Chas. F. Burrows, Otta Pickett and Leon Kenworthy will go to Monmouth today to debate the question: "Resolved that the United States should enter into an alliance with Great Britain," with a like number of students from the State Normal school of Monmouth. Success to the boys.

The sound of the saw and the hammer, which is always music to the ear, as it is a good indication of thrift and a new order of things, is likely to be heard throughout the season in and around Newberg. Beside the new buildings that are already under way William Everett has let a contract to W. H. Morris for the building of a new residence on his farm a half mile east of town. Rev. Joseph Hall has in contemplation the building of a residence on his fruit tract which he bought of Mr. Everett. J. C. McCrea is arranging to build a fine residence at the foot of River street and indications point to the fact that this will be a busy season for our carpenters.

Chance McCormick, of Laurel and Miss Anna Jones, daughter of W. J. Jones, drove to McMinnville on Wednesday where they were married. Frank Jones and Miss McCormick went with them and it was supposed that there would be a double wedding but it appears that Frank's courage failed him at the last minute, he being young and rather timid.

Saturday promises to be a very busy day in Newberg. The county Christian Endeavor convention will be held at the Friends church beginning with a meeting on Friday evening, and the teachers institute will open at the public school building on Saturday morning at 10 o'clock. On Saturday night the two conventions will meet together, when an address will be given by State Superintendent of Public Instruction, J. H. Ackerman.

Savonarri postal cards are now a great fal and Oregon is not to be outdone. A beautiful card has been prepared and put up in packages of ten. On the address side each one has a good lithograph picture of Mount Hood while on the other side each one has a different picture, all of Oregon scenery, including Multnomah Falls, Rooster Rock, Salmon fishing on the Columbia etc. A few packages for sale at fifteen cents per pack at the postoffice.

J. B. David who has been away most of the winter and spring doing contract work in Portland was at home last Sunday and Monday. During the summer his time will mostly be occupied at Seattle where the company with which he is connected has a large contract for putting in a new system of water works. It is evident that the Telegram reporter don't get very close to Mr. David when he is in the city for in one issue of the paper it will be "J. B. David a prominent merchant of Newberg etc." and in another "J. B. David a Newberg wheat buyer etc."

E. V. LITTLEFIELD, Co. Supt.

Mrs. J. C. Kirk died at the family home two miles southeast of Newberg, on Tuesday night of consumption. She had been a sufferer from this dread disease for several months and death was not unexpected. The family came here a few years ago from Oskaloosa, Iowa, and although the deceased was never in good health she endeared herself to all who knew her by her kind christian bearing, and she will be sadly missed by many outside the sorrowing family of near relatives. In her death she leaves a husband, two sons and one daughter here and a daughter in Iowa. The funeral was conducted from Friends church on Thursday afternoon by Pres. Thomas Newlin.

Lee Graham, of Amity, was in town a day or two the first of the week. Mr. Graham was a clerk in George Ramsey's store eighteen years ago when he was doing business in a building east of town on the Mrs. Haynes, now the Mackey property. The postoffice was "kept" in the same building and the mail came by horseback tri-weekly from Portland. The goods for the store were hauled from the river landing over roads that were new and "totally depraved" during the winter season, as the writer can testify. This was a good while ago and arriving and departing mails are more bulky than they were then, more goods are handled by our merchants, and the forms of many who called for mail at the little postoffice window are mouldering to dust in the silent city of the dead near by.

Fine Ling Ladies Oxfords at S. C. & Co.

The Graphic and the Oregonian for \$2.00. Lumber \$6.00 per M ft. at Newberg Milling Co.

Levi Myers went to Oregon City on Thursday for a visit of a few days with A. B. Cornells. Our Cameras and Kodaks will make the homey handsome. See samples of work in window at C. F. Moore & Co's.

L. L. Votaw has bought into the furniture and undertaking business with his brother Moses and he now has charge of the stock. Mrs. J. W. Barrie received the sad intelligence of the death of her father S. L. Nason, at Snow, Wisconsin a few days ago. The deceased lived to the ripe old age of seventy-eight years.

A rare treat is promised us in Dr. Blackburn's popular lecture upon Gumption next Tuesday evening, May 2, at the Baptist church. Come and hear him. Admission 20 and 10c.

Some of our bicycle men say, "No wheel is guaranteed for a year." Orland Hancock does not say that about the Ajax. Call at Hancock's new store near P. O. and see guarantee, and examine bicycle.

"Gumption" is the subject of an enthusiastically received lecture delivered in the Baptist church Tuesday evening last. The lecture ranks among the best ever delivered in our town.—Malcolm Ill. Journal.

Don't think you can cure that slight attack of dyspepsia by dieting, or that it will cure itself. Kodol Dyspepsia Cure will cure it; it "digests what you eat" and restores the digestive organs to health. C. F. Moore & Co.

Notice:—Have you a farm for sale or rent or do you know of any person holding farming lands that they wish to dispose of? If so, please write to any agent of the O. R. & N. Co. and he will send you a circular which will interest you.

John E. Smith who has had charge of Moses Votaw's furniture business for the past two years or more is now occupying the Oliver building across the street, where he will do harness work the same as he was carrying on while in the furniture store.

Luther Charles has rented G. M. Bales' shoe shop and assumed the role of a cobbler. He is quite handy with tools and will no doubt handle the business in good shape. The place he has filled so faithfully at the case in the Graphic office for the past three years has been taken by his brother Wood.

There will be a lecture May 2nd at the Baptist church by Rev. Alexander Blackburn D. D., pastor of First Baptist church, Portland. Dr. Blackburn is a rare scholar and you will be highly entertained with his popular lecture, "Gumption." The public invited. 4-21-12 J. F. Day, Pastor.

Grant Hadley and daughter Jessie of Cape Horn, Washington are here this week visiting with the former's nephew, J. G. Hadley. Mr. Hadley was formerly from Hardin county, Iowa, he having come to the coast in 1876. At present he is in the merchandise business at Cape Horn where he is also postmaster.

Dr. H. K. Hines one of the early pioneer preachers of Oregon occupied the pulpit at the M. E. church last Sunday, both morning and evening. Beside being an excellent preacher, Rev. Hines is a very fluent writer. He is the author of a history of Oregon which gives a biographical sketch of all the prominent pioneers of the state. He is a well preserved man both physically and mentally and while he is not in active work in the ministry he is still doing a good deal of work with his pen.

Eggs are holding up to twelve cents a dozen right along this spring to the surprise of many people, but it is not very surprising after all when a little figuring is done. With beef and mutton selling at present prices it is easy for the close calculating lady shopper to see that twelve cents worth of eggs will furnish more nutriment for the family than twelve cents worth of meat, to say nothing of the saving of the wear and tear of the teeth by trying to masticate early spring beef. The industrious hen is faithfully performing her daily task of "putting up the staff" for furnishing the family with groceries and clothing the kids, and consequently to the ears of many there is more music in her cackle than there is in the sweet strains of the piano or guitar.

Benjamin Heater, of Springfield, who came in a few days ago to renew his subscription to the Graphic is looking quite well for a man seventy-eight years of age. He remarked that he was always considered the one among the family of children who was rather puny and not much account but he is in a fair way to outlive all of them. In March his oldest brother who was a resident of Marion county died at the age of eighty years. The family originally lived in West Virginia where Benjamin was born. When he was seventeen years of age the family moved to Iowa where he lived twelve years, when he crossed the plains to Oregon and settled on the farm where he now lives. He has always been a man of excellent reputation, kind and obliging to his neighbors and his old friends are always glad to see him in town and they hope to see him keep in health and live a number of years yet.

A new lot of picture moulding at Votaw Bros. Frames made to order.

Votaw Bros. have just received a new line of wall paper—latest patterns. Kodaks and Cameras from \$1.00 up. High grade and low gear at C. F. Moore & Co's.

Pay your bicycle tax to H. R. Morris and save costs. Only a few more days to run. J. K. Blair has been confined to the house for several days and is still unable to get out.

Mrs. C. B. Frissell, of Hillsboro spent a few days here last week visiting with her parents. Newberg Milling Co's is the place to get your shingles. Shaved \$1.30 per M X A X sawed \$1.60.

Mr. and Mrs. Will Clemmens, of Portland, visited in town with their son Henry a few days the first of the week. Mr. and Mrs. John Crawford left here for Sodaville on Thursday where they will drink soda water for a couple of weeks.

Ornduff Bros. and also Nelson & Reed's sawmill are both said to be kept busy all the time and they can scarcely keep up with the orders that come to them. At the Friends church next Sabbath Prof. C. E. Lewis will have charge of the morning service, and Pres. Thomas Newlin will conduct the evening service.

Jacob Boyd, the soldier who died at Manila last Sunday of smallpox was a brother to Riley Boyd who until recently lived on a part of the Hess land west of Newberg.

An enterprising capitalist who owns a tract of land over by Dundee is having thirty-eight acres planted to walnuts. The Graphic hopes to be able to give particulars later.

By allowing the accumulations in bowels to remain, the entire system is poisoned. DeWitt's Little Early Risers regulate the bowels. Try them and you will always use them. C. F. Moore & Co.

A convention of bicycle riders has been called to meet at McMinnville on Saturday for the purpose of discussing the bicycle path problem. The way the weather has been for the past few days the delegates will most likely be compelled to go in all the same as rough riders rather than astride their wheels.

Granville Everest wants attention called to the fact that while some who are patronizing the creamery are inclined to grumble a little on account of the price of creamery butter falling off ten cents on the roll, bran which formerly sold for \$18 per ton is now down to \$13 and grass is fast taking the place of dry feed. He thinks milk men should figure a little on the comparative cost of production before they speak out too positively.

Benjamin S. Coppock, who went East some time ago informs Mrs. Coppock that he has received the appointment of supervisor of schools in the Cherokee Indian Nation. He has already gone to that field to take up the work and his wife and daughter will join him in the near future. As a result of the work of the Dawes Commission the policy of the government with reference to the five civilized tribes of the Cherokees will be changed, and Mr. Coppock will supervise the schools, both Indian and white in that part of the Territory. He has been connected with Indian school work most of the time since 1883, first at Whites Manual Labor school at Wabash, Indiana where he remained five years and afterward as superintendent of the U. S. Indian school at Chillicothe, I. T., all of which has given him special training for the place he is now called to occupy. On account of his former successful work he has been highly commended by Dr. James E. Rhodes, of Philadelphia, now deceased, and others who have been prominent in Indian school work. The position he now holds is a good one and may be considered a promotion over the graphic he has formerly held. The graphic congratulates him on his appointment and wishes him and his highly esteemed wife and daughter success in their new field of labor.

A Thousand Tongues Could not express the rapture of Annie E. Springer, of 1125 Howard St., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure, "It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the Universe." So will every one who tries Dr. King's New Discovery for any trouble of the Throat, Chest or Lungs. Price 50 cents and \$1.00. Trial bottles free at C. E. Smith's drug store; every bottle guaranteed.

For La Grippe. Thomas Whitefield & Co., 249 Wash-st., Jackson st., one of Chicago's oldest and most prominent druggists, recommend Chamberlain's Cough Remedy for La Grippe, as it not only gives a prompt and complete relief, but also counteracts any tendency of la grippe to result in pneumonia. For sale by C. F. Moore & Co.

The M. E. church has made arrangements with F. H. Storey for the use of the old church building until such a time as the new church shall be in readiness for dedication. This is much more satisfactory to the members than going to the hall.

The gallantry shown by a certain young college professor in standing by the fair young lady who manipulated the stereopticon under difficulties was very commendable, but there were a score or more of other young fellows present who would gladly have taken his place.

The account of a "diller's contest" which took place recently at Danville, Indiana is published this week in the Graphic for the special benefit of a number of former Indiana people who will recognize the names of several of the participants, and it will no doubt be read with interest by others who remember well the old time fiddle.

A meeting of bicycle riders was held at the city hall on Wednesday evening where the matter of the proper course to pursue in the expenditure of the money received from the bicycle tax was discussed. Dr. Littlefield acted as chairman and Harry Allen as secretary. By motion the chairman was directed to appoint a committee of five, with himself as chairman, to attend a meeting which is to be held at McMinnville on Saturday to discuss the bicycle path problem. Steps were taken to form a bicycle club and a large number of names were enrolled. The next meeting will be held on Saturday night when permanent organization will be effected. All bicycle riders are invited to attend this meeting.

The lecture on Hawaii at Friends church by Miss Joehne on Tuesday evening was well attended and the audience was highly pleased with the graphic description given of our new possessions in the Pacific. Miss Joehne captivates her audience the moment she steps upon the rostrum by her graceful, ladylike bearing and her descriptive powers are such that she easily holds the attention of her hearers. Some delay was occasioned by the lantern refusing to do its duty and the college lantern having to be substituted, but the sympathy of the audience was with the ladies under the trying circumstances and all went well. The stereoscopic views of the island scenery were excellent and aided very much in giving one a correct idea of the condition existing in that tropical climate. Miss Joehne gives a very instructive and entertaining lecture and no lecture bureau will make a mistake by engaging her.

Robbed the Grave. A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first hot made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, C. E. Smith's drug store.
