The lecture, "A Valley of Diamonds" by Dr. Henry Rasmus, delivered at Friends church on last Friday evening, was well received. He remained over Saturday and Sunday and on Sunday evening preached to a very large audience in a union service held at Friends church. Rev. Rasmus is gifted in oratory and he has no trouble in holding the close attention of his audience.

Jim Ramsey, who left here some time last winter with the intention of going to Portland to get a lame hand operated on has not been heard from since. Not much uneasiness is felt however for his welfare as Jim is not very communicative respecting himself and his business. It is likely that he struck a satisfactory job somewhere in the country and is attending strictly to business, as his custom is.

Prof. Chas. E. Lewis, pastor of Friends church, has resigned his charge, the same to take effect May 29. He feels that he was helped very much by the treatment taken at the Sanitarium, but in accordance with the advice of his physician he thinks best to take a long needed rest during the summer months, and with this end in view he will leave here next week for Delta, Colorado, where he has relatives and friends who are anxious to have him try the invigorating climate of that region. This will no doubt be a good place for his retirement as it is said to be a quiet nook where little public work is expected, and his failing seems to be largely a lack of the necessary grit to say no when he is asked to take an active part in some good work for the bettering of humanity. He has done splendid service in Newberg in connection with the college and church work and his many friends hope to see him return in the fall with his bodily strength greatly built up.

Mrs. Paige, an elderly lady who has a pretty well improved ranch in the Coast mountains on the Nestucca road has been in town during the week visiting with H. H. Winslow. She contemplates locating in Newberg if she can make an exchange of property to suit.

John Bristow says we will have showery weather up to June 11. Beyond that date he don't care to stake his reputation as a forecaster at present, but he may be depended on to do his part in the way of giving out desirable information at the end of that time. John is no spring chicken.

Next Sunday at the Friends church at 11 o'clock will be the union memorial service. Rev. Levi D. Barr will preach at the evening service at 8 o'clock. All are cordially invited. The usual Sabbath collection will be taken at the evening service instead of the morning service on account of the union meeting.

It appears from a letter received here a few days ago that Charley Mitchell, who went from here to Georgia and Florida some time ago in search of fields Elysian has swung around the circle until he has reached his former haunts in Vermillion county, Illinois. Charley's Newberg friends may as well begin to stallied the calf.

Charley Cox, the elder brother of O. L. Cox arrived here last Saturday evening from Colorado and he is now being cared for by his mother, Mrs. Mary C. Osborne. Barr will take the house opposite Friends church made vacant by Mr. Spaulding.

During the past month a test has been made at the brick factory of some new machinery for making Roman brick and the results have been highly satisfactory. This particular kind of brick is 12 inches long, four inches wide and one and a half inches thick, and those that are being made at present are for the Federal building in Portland. They are of a gray color and will make a very pretty wall. A kiln was opened a few days ago and the brick came out in fine shape, showing an excellent burn.

Dr. Dixon has been putting in some new fixtures at his dental office that will be appreciated by those who have work done in his chair. A flowing fountain or cuspidor placed beside the "operating" chair instantly removes all blood and saliva and a glass suction tube placed under the tongue carries away the saliva while the mouth is spread and the tooth is being operated on. Submitting one's self to the tender mercies of the dentist always requires a degree of courage and the public will be glad to know that in the future dying is to be made as easy as possible.

O. J. Hobson who recently went to Lewiston, Idaho, seems to have been caught with a mining spirit from the start, such as would have done credit to a forty-niner when all things "Westward ho!" had a golden lining. For a long period of years it has been the dream of miners to get a machine constructed that would successfully separate the fine gold from sand, and O. J. thinks he has struck it. A cut of his machine appeared in the Oregonian a few weeks ago along with a description of it which reads much like his scientific lingo, and it is reported that he has been offered \$30,000 for his invention. His friends here hope that all his dreams may be speedily realized and especially that the \$30,000 proposition may be turned into a bank account without delay.

Don't think you can cure that slight attack of dyspepsia by dieting, or that it will cure itself. Kodol Dyspepsia Cure will cure it; it "digests what you eat" and restores the digestive organs to health. C. F. Moore & Co.

Mrs. F. A. Morris left here on Wednesday morning for Annapolis, Parke county, Indiana, where she will spend several weeks visiting at the old home-stead. She will also visit with relatives and friends at Minneapolis, Minnesota, and Tuscola, Illinois, and she may wander down to the banks of the Wabash before she returns.

Mrs. Hoxter, of Portland, was in town a few days the first of the week soliciting funds for the support of the Florence Crittenden Home in the city. Many innocent girls have been saved from ruined lives through the efforts of the good ladies who have charge of this work and money given in support of the Home is charity worthily bestowed.

John McCleery who has been janitor at the public school for the past two years takes an interest in keeping things about the building in order and when there are any decorations to be made he takes delight in lending a hand. He followed the flag for a long period some thirty-five years ago and he knows how to use the stars and stripes to good effect in decorating a stage.

My friend if you have never given me a call, give me one now. I am in the position of the man who was trying on a pair of boots that were too small for him. An Irishman standing by said: "Begad ye can't get them boots on till ye wear 'em awhile." So it is with me. I can't receive your further business until I get your first order. Please give me a call. C. C. SMITH, Photographer.

Canby Heston, who was in town last Tuesday said that the indignation of the better element of society about Dundee was very much aroused on account of preparations that are being made to put in a saloon in that village. John Parrot is out with a remonstrance which has been very numerous signed but it seems that a majority of the village council favor the grog shop. Several attempts have been made in the past to make saloons go at Dundee but they have never been profitable to the saloon-attic nor creditable to the place and they have always been short lived. There are just about enough people around Dundee to give support to a decent business without throwing any money away on any other kind.

Hardly any public event attracts like the closing exercises of a public school, for there is scarcely a home in the community that is not represented by one or more little tots and these little men and little women must be attended by the parents, brothers and sisters, cousins and maiden aunts. Such a crowd was gathered at Armory hall on last Saturday evening to witness the closing exercises of the public school and the hall was packed to the doors, standing room being at a premium. The program as given last week was carried out and nine girls and three boys finished the public school course. The stage was beautifully decorated with the stars and stripes and the flowers bestowed were quite liberal in amount, considering the backwardness of the season. The Pacific College scholarship was awarded to Miss Anna Carter, Clarence Coe being a very close second.

The term "heart failure" is now used to cover a multitude of cases. When a man dies and the doctors are at a loss to name the cause they just call it "heart failure" and let it go at that. To a man who is not up in medicine it seems that the failure of the heart to do its work is the cause of most deaths anyway.
