

NEWBERG GRAPHIC.

ISSUED EVERY FRIDAY MORNING.

W. W. WOODWARD, EDITOR & PUBLISHER.

FRIDAY, APRIL 14, 1899.

Entered as second-class matter at the postoffice at Newberg, Oregon.

Don't repeal the curfew law but enforce it.

The country seems to be bearing up pretty well under the "iniquitous burden of the gold standard."

Under the new management the Roseburg Plasterer has been enlarged and very much improved in appearance.

The season for planting shade trees is at hand. If you have no shade trees in front of your residence don't delay the planting of some.

One momentous question seems to be pretty well settled by the beef investigating committee, viz: That "exposed meat will spoil in a warm, moist climate."

The editor of the Graphic rides a wheel and he don't own a horse or wagon, but he is interested in good wagon roads much more than he is in bicycle paths.

A Southern California exchange advocates the use of oil in the sprinkling of streets in that country. It is an economy to use oil for street sprinkling down there but here in Oregon water is cheaper.

Ex Senator Tabor, of Colorado, who was once reputed to be worth five or six million dollars, and who spent his money lavishly, wearing \$150 night shirts and other tatters to correspond, died recently in Denver a poor man. Too much speculation in mines.

An effort is being made to get the curfew ordinance repealed. The Graphic thinks this is a mistake. Newberg, like every other town, has some parents who need assistance in the care of their boys of evenings. This ought not to be of course, but it is true, and the curfew ordinance ought to be strictly enforced.

The McMinnville city council is getting down to business now and matters are being handled without gloves. At least a couple of the members started in to settle a matter that way at a recent meeting of the council but they were parted below it was fully determined who was the best man.

The citizens of Woodburn who made such a fight in the interest of licensed saloons for their town of 1000 inhabitants ought to be pretty well satisfied now, since three vendors of bug juice are already licensed under the new ordinance to set up shop. In the language of the old lady in the "Hoosier Schoolmaster" "git a plenty while you'r a git-in" says L.

Misfortune is quite often the means of bringing out and causing the development of the best faculties that are in the individual. Frankie Richter, a little blind boy of Portland who excels as a pianist was recently engaged by W. Toor for an Eastern concert company for a season at \$100 per month. The company is playing in Chicago at present but later they will make a tour of Europe. It was through the efforts of Mrs. Simon Harris, of Portland, who took a great interest in the poor blind boy after hearing him play, that he was given a chance to show to the music loving world what he could do.

The Eugene bicycle club favors using the money which will accrue from the bicycle tax in improving the wagon roads of the county. The Graphic would favor the same move in this county and it also believes that a law should be passed at the next session of the legislature phasing an additional tax of \$1.25 on every vehicle that is used on the roads. A tax of \$1.25 on bicycles and all other wheeled vehicles that travel the roads would bring in a sufficient income to put the roads in good condition. Every man who travels the public roads could very well afford to pay \$1.25 a year in addition to what he is already paying in order to have the roads put in better condition for travel. The fact is the average tax payer gets off easy on road work, considering the great advantage good roads are to him.

It is usually commendable to be found in the lead in a race and this is the position Yamhill county usually occupies, but a glance at the table given below will show that in the matter of taxes for the assessment of 1898 Yamhill is at the tail end of the list with a 16-10 mill tax while all the other counties in the state whistle on a higher key.

Blaker..... 29 8-10

Benton..... 23 5-10

Clackamas..... 28

Crook..... 23

Lane..... 29

Lake..... 22 7-10

Table with 2 columns: County Name and Tax Rate. Includes Lincoln, Marion, Malheur, Multnomah, Morrow, Polk, Sherman, Tillamook, Union, Yamhill, etc.

The Rural Northwest says: At the dairy meeting recently held in Portland one of the speakers repeated the trite saying, "what has been can be done."

It is a good saying to repeat, especially in reference to dairying. It is especially easy in dairying, to see that the difference between profit and loss depends upon the man and not upon circumstances beyond human control.

The season for planting shade trees is at hand. If you have no shade trees in front of your residence don't delay the planting of some.

One momentous question seems to be pretty well settled by the beef investigating committee, viz: That "exposed meat will spoil in a warm, moist climate."

The editor of the Graphic rides a wheel and he don't own a horse or wagon, but he is interested in good wagon roads much more than he is in bicycle paths.

A Few Pointers. The women of Newberg have organized a Village Improvement Club, and are trying to do some things that they hope will be helpful to the town; but there are many things they cannot do unaided, so they come asking the fathers, sons and brothers, to do their part in the good work.

The whole town needs to be educated along this line if success is to crown our efforts, and by all working together we can soon make changes that will surprise ourselves and set an example to our near by neighbors.

Let us begin with the side walks. We are told they are hard to keep in repair, which may be true, but, if the holes that a small piece of a board, a few nails and five minutes time would mend, and were promptly attended to, it would make a vast difference in the looks of the place and add greatly to the comfort and safety of all citizens.

Next we hope the time is near when each man and boy will be so trained, that old boards, rails, tin cans, paper or rubbish of any kind along the street or vacant lots will be such an offense to his eyes that he will be glad to do his part to help remove them.

The coming summer will bring thousands of visitors to the Coast, and we hope to see some of them in Newberg. Why not try to make our town so attractive that some will decide to locate here? We want a share of the immigration and can get it if we are willing to work for it.

Should we plant more shade trees and try to save a few of the native trees that are left. Many beautiful spots have been lost to the town because trees and shrubbery have been needlessly destroyed and we hope, hereafter no oak or other fine trees will be cut down unless there is a necessity for it.

A New Obstacle.

The old obstacles that used to prevent the marriage of loving couples are out of date. The blood-and-thunder villain is a myth nowadays. The cruel father is only a tradition. Distance, absence and shipwreck in these days of cheap, safe and swift transportation do not count. The new obstacle is a common sense one. It is ill-health on one side or the other, and sometimes on both.

Men nowadays hesitate to marry a woman, no matter how beautiful, no matter how attractive, or interesting, or witty, if she is a sufferer from ill-health. All men worth having desire happy, healthy children. Any woman who will, may fit herself for the duties of wifehood and the exalted function of motherhood. Dr. Pierce's Favorite Prescription business all hindrance in the nature of local ill-health. It gives health, power and capacity to the delicate and impotent organs concerned in wifehood and maternity. It corrects all displacements, allays inflammation, heals ulceration, stops exhausting drains and soothes pain. It prepares for natural, healthy motherhood. It makes maternity easy and safe and all-weather. It insures a new-comer constitutionally strong and able to withstand the usual ills of babyhood. It is the greatest of nerve tonics and restoratives. Medicine dealers sell it and an honest dealer will not urge a substitute upon you.

"After suffering untold tortures," writes Mrs. J. Ferguson of Box 29, Douglas Station, Selkirk Co., Montana, "I thank God I found relief and cure in Dr. Pierce's Favorite Prescription."

The profit side of life is health. The balance is written in the rich, red, pure blood of health. Dr. Pierce's Pleasant Pellets cure constipation and make the blood rich and pure. They never gripe. By druggists.

FIFTY-EIGHT YEARS OLD ! !

It's a long life, but devotion to the true interests and prosperity of the American People has won for it new friends as the years rolled by and the original members of its family passed to their reward, and these admirers are loyal and steadfast today, with faith in its teachings, and confidence in the information which it brings to their homes and firesides. As a natural consequence it enjoys in its old age all the vitality and vigor of youth, strengthened and ripened by the experiences of over half a century. It is "The New-York Weekly Tribune," acknowledged the country over as the leading National Family Newspaper. Recognizing its value to those who desire all the news of the State and Nation, the publisher of "The Graphic" (your own favorite home paper) has entered into an alliance with "The New-York Weekly Tribune" which enables him to furnish both papers at the trifling cost of \$1.50 per year. Every farmer and every villager owes to himself, to his family, and to the community in which he lives a cordial support of his local newspaper, as it works constantly and untiringly for his interests in every way, brings to his home all the news and happenings of his neighborhood, the doings of his friends, the condition and prospects for different crops, the prices in home markets, and, in fact, is a weekly visitor which should be found in every wide awake, progressive family. Just think of it! Both these papers for \$1.50 a year. Send all subscriptions to

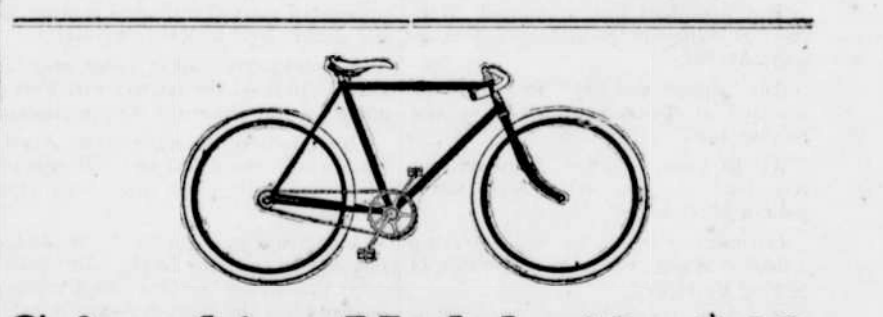

The Graphic, Newberg, Oregon.
