"Durability is Better Than Show."

The wealth of the multi-millionaires is not equal to good health. Riches without health are a curse, and yet the rich, the middle classes and the poor alike have, in Hood's Sarsaparilla, a valuable assistant in getting and maintaining perfect health.

The value of the fruit consumed in Great Britain every year is estimated at £10,000,000.

The queen of Italy, says a gossip, weighs 176 pounds; Queen Victoria, 171 pounds; the queen of Spain, 147 pounds, and the queen of Belgium, 143 pounds.

There is a quicksilver mine in Peru 170 fathoms in circumference and 480 feet deep. In this profound abyss are streets, squares, and a chapel where religious worship is held.

It appears that they are to have a new form of field sport in England, as several gentlemen are busying themselves in the process of training man-hunting bloodhounds. As the sport is followed on horseback it will probably be supplementary to—if not a substitute for—fox-hunting. It is not mentioned what is to be done with the man when he is run down. He can hardly be treated in the same way as the fox now is.

It is apparently almost as difficult for a tradesman to gain entrance to Marlborough house, the London residence of the prince of Wales, as it is to get within the lines of an armed camp. A narrow glass door in the right wing of the palace is reserved for such visitors, and only those having an appointment previously arranged for by the prince's valets are admitted, while several soldiers and minor officers of the law are close about to prevent the admittance of undesirable persons.

The Light That Failed.

Yawper now keeps a grocery, but he loves to tell how near he came to being a great actor. "I'm a natural elocutionist," he tells, "and for that reason I found it pretty easy to get a good part in a fair theatrical organization. I went through all rehearsals like a star and the manager predicted all kinds of success for me. Among my lines there was a patrotic address, and there I came out particularly strong. I was delivering it on the first night and I could just feel that I was making the cold chills run up and down the spines of my audience and covering them with goose flesh. Suddenly my memory became a blank. As I stood mute trying to gather the lines some little cuss yelled 'louder.' I ran off the stage and never went back."—Detroit Free Press.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

PACIFIC COAST NEWS

Commercial and Financial Happenings of Interest to the Growing Western States.

To Control the Market.

There are negotiations on foot at Vancouver, B. C., for a very large beef deal, which, it said, may result in a combine and a subsequent rise in prices. The sale will affect Victoria and Vancouver, and will tend to bring the meat business of both cities under the control of one company. The head of the alleged negotiations is P. Burns, whose headquarters are at Nelson, B. C. It is stated by business men who are on the inside of these negotiations that it is the intention of Mr. Burns to control the market of the coast.

Shortage of Tin.

A new phase in the salmon-canning operations has just cropped up at Vancouver, B. C., and may result in a complication of affairs which was unlooked for. Every indication points to the run of sockeyes being large, but if it is, the canners will be unable to cope with it, owing to the shortage of tin-plate. Not a single box of tin plate can be found on the Pacific coast. Across the line it has been very scarce, and the market is now depleted.

Idaho Wool Sales.

The following wool sales have been made a Mountain Home during the past few days to representatives of Eastern houses: Hein & Chattin, 110,000 pounds; J. C. Coats, 60,000 pounds; William Kunnecke, 30,000 pounds; J. L. Gray, 25,000 pounds; Fred Halverson, 8,000 pounds; Mrs. Nettie Pinkston, 14,000 pounds. The prices paid ranged from 9 to 11 cents, or 3 cents less per pound than was paid last summer.

To Sell Fanning-Mills.

A company has been organized and incorporated at Moscow, Idaho, called the Idaho Grain & Seed Cleaning Company, to handle the grain-cleaning mill which has lately been introduced. This company has bought the right to sell this machine in the three states of Idaho, Montana and Wyoming. The mills will be manufactured at Walla Walla, but the sales of these mills will be made from Moscow.

New Brickyard.

A new industry has been established at Trail, B. C. A. C. Luff and Richard Tunswell have installed at that place a brick-making plant, which is now in complete running order and is turning out 20,000 bricks a day. There is so a great a demand for brick that the advisability of adding machinery sufficient to increase the plant to a capacity of 40,000 per day is being considered.

New Gas Plant.

The gas company at Butte, Mont., will at once put in the best and newest plant that money can buy, thereby doubling the capacity of the present plant. The new plant will also produce a higher candle-power gas. The plant is so planned that it can be extended as the city grows without requiring reconstruction, as is the case with the present outfit.

New Incorporation.

The Montana Smoke Condensing Company, of Missoula, Mont., has been incorporated by Charles Eaton, H. W. McLaughlin and William F. Hughes. The capital stock is fixed at $10,000. The company is formed for the puprose of manufacturing, buying, selling and leasing appliances designed to control, destroy or condense gases, fumes, vapors and smoke.

Creamery in Operation.

The Union creamery and cheese factory at Union has been completed and is now in operation. The plant is situated in the eastern part of the city and is very conveniently located for the creamery business. It has a capacity for handling the milk from 300 to 500 cows, and will no doubt prove of great benefit to the farmers and dairymen of that vicinity.

Estimates Being Made.

James Pye, representing a Minneapolis manufacturing firm, is in Lewiston, Idaho, making estimates for the machinery for the new 125-barrel mill. It is the intention of the proprietors to let the contract for the building as soon as the machinery is decided upon. The new mill will probably be in operation by the middle of September.

Bond Election.

The special school election at Sand Coulee, Mont., resulted in the bonding proposition being defeated. It was for the issuance of bonds in the sum of $3,000, bearing interest at the rate of 6 per cent, redeemable in seven years, payable in five years. The money was to be used for the improvements to the schoolhouse at that place.

Railroad agents are thick at The Dalles to solicit stock shipments.

The little schooner-rigged boat Coke, about 30 feet long and of only five tons measurement, has sailed for Manila from San Francisco. Captain Freitsch, the sole occupant of the vessel, proposes to make a tour of the world in the apparently frail cockle-shell which he constructed with his own hands. He claims to have crossed the Atlantic in a vessel of even smaller dimensions.

Wool Prospects.

In a recent interview, William McGuire, a wool buyer at Goldendale, Wash., said that things begin to look some brighter for woolmen than they did a few days ago. Three large sales have been made at 'Frisco warehouses within the past few days, one lot of an entire clip, probably 40,000 pounds, at 9 cents. The other two were about as large and sold at 10 and 11 cents respectively. These purchases were made by Eastern manufacturers' agents for use in their mills. Another report says that as high as 13 cents has been paid for wool at Seattle.

Bonding Proposition.

An election will be held at Nelson, B. C., to vote on the question of bonding that city in the sum of $80,000 for the purpose of building a public building, erecting a waterworks system and light plant, and also to improve the sewer system. These bonds are to bear date of July 20, and made payable in 20 years from date.

Supplies for Dawson.

The Frye-Bruhn Company, of Seattle, has been awarded the contract to supply the cold storage steamer of the Alaska Meat Company, which sails for Dawson, via St. Michael's, with 200 tons of fresh meats, comprising 10,000 turkeys, 10,000 chickens, 60 tons of beef, 40 tons of mutton, 10 tons of butter, eggs, etc.

Big Cattle Shipment.

Kyle, Wheeler & Co., the cattle-buyers, have at the Southern Pacific yards at Albany 17 carloads of cattle. To these will be added 16 carloads from Junction City, making a shipment of nearly 1,500 head of Oregon cattle, which will go to Rosenbaum & Co., at Omaha. The cattle represents a value of $40,000.

AT THE MERCY OF BANDITS.

Permanent Military Force or Annexation Necessary in Cuba.

New York, June 10.—A dispatch to the Herald from Havana says: Manuel Yribas, manager of Cardenas-Juroca railroad, who arrived in Havana today, says brigandage continues uninterrupted in Porto Principe province and Western Santiago. He says the country around Puerto Padre, Nuevitas, Gibara and Holqiun is completely at the mercy of bandits. Cattle have been stolen from the farms and other outrages have been committed.

Most of the farmers have suspended cultivation in San Manuel, and a sugar estate near Puerto Padre, owned by Mr. Pla, has been obliged to shut down. Cuban soldiers, mostly negroes, hang around the villages, but won't work, and the robberies are ascribed to them, but no attempt is being made to prosecute them. A strong feeling exists there that the United States should send soldiers to protect property. Juan Potous, Spanish vice-consul here, says the Spaniards are receiving no protection from the United States. There is no recognized consul in Havana at present, and he cannot put the claims before General Brooke. He has made a statement to the Spanish minister at Washington.

It is learned from towns in the country that Spaniards are suffering many cruelties, but make no complaint through fear of being killed. In Caimato three were killed a month ago, but no notice was given by the authorities. On Sunday night four black Cuban soldiers showed where they killed the Spaniards in a cafe, boasting of the deed. These men are sacking the country in the vicinity.

American cattle-dealers have stopped shipping stock to points any distance outside of the large cities and ranchmen who can get into Havana come every night. Americans who have invested money are urging the military authorities to put small garrisons in all the towns. The feeling outside Havana is growing stonger every day that a permanent military force or annexation is the only thing that will rebuild the country.

FRICTION AT MANILA.

Otis Severely Criticises Schurman's Policy—Reason for Dewey's Departure.

Washington, June 10.—President J. G. Schurman, of the Philippine commission, will resign on his return to the United States, because of friction between himself and General Otis.

Admiral Dewey hastened his departure from Manila, it is said, because of friction in the commission. He had steadfastly declined to leave his post before, and his determination to return was sudden.

The president today received a cablegram from General Otis, in which he severly criticised President Schurman's policy, and put himself on record as opposed to President Schurman longer interfering with the campaign in the Philippines. He said Schurman does not comprehend the situation. While Professor Worcester and Colonel Denby are in accord with the commanding general, President Schurman has persisted in adopting a course which they did not approve.

The president will uphold General Otis. The friction was caused by President Schurman's desire to treat with rebels who had no authority. General Otis declined to participate.

THE PLAGUE IN CHINA.

Frightful Stories Come From the City of San Ning.

Vancouver, B. C., June 9.—According to advices brought by the steamer Empress of Japan, frightful stories of the plague come from San Ning, while Canton and Fatshan are reported "bad." A Hong Kong paper says:

"The city of San Ning might correctly be named 'the city of death.' The plague is raging with special virulence, and carrying off its victims in large numbers. Shops and dwelling houses are closed, and their inhabitants have fled into the country carrying the infection with them. Business is paralyzed. The streets are reeking with filth, and all drains are choked with rubbish.

Great Cave in New Zealand.

Chicago, June 10.—A special to the Record from Victoria, B. C., says: The Mammoth cave of Kentucky, which has held the record heretofore as the world's greatest cave, must hereafter, it is believed, give precedence to a cave in New Zealand, discovered on April 27, by Horace Johnstone, near Port Waillato, and but 10 or 12 miles from the city of Wellington. Johnstone explored the cave for miles, but found no end.

Explosion at Pain's Works.

New York, June 10.—An explosion occurred at the manufacturing plant of the Pain's Fireworks Company, at Greenfield, N. Y., today, and resulted in the destruction of the manufacturing sheds and a small magazine. The damage is placed at about $25,000.

Date of Sailing.

Manila, June 10.—The Second Oregon volunteers, preparing to leave for home, will start, according to present plans, Tuesday. Under the recent order of the war department, the regiment will bring back with it the bodies of its dead.

Austrian Town Burned.

Linse, Austria, June 10.—The market town of Otensheim, about five miles west of Linse, on the Danube, has been totally destroyed by fire. Four women perished in the flames, and a number of people were injured.

Proclaims Himself Dictator.

London, June 10.—A special dispatch from Manila today says it is reported that Aguinaldo has dissolved the Filipino congress and proclaimed himself dictator.

British Imports and Exports.

London, June 10.—The statement of the board of trade for the month of May shows increases of £3,170,400 in imports and £5,138,900 in exports.

Berlin, June 10.—The budget committee of the reichstag voted the first installment of the 300,000 marks for the German Antarctic expedition.

Mrs. Emily A. Fifield, a member of the Boston board, presided at a recent session of that body in the absence of the president. It is the first time in the history of the Hub that a woman has been so honored.

SCIENCE AND INDUSTRY.

Production of pig iron in Russia is estimated to have increased from 600,000 tons in 1887 to 2,194,000 in 1898.

Belgium had 103 strikes last year, involving 14,266 laborers. Only in 12 of these cases did the strikers win a complete, and in eight a partial, success.

New York made between 3,000,000 and 4,000,000 fewer cigars in the year ended April 1, than in the previous year, and more than 129,000,000 fewer paper cigarettes.

A machine that will greatly reduce the cost of harvesting has been invented for the harvesting of sugar beets. This means a few more laborers will be looking for work in the cities.

It is reported that Dr. Linde, one of the inventors of machinery to liquify air, is engaged in work on a small piece of apparatus which will weigh less than 2½ pounds and will produce liquid air in 18 minutes.

Reports from 22 British towns show that London, the only one supplied with river water, has almost the lowest death rate from fever—67 per million. The rate at Plymouth is 40, while at Glasgow it is 184, and at Belfast it reaches 1,667.

The invention of a machine which will automatically fold, wrap and address newspapers is announced. It was recently tested in New York and found to be a phenomenal success. Two men can operate six machines, thereby doing the work of 24 men. The machine will soon be on the market.

The United States a Power for Good.

A distinguished historian writes, while referring to our advent as a colonizing power, that our influence for good over European spheres will be immense. This result was just as inevitable as is the cure which follows the use of Hostetter's Stomach Bitters. It cures indigestion, constipation, and tones up the whole system.

COULD NOT SLEEP.

Mrs. Pinkham Relieved Her of All Her Troubles.

MRS. MADGE BABCOCK, 176 Second St., Grand Rapids, Mich., had ovarian trouble with its attendant aches and pains, now she is well. Here are her own words:

"Your Vegetable Compound has made me feel like a new person. Before I began taking it I was all run down, felt tired and sleepy most of the time, had pains in my back and side, and such terrible headaches all the time, and could not sleep well nights. I also had ovarian trouble. Through the advice of a friend I began the use of Lydia E. Pinkham's Vegetable Compound, and since taking it all troubles have gone. My monthly sickness used to be so painful, but have not had the slightest pain since taking your medicine. I cannot praise your Vegetable Compound too much. My husband and friends see such a change in me. I look so much better and have some color in my face."

Mrs. Pinkham invites women who are ill to write to her at Lynn, Mass., for advice, which is freely offered.

Hunt for Dewey Relics.

The house in Montpelier, Vt., which Dr. Julius Dewey occupied and in which all of his children were born was originally small, but was several times added to. Within the last two or three years, wishing to replace this modest structure with a handsomer, more modern edfice, Edward Dewey, the second son, sold the dwelling and barn (retaining the grounds) for $150. Three days afterward the buildings were resold for $400, the last purchaser, who paid the cost of removal, placing them on a lot on State street. Since the battle of Manila this house, as the birthplace and early home of its hero, has been an object of interest to tourists and relic-hunters. The latter, indeed, have threatened to carry it away piecemeal, a souvenir fiend in one instance wrenching off a silver-plated faucet and leaving the water running in the bathroom with the pressure of the full system of 158 pounds.—Boston Transcript.
