tools. There is an abundance of good timber suitable for this business in this community and they ought to be able to build up a large and profitable business in this line. Oregon ought to stop sending out of the state for such things as can be manufactured at home.

The fire bell now being used by the city of Newberg is a pure bell metal weighing about 700 lbs. and costing \$180.00. Less than a year ago when the Fire Department was organized, the firemen, seeing the need of a bell, started out to raise money to buy one. By giving entertainments, socials etc. quite an amount was raised which was paid on the bell ordered and a note given for the balance, each fireman signing the note individually. At present the boys have this note nearly paid. When it is all paid the bell will be presented to the city through the council. Come out Friday March 24 and hasten the presentation.

E. V. LITTLEFIELD, Supt.

Eli Evans has bought the Holt land adjoining the college grounds on the northeast. Since closing the deal he has sold a four acre piece laying on the north of the railroad to J. L. Hoskins.

A number of Newberg Woodmen who went to Sherwood last Saturday night to help organize a camp footed it home on Sunday. As a result of the tramp Luther Charles has been laid up with rheumatism in his ankle all week.

J. S. Holt has bills out announcing a sale of his personal property at public auction to take place on Saturday, April 1, at 2 o'clock in the afternoon. They have decided to join their son Ed at Oakesale, Washington, who is well pleased with that country. Sorry to see them leave Newberg.

Mrs. Louisa P. Round, of Monroe, Benton county, who is engaged in field work for the W.C.T.U. in the interest of dumb animals, preached a very interesting sermon at Friends church on last Sunday morning, which, judging from the close attention given was highly appreciated by the large audience in attendance.

Last week Lin Parker sold his stock of shoes and hats to Sutton, Calkins & Co. and then bought Wm. Clemenson's interest in the stock of the above named firm. The stock was moved across the street, Mr. Parker took his place in the store and things are moving along as smoothly as if nothing out of the usual order had taken place. Mr. Clemenson will leave the first of the week for Lewiston, Idaho, and will probably take in the "Buffalo Hump" country before he settles down to business again.

The gravel which was put on First street several years ago transformed a street of mud into a splendid thoroughfare which has held its own up to the present time. A great deal of dirt has been worked up into the grade which makes it sloppy on top but it still holds up the heaviest loads. If this street could have another moderate coating of gravel this season it would be all it would require for years to come but it is doubtful about the council feeling free to incur the necessary expense at present.

C. W. Lawson says that since reading the article in the Graphic in which the necessity of a road to a gravel bar on the river was urged he has considered the matter and has concluded that he will offer to allow such a road, twenty feet in width, to run through his land for this purpose and he feels sure J. P. Thomas will make the same offer. With this matter settled, Mr. Haggy should be seen with reference to the bar on the river. The Graphic is fully convinced that a public road to the river at a point opposite Ash Island is the best solution to the gravel problem that can be offered.

On Thursday evening of last week, by invitation of Dr. and Mrs. Rossiter, a large number of their friends and neighbors came in a body to spend a social evening in their home with Rev. and Mrs. Geo. H. Bennett, their former highly esteemed pastor and wife. It was a delightful surprise to Mr. and Mrs. Bennett as it had been arranged without their knowledge. About fifty were present, and all proceeded at once to help to make it a very pleasant evening. It was a great treat to their friends to meet in the pleasant manner made possible by the hospitality of Dr. and Mrs. Rossiter, their former pastor and helpful friend. After a time of greeting, music, games and merrymaking, Mrs. Rossiter led the way to the dining room, where, at her well loaded tables, she treated the guests to a most delightful repast. The evening closed with many expressions of real appreciation of the kind hospitality of Dr. and Mrs. Rossiter on the part of the guests, and hearty good wishes for Rev. and Mrs. Bennett.

John I. Hadley, of Springbrook, says he finds that his early varieties of peaches were damaged but little by the freeze and he has a good prospect so far for a crop. The Crawfords suffered the worst. The writer has a peach tree in town that shows a number of live buds, so it seems that the peach buds are not all killed.

Hon. Clarence Butt says it was the intention of the Yamhill delegation in the legislature to have Yamhill county placed in the list of counties that were exempted from the bicycle tax and they thought such action was taken, but owing to the confusion incident to the closing hours of the session it seems that Yamhill was listed with the other counties. A bicycle tax for building bike paths in this county would be money thrown away and it is likely that the county court will not order the assessment made.

In a community not many miles from Newberg where a minister has been giving his services free as an expounder of the gospel for some time, the good people, who were met together recently, after having decided that it would be the proper thing to make a donation to the minister by way of showing their appreciation of his services in their behalf, were discussing the question as to what would be the best thing they could choose to present to him, when a good sister of a practical turn of mind suggested that a new set of tooth teeth would be about the proper thing. Who says this is not a progressive age? Now the usual thing in such cases is to give the preacher a Bible although he may have a half dozen good ones in stock, but here was a sister who was able to grasp the situation and suggest something that it is necessary for every minister to have, for the chicken is sometimes a little aged and inclined to be tough.

G. M. Bales is thinking seriously of seeking a new location in California. As he has a good business here in his shoe shop he is liable to go farther and fare worse than to remain in Newberg.

President Newlin arrived in New York city last Saturday on his way home from England and he is expected to arrive in Newberg some time the first of next week with his family. They have been away since last July and they will be given a warm welcome on their arrival home. Arrangements are being made for a reception to be held at Friends church soon after their arrival to which the public will be cordially invited.

Prof. Morrison's scientific lecture at the college on last Saturday evening was well worth double the price of admission. He had gone to a great deal of trouble and incurred some expense in fixing his acetylene lighting plant up in the room and in moving a stock of chemicals from the laboratory in order to make a number of experiments for the benefit of the audience, all of which worked satisfactorily, a thing which chemicals don't always do when in the hands of a lecturer before an audience. Prof. Morrison is at home in the laboratory and he is able to talk science in an entertaining way before an audience. His lecture was well worthy a much larger audience than was present on this occasion, yet the lack in this particular did not deter him in the least from entering into the spirit of his subject with his characteristic zeal and earnestness.

NEARLY FIFTY-EIGHT YEARS OLD ! !

It's a long life, but devotion to the true interests and prosperity of the American People has won for it new friends as the years rolled by and the original members of its family passed to their reward, and these admirers are loyal and steadfast today, with faith in its teachings, and confidence in the information which it brings to their homes and firesides.

As a natural consequence it enjoys in its old age all the vitality and vigor of youth, strengthened and ripened by the experiences of over half a century.

It is "The New-York Weekly Tribune," acknowledged the country over as the leading National Family Newspaper.

Recognizing its value to those who desire all the news of the State and Nation, the publisher of "The Graphic" (your own favorite home paper) has entered into an alliance with "The New-York Weekly Tribune" which enables him to furnish both papers at the trifling cost of \$1.50 per year.

Every farmer and every villager owes to himself, to his family, and to the community in which he lives a cordial support of his local newspaper, as it works constantly and untiringly for his interests in every way, brings to his home all the news and happenings of his neighborhood, the doings of his friends, the condition and prospects for different crops, the prices in home markets, and, in fact, is a weekly visitor which should be found in every wide awake, progressive family.

Just think of it! Both these papers for \$1.50 a year.
